Twenty Dollars Reward.
RAN AWAY from the Subscriber, residing at
Pittsylvania Court House, Virginia, on the
night of the 31st day of December, 1845, a like y
negro man, slave, by the name of WILEY.
The said negro slave was purchased by me, a short
time since, from Atlas Rush, of Montgomery Coun-
ty, North Carolina, on his return with the said slave
from Fincastle, Virginia, at which place he had been
apprehended, on his way to Ohio with free papers.—
The said WILEY is black, about five feet 11 inches
high, between 24 and 25 years of age, and weighs
about 200 pounds; is very likely and well formed.
He made his elopement on a large bob tail mare,
saddle and bridle, which he also took from me, with
a large green blanket under the saddle. Had on
when he left, a checked roundabout, somewhat grey-
ish pantaloons, yarn, and a cap, and carried with him
also, a grey horse upon a cart; is supposed to have pass-
ed through Danville, Virginia, and is no doubt making
his way through Greensborough, N. C. to the neigh-
borhood of Mr. Kusb, where he formerly lived, and
with the view of procuring another set of free pap-
ers, and for the purpose of having an interview with his
wife, whom he expressed, a few days before his de-
parture, a great wish to see.
For the apprehension of the said slave, and his secu-
rity in Jail, so that I get him again, I will pay
the above reward of Twenty Dollars, and a reason-
able compensation to any one who will secure, and
take care of the mare, bridle and saddle, or either of
them, until I can get them.

SAVE YOUR CORN COBS AND SHUCKS.
TO THE PLANTERS AND MILLERS OF N. CAROLINA.
THE undersigned has obtained Letters Patent
to enable common Mill Stones (or rocks) now
in use, to grind CORN, COB and SHUCK,
into meal, for Horses, Mules, Cattle Hogs, &c. there-
by saving more than one third of a crop, which is an
important item with planters. The machinery used
for the above purpose is simple and durable, and can-
not, with fair means, get out of order. It will last as
long as the Stones last, with an expense of 50 cents
every five years. To enable the common Mill Stones
to grind ear corn into meal, requires no new build-
ings or extra power. It can be applied to Horse
Mills, Trashing Machines, Gins or any given power
known. The same Mill will grind one-third more of
Corn meal by the introduction of this Machinery, and
can be changed from grinding Corn and Cob, to
grinding Corn Meal in the space of thirty seconds.—
Corn stone, when fed to stock, is said to be by the
most practical and scientific Planters, constituting in
its effects, producing founders, cholics and various
other maladies which are incident to stock. Grinding
with the Stone last, with an expense of 50 cents
every five years, and produce any of the serious
results above mentioned. Stock, when fed on Corn
exclusively, are deprived of the benefits of distension
(so necessary to the proper health of animals,) by
their being unable to eat a sufficient bulk to produce
distension before the animal becomes gorged. Cobs
ground with the corn, produce this necessary disten-
sion, without any danger of diseases arising from
overeating. Corn and cob meal is improved by
scalding, and still more by boiling, and yet more by a
partial fermentation. All the preparations facilitate
digestion for Hogs. But Horses and Mules will not
eat fermented food, consequently they will require it
dry or partially wet with cold water. Horses, Mules
and Oxen, when fed with unground food, void much
in an undigested state, which is of course lost for
all beneficial purposes.—
The undersigned can be addressed at Raleigh,
and all calls will be attended to punctually and with
dispatch by himself or Agent
WM. F. COLLINS.
Raleigh, Feb. 20, 1845. 16-1/2

Having been solicited by Maj. Collins to have my
Mill adjusted to grind corn in the Ear and Shuck, I
consented that he should do so as an experiment; and
I am able to say that it grinds Corn in the Shuck at
the rate of 30 bushels per hour; and the dressing of
the stones is so improved, that it grinds shelled Corn
more than twice as fast as before, and by my watch
at the rate of 15 bushels per hour, and the meal finer
than usual. I deem it a valuable improvement, and
shall purchase the right to use it, as it will afford me
a speedy way of feeding my horses and cattle, and
save much thereby.
WM. BOYLAN.
MR. GALES: SIR—In order to remove
Public prejudice (which appears to prevail in
this section of the country against all Patent Rights)
so far as my statement will go in giving the rights
to the patent which I have derived in having Major Collins'
patent right for grinding Corn, Cob and Shuck, at-
tached or applied to my Grist Mill, I state, that my
Mill, since this improvement was attached, grinds not
only as good meal as before, but FIVE TIMES FASTER,
and grinds up the Corn, Cob and Shuck, into Meal
sufficiently fine to mix with other rough food for
Stock. My Mill grinds very slow before this im-
provement was made, but now grinds fine Meal at
the rate of six bushels per hour.
I make this statement, as well for the benefit of the
Public as to do justice to Kswover's Patent (now
owned by Major Collins).

From 113 Pearl Street, to
44 CEDAR STREET,

LEE & BREWSTER give notice to the
Dealers in Dry Goods, that they have removed
their Warehouse for Printed Calicoes exclusively, from
Pearl to 44 Cedar street. By confining their atten-
tion to Prints only, L. & B. are enabled to exhibit an
assortment far surpassing any ever before offered in
America—and to sell at prices as low, and generally
lower, than houses whose attention is divided among
a large variety of articles.
The Stock consists of several thousands of Patterns
and Colorings, embracing every variety of
American and Foreign Prints
In market—many styles of which are got up ex-
clusively for their own sales, and cannot be had else-
where, except in second hands.
Dealers in Prints will find it to their interest to
examine this Stock before making their purchases—
they will have the advantage of learning the lowest
market prices—and comparing all the desirable styles
in market side by side.
Catalogues of Prices, corrected with every variation
of the Market, are placed in the hands of buyers.
