Save your Corn Cobs & Shucks.

TO THE PLANTERS AND MIL. LERS OF NORTH CAROLINA.

HE undersigned has obtained Letters Patent to enable common Mill stones (or rocks) now n use, to grind CORN, COB and SHUCK, into meal, for Horses, Mules, Cattle Hogs, &c. there-by saving more than one third of a crop, which is an for the above purpose is simple and durable, and cannot, with fair means, get out of order. It will last as long as the Stones last, with an expense of 50 cents every five years. . To enable the common Mill Stones to grind ear corn into meal, requires no new buildings or extra power. It can also be applied to Horse Mills, Treshing Machines, Gine of any given power known. The same Mill will grind one-third more of Corn meal by the introduction of this Machinery, and can be changed from grinding Corn and Cob, to grinding Corn Meal in the space of thirty seconds.—
Corn alone, when fed to stock, is said to be by the most practical and scientific Planters, constiputing in its effects, producing founders, cholics and various other maladies which are incident to stock. Grinding cole with the Corn, makes a food congenial with their nature, and cannot produce say of the serious results above mentioned. Stock, when fed on Corn exclusively, are deprived of the benefits of distension (so necessary to the proper health of animals,) by their being queble to eat a sufficient bulk to produce distension before the animal becomes gorged. Cobs ground with the corn, produce this necessary distension, without any danger of diseases arising from overesting. Corn and cob meat is improved by scalding, and still more by boiling, and yet more by a partial fermentation. All the preparations facilitate digestion for Hogs. But Horses and Mules will not eat fermented food, consequently they will require it dry or partially wet with cold water Horses, Mules and Oxen, when fed with unground food, void much in an undigested state, which is of course lost for all beneficia purposes, -07 Read the subjoined cer-

The undersigned can be addressed at Raleigh, and all calls will be attended to punctually and with despatch by himself or Agent

WM. F. COLLINS.

Raleigh, Feb. 20, 1845. CERTIFICATE.

Having been solicited by Maj Collins to have my Mill adjusted to grind Corn in the Ear and Shuck, I consented that he should do so as an experiment; and I am able to say that it grinds Corn in the Shuck at the rate of 30 bushels per hour; and the dressing of the stones is so improved, that it grinds shelled Corn more than twice as fast as before, and by my watch, at the rate of 15 bushels per hour, and the meal finer then usual. I deem it a valuable improvement, and shall purchase the right to use it, as it will afford me a speedy way of feeding my horses and cattle, and

save much thereby. WM. BOYLAN. MORE PLOUGHS.

Sharpening, (having sold the first lot entirely out.) All we ask, is that our Farmers would

try them, as in every instance beard from, they are highly approved of, and must come into general use, if either time or money is worth eaving.
