Military do. (Infantry & Artillery practice) no charge The course of Education is thorough, practical and well calculated to qualify youth for the various duties of life, whether occupying public or private, Civil or Military stations. The moral and intellectual faculties are kept severely in action, but not at the expense of the physical, as is unfortunately for the health of our children too commonly the case throughout the country.

Regular and systematic Military Exercises, as well as Practical and Scientific Operations, introducing Surveying and Civil Engineering, are substituted in the place of unprofitable play, and required of all su-dents—the usual six hours of daily recitation and study being invariably left distinct & uninterrupted. The Cadeus, in rotation, discharge the duties of on-commissioned Officers, Officers of the Guard, and Officers of the Day, of Adjutants and Comman-dents of Parade; and for the purpose of rendsring them more perfect, occasionally act as Military Instructors.

It has been found from experience, that this beautiful Gymnase invigorates both mind and body, and by inducing habits of order and regularity, contributes much to mental improvement.
