Two doors below the Wholesale and Retail
Tailors' Trimmings Establishment of
JOSEPH J. BIGGS.

OUR Stock of Goods is at hand, embracing French
Black, Blue, Invisible Green, Grass Green, Light
and Dark Blue, Mulberry and Sax Gotha Cloth,
for Dress, Frock and Over Coats. Pantaloons Stuff,
consisting of Black French Doe Skin and wool-lined
Casimeres, figured and plain, Fancy colors of every
variety, and to suit all tastes. Vestings of Velvets,
black and fawn, cut and plain; Satins, black and fawn;
figured and plain Chiffons, of all colors, (Frost-
Silks for weddings and parties—something new in
these parts); in fact, all sorts of Vestings, as well as
Polka Stripes and Cravats, Stocks of every variety,
Opera and Neck Ties, all colors. Suspenders on an
improved plan. Kid and Silk, black and white
Driving Goggles, Gentlemen's Dress Shirts, latest fash-
ion. Shaker Flannel Shirts, never before brought to
this market. Silk Shirts, Collars, Bosoms, and many
things too tedious to enumerate. Together with a
complete assortment of Tailors' Trimmings, embracing
a few yards of Red Padding, Canvas Cotton
Wedding and Spool Cotton, (and by way of making
up the assortment, a few papers of Needles,) which
we would sell at Wholesale and Retail.
The above Goods were not bought altogether for
cash, therefore we want to sell them as quick as pos-
sible, and to make it an inducement for customers to
purchase, will do now what we have done for two
years—sell cheap, and that without compulsion. We
spent quite as much time in New York as any body
in our line—we think we bought our Goods as cheap
as all events, we hazard nothing in saying we will
sell as cheap, and that is all the customer cares for
at last. Recollect that Oliver & Procter reduced the
prices to what they now are. If you get your clothing
cheaper, you are indebted to them for it. With-
out disparaging others, we think we can supply a suit
outfitting others, we think we can supply a suit
equally in all respects to any House in the United
States, and at as cheap a rate—quality of the goods
considered. We avail ourselves of the present oppor-
tunity to return our sincere acknowledgments to our
numerous friends and customers, for the patronage
uniformly received by us since our commencement
in business. Their kindness has greatly ex-
ceeded our merit, but we trust, by strictly attending
to our business, and endeavoring promptly to fulfil
our engagements, to have its continuance.
We receive every two weeks, through our New
York correspondent, the latest Paris, London, and
New York Fashions. Persons furnishing their own
goods, will have them made up with the same neat-
ness and dispatch as those we supplied the article
entire. Orders from a distance thankfully received
and promptly attended to.

SAVE YOUR CORN COBS AND SHUCKS.
TO THE PLANTERS AND MILLERS OF N. CAROLINA.
THE undersigned has obtained Letters Patent
to enable common Mill stones (or rocks) now
in use, to grind CORN, COB AND SHUCK,
into meal, for Horses, Mules, Cattle Hogs, &c. there-
by saving more than one third of a crop, which is an
important item with planters. The machinery based
for the above purpose is simple and durable, and can-
not, with fair means, get out of order. It will last as
long as the Stones last, with an expense of 50 cents
every five years. To enable the common Mill Stones
to grind ear corn into meal, requires no new build-
ings or extra power. It can also be applied to Horse
Mills, Trashing Machines, Gins or any given power
known. The same Mill will grind one third more of
Corn meal by the introduction of this Machinery, and
can be changed from grinding Corn and Cob, to
grinding Corn Meal in the space of thirty seconds.
Corn alone, when fed to stock, is said to be by the
most practical and scientific Planters, constituting in
its effects, producing founders, cholics and various
other maladies which are incident to stock. Grinding
cobs with the Corn, makes a food congenial with
their nature, and cannot produce any of the serious
results above mentioned. Stock, when fed on Corn
exclusively, are deprived of the benefit of distension
(so necessary to the proper health of animals,) by
their being unable to eat a sufficient bulk to produce
distension before the animal becomes gorged. Cobs
ground with the corn, produce this necessary disten-
sion, without any danger of diseases arising from
overeating. Corn and cob meal is improved by
scalding, and still more by boiling, and yet more by a
partial fermentation. All the preparations facilitate
digestion for Hogs. But Horses and Mules will not
eat fermented food, consequently they will require it
dry or partially wet with cold water. Horses, Mules
and Oxen, when fed with unground food, void much
in an undigested state, which is of course lost for
all beneficial purposes.—Read the subjoined cer-
tificates.
The undersigned can be addressed at Raleigh,
and all calls will be attended to punctually and with
dispatch by himself or Agent.
WM. F. COLLINS.
Raleigh, Feb. 20, 1845. 16—1y

CERTIFICATES.
Having been solicited by Maj Collins to have my
Mill adjusted to grind Corn in the Ear and Shuck, I
consented that he should do so as an experiment; and
I am able to say that it grinds Corn in the Shuck at
the rate of 30 bushels per hour; and the dressing of
the stones is so improved, that it grinds shelled Corn
more than twice as fast as before, and by my watch,
at the rate of 15 bushels per hour, and the meal finer
than usual. I deem it a valuable improvement, and
shall purchase the right to use it, as it will afford me
a speedy way of feeding my horses and cattle, and
save much thereby.
WM. BOYLAN.

MR. GALES: SIR—In order to remove
Public prejudice (which appears to prevail in
this section of the country against all Patent Rights)
so far as my statement will go in giving the advan-
tage which I have derived in having Major COLLINS'
Patent Right for grinding Corn, Cob and Shuck, at-
tached or applied to my Grist Mill, I state, that my
Mill, since this improvement was attached, grinds not
only as good Meal as before, but runs twice as fast,
and grinds up the Corn, Cob and Shuck, into Meal
sufficiently fine to mix with other rough food for
Stock. My Mill ground very slow before this im-
provement was made, but now grinds fine Meal at
the rate of six bushels per hour.
I make this statement, as well for the benefit of the
Public, as to do justice to KNOWLTON'S Patent (now
owned by Major Collins).

lower, than houses whose attention is divided among

Stock Farm for Sale.
I have for sale 5400 acres of land in Warren
and Cannon counties, Tenn. These lands are
covered with Oak, Hickory, Poplar, &c., and pro-
duce grass in abundance for Sheep, Cattle and other
Stock grazing, and is plentifully watered. The Oak
mast is also abundant, well suited to the raising
Hogs, and lasts from September until June. They
produce Corn, Oats, Wheat, Rye, &c., finely; and
Clover, Timothy, Herd grass and Millet grow most
luxuriantly. The climate is fine, the face of the
country generally rolling and lying along the west
side of the Cumberland, presents to the eye the
most beautiful Mountain scenery. They are about
60 miles from Nashville, within 30 of the Cum-
berland River, navigable for small boats Fall and Win-
ter. To Sheep and Hog growers, they afford the
finest opening for profitable investment, from the fact
that preparations on a large scale have been made by
houses in Nashville for the purchase of Wood and
Pork. These lands will be sold in separate parcels
or altogether, with 500 barrels Corn to suit pur-
chasers. Address Clermont, Cannon Co., Tenn.
