For Sale or Rent,

TWO splendid new Houses and lots on Hillsborough street, leading from the Capitol to the Seminary and about half way between the two. One house is thirty feet by eighteen with a partition in the middle, with four rooms and two fire places, one above and below, and portico in front. The other is forty feet by twenty, with a ten foot passage above and below, making all the rooms private, each of which has good and comfortable fire places, and has a portico in front. There is attached to each of the houses a good kitchen, smoke house and dairy &c., and nearly three quarters of an acre belonging to each lot, and under a new plank fence with railing in front. Both of the houses are nicely finished, and painted both inside and out; as also the out houses and railing. There is decidedly the best well of water in or about the City, convenient to the use of both lots. This is given up to be the most pleasant and healthy part of the City. Any person wishing to purchase, or rent, will make application to the Subscriber.

HARRIS' HOTEL,
CONCORD, NORTH CAROLINA,

The Subscriber has the pleasure to inform his old friends and customers, and the public generally, that he has recently purchased the large BRICK HOUSE adjoining the North-west corner of the Court House, in the Town of Concord, and has fitted it up in a fashionable and comfortable style as a HOUSE for the accommodation of the public. His house has been thoroughly repaired—his rooms are large and conveniently arranged, and his furniture is entirely new. His Hostler is not surpassed by any in the State. He flatters himself that from his long experience in the business, he is able to give satisfaction to all who may favor him with a call. All I ask is a fair trial. Call and judge for yourselves.

Utley's Patent Washer,
An entirely new Article,
Invented by GRAY UTLEY, Chapel Hill, N. C.

THIS new Washing Machine, just invented, and now in successful operation, is so simple in its character, that almost a child can work it—so cheap in price, that every family will be able to own one—and so labour-saving in its results, that it *must* command sales, when its merits are known.

The construction is so simple, that with a pattern, any Carpenter and Blacksmith can make one, and it is not easily put out of order. The clothes to be washed, are put in at each end of the Washer, and a crank, worked by one person, puts in motion two Rollers, which by gentle pressure and friction, thoroughly cleanses the Clothes in an incredibly short time. It will wash twelve Shirts, perfectly in fifteen minutes, and will perform, in a day, the work of seven expert Washerwomen.

The price is only Ten Dollars.

It is not deemed necessary to go into an elaborate description of the Washer, as it is now getting into use about Raleigh and its vicinity, and can be seen by those who want an article of the sort. ☞ **Persons are at liberty to try the Machine, and return it, if it fails to give satisfaction.**

Have arrived and taken charge of this popular Female Institution.

The Exercises of the School will commence on the 28th of May, and continue for five months, and be resumed after a vacation of two weeks, for five months more, at the end of which, there will be a Public Examination.

The Course of Studies will be divided into four Departments or Classes, with appropriate Studies assigned to each, so as to give to the Pupils who may take the whole course, the best opportunity for improvement during their stay.

Few Schools, if any in the Union, will afford better opportunities to acquire a thorough education than this.

Professor MORGAN comes recommended by some of the first Literary men of this country, as eminently qualified for the position he now occupies, at the head of this Institution; and to those who have read the Circular addressed to the public, it is evident that the plan of Instruction there pointed out, is well calculated to advance Pupils with rapidity, and make them fine Scholars.

The Proprietor, therefore, congratulates himself, and the Citizens of this and the adjoining States, that so good and convenient an opportunity for a thorough education is now offered, and at so cheap a rate.

Persons wishing any information relative to the School, will address Professor MORGAN, Greensboro', N. C.

J. M. MOREHEAD,

THE Proprietor of this delightful and salubrious Summer Retreat, takes pleasures in announcing to his friends and the public, that his House is now open for the reception of visiters, and that no reasonable trouble or expense will be spared to render comfortable those who may favor him with their company. Having added a *large three story building* with many comfortable and pleasant rooms to his former establishment, he is prepared to accommodate a much larger company than heretofore, and assures those who may be disposed to patronize him, that his Table shall be *equal at least* to any in the State.

Satisfactory evidences of the Medicinal properties of the water might be given, but he deems it only necessary to say that a recent Chemical Analysis by Professor Hardy, proves it to contain the following Gases, Salts, &c., in quantities amply sufficient for all useful purposes, viz: Sulphuretted Hydrogen and Carbonic Acid Gas; Sulphate of Magnesia; Sulph. of Lime; Muriate of Soda; Oxide of Iron, &c.

The water is peculiarly adapted to the cure of diseases of the Liver, Kidneys and Skin, Dyspepsia, feeble Digestion, Jaundice, &c.

Such arrangements will be made as will enable those who travel by the Rail Road (which runs within 12 miles) to obtain at all times the means of conveyance to or from the Springs.
