Utley's Patent Washer, An entirely new Article, lavented by GRAY UTLEY, Chapel Hill, N. C.

HIS new Washing Machine, just invented, and new in su ceesful operation, is so simple in its character, that almost a child can work it-so cheap in price, that every family will be able to own oneand so labour-saving in its result , that it must command sales, when its merits are known.

The construction is so simple, that with a pattern, any Carpenter and Blacksmith can make one and it is not easily put out of order. The clothes to be washed are put in at each end of the Washer, and a crank, worked by one person, puts in motion two Rollers which by gentle pressure and friction, thoroughly cleaness the Clothes in an incredibly short time. It will wash twelve shirts, perfectly in fifteen minutes, and will perform, in a day, the work of seven expert Washerwomen.

The price is only Ten Dollars. It is not deemed nece-sary to go into an elaborate description of the Washer, as it is now getting into use about Ruleigh and its vicinity, and can be seen by those who want an article of the sort. @ Persons are at liberty to try the Machine. and return it, if it fails to give satis-
