> The above Goods were not bought altogether for cash, therefore we want to sell them as quick as possible, and to make it an inducement for customers to purchase, will do now what we have done for two years - sell cheap, and that without compulsion. We spent quite as much time in New York as any body in our line-we think we bought our Goods as cheap, at all events, we bazard nothing in saying we will sell as cheap, and that is all the customer cares for at last. Recollect that Oliver & Procter reduced the prices to what they now are. If you get your clothing cheaper, you are indebted to them for it. Without disparaging others, we think we can supply a suit equal in all respects to any House in the United States, and at as cheap a rate-quality of the goods considered. We avail ourselves of the present opportunity to return our sincere acknowledgments to our numerous friends and customers, for the patronment in business. Their kindness has greatly exceeded our merit, but we trust, by strictly attending to our business, and endeavoring promptly to fulfil our engagements. to have its continuance.

We receive every two weeks, through our New York correspondent, the latest Paris, London, and New York Pashions. Persons furnishing their own goods, will have them made up with the same neatness and despatch as though we supplied the article entire Orders from a distance thankfully received

SAVE YOUR CORN COBS AND SHUCKS. TO THE PLANTERS AND MILLERS OF N. CAROLINA,

HE undersigned has obtained Letters Patent to enable common Mill stones (or rocks) now Received this day, at in use, to grind CORN, COB and SHUCK, into meal, for Horses, Mules, Cattle Hogs, &c. thereby saving more than one third of a crop, which is an ly attended to. important item with planters. The machinery used for the above purpose is simple and durable, and canfor the above purpose is simple and durable, and cannot, with fair means, get out of order. It will last as long as the Stones last, with an expense of 50 cents I box Preserved Ginger, 12 Kegs Grapes, every five years. To enable the common Mill Stones to grind ear corn into meal, requires no new buildings or extra power. It can also be applied to Horse Mills, Treshing Machines, Gins or any given power known. The same Mill will grind one-third more of Corn meal by the introduction of this Machinery, and can be changed from grinding Corn and Cob, to grinding Corn Meal in the space of thirty seconds .-Corn alone, when fed to stock, is said to be by the most practical and scientific Planters, constipating in its effects, producing founders, cholics and various other maladies which are incident to stock. Grinding cols with the Corn, makes a food congenial with their nature, and cannot produce any of the serious results above mentioned. Stock, when fed on Corn exclusively, are deprived of the benefits of distension FANCY ARTICLES, MUSICAL INSTRUMENTS (so necessary to the proper health of animals,) by their being unable to eat a sufficient bulk to produce distension before the animal becomes gorged. Cobs ground with the corn, produce this necessary distension, without any danger of diseases arising from overeating. Corn and cob meal is improved by scalding, and still more by boiling, and yet more by a

despatch by himself or Agent

WM. F. COLLINS. Raleigh, Feb. 20, 1845. CERTIFICATES.

Having been solicited by Maj Collins to have my Mill adjusted to grind Corn in the Ear and Shuck, I da, and Sugar Crackers, Sugar and Ginger Cakes the line, which we offer at New York prices, by the consented that he should do so as an experiment; and from Richmond, Lemons, Oranges, Raisins, Figs, wholesale or retail. All orders thankfully received I am able to say that it grinds Co-n in the Shuck at Prunes, Currants, Dates, Citron, Filberts, Palm, Wall, 26 Eighths 233 the rate of 30 bushels per hour: and the dressing of Peccan and Cocosnuts, Almonds, Nutmegs, Branthe stones is so improved, that it grinds shelled Corn more than twice as fast as before, and by my watch. at the rate of 15 bushels per hour, and the meal finer than usual. I deem it a valuable improvement, and shall purchase the right to use it, as it will afford me a speedy way of feeding my horses and cattle, and save much thereby.

WM. BOYLAN. Public prejudice (which appears to prevail in this section of the country against all Patent Rights) so far as my statement will go in giving the advantage which I have derived in having Major COLLINS' Patent Right for grinding Corn, Cob and Shuck, attached or applied to my Grist Mill, I state, that my Mill, since this improvement was attached, grinds not only as good Meal as before, but FIVE TIMES FASTER, and grinds up the Corn, Cob and Shuck, into Meal sufficiently fine to mix with other rough food for Stock. My Mill ground very slow before this improvement was made, but now grinds fine Meal at

the rate of six bushels per hour. I make this statement, as well for the benefit of the Public, as to do justice to KnowLTon's Patent (now

owned by Major Collins.) J. MORDECAI. Oct. 20, 1845.
