FRESH OYSTERS & FISH To the Citizens of Raleigh and

the Country generally. THE SUBSCRIBER, through the medium of the Press, begs leave very respectfully to render his sincere thanks to the Public, for the very liberal encouragement extended to him in his line of business, as caterer of Oysters and Fish, heretofore, and would beg leave to inform his customers, that he has again resumed the business, and has located his establishment in the building known as the Cannon Office, near the Office of the "Standard," where he will be happy to serve his former Patrons and others, with Oysters, Fish, and such other delicacies as he may be able to procure in the Norfolk market. OYSTERS, fresh and fine, will be re-

ceived daily; baring accidents upon Rail Road and Steamboat. Also, FRESH FISH on Wednesdays and Fridays--which may be relied on. I would in conclusion say to my pairons, that whatever I offer for sale, whether the application be made in person or through servants, will be genuine.

I would also add, that persons in any of the adjoining Counties, or all such places as may be practicable to send Oysters with safety, will have their orders promptly and faithfully attended to, they giving positive directions as to the conveyance.

WESLEY HOLLISTER, President. Raleigh, Jan 8th, 1846.

A HE undersigned has obtained Letters Patent to enable common Mill stones (or rocks) now in use, to grind CORN, COB and SHUCK, into meal, for Horses, Mules, Cattle Hogs, &c. thereby saving more than one third of a crop, which is an important item with planters. The machinery used for the above purpose is simple and durable, and cannot, with fair means, get out of order. It will last as long as the Stones last, with an expense of 50 cents every five years. To enable the common Mill Stones to grind ear corn into meal, requires no new buildings or extra power. It can also be applied to Horse Mills, Treshing Machines, Gins or any given power known. The same Mill will grind one-third more of Corn meal by the introduction of this Machinery, and can be changed from grinding Corn and Cob, to grinding Corn Meal in the space of thirty seconds .-Corn alone, when fed to stock, is said to be by the most practical and scientific Planters, constipating in its effects, producing founders, cholics and various other maladies which are incident to stock, Grinding cobs with the Corn, makes a food congenial with their nature, and cannot produce any of the serious results above mentioned. Stock, when fed on Corn exclusively, are deprived of the benefits of distension (so necessary to the proper health of animals,) by their being unable to eat a sufficient bulk to produce

in an undigested state, which is of course lost for all beneficia purposes .- 37 Read the subjoined certificate. The undersigned can be addressed at Raleigh, and all calls will be attended to punctually and with

scalding, and still more by boiling, and yet more by a

partial fermentation. All the preparations-facilitate

digestion for Hogs. But Horses and Mules will not

eat fermented food, consequently they will require it

dry or partially wet with cold water Horses, Mules

CERTIFICATES. Having been solicited by Maj Collins to have my CHEESE, Pine Apple and common. Mill adjusted to grind Corn in the Ear and Shuck, I OIL, best Sperm, White and Fish till. I am able to say that it grinds Corn in the Shuck at the rate of 30 bushels per hour; and the dressing of the stones is so improved, that it grinds shelled Corn Washington City, D. C. more than twice as fast as before, and by my watch, at the rate of 15 bushels per hour, and the meal finer than usual. I deem it a valuable improvement, and Boots, shall purchase the right to use it, as it will afford me a sperdy way of feeding my horses and cattle, and

WM. BOYLAN. R. GALES: SIR—In order to remove Public prejudice (which appears to prevail in this section of the country against all Patent Rights) so far as my statement will go in giving the advantage which I have derived in having Major Collins' Parent Right for grinding Corn, Cob and Shuck, at- mo Wire, tached or applied to my Grist Mill, I state, that my Mill, since this improvement was attached, grinds not only as good Meal as before, but FIVE TIMES FASTER, and grinds up the Corn, Cob and Shuck, into Meal sufficiently fine to mix with other rough food for Stock. My Mill ground very slow before this improvement was made, but now grinds fine Meal at the rate of six bushels per hour.

I make this statement, as well for the benefit of the Public, as to do justice to Knowlton's Patent (now owned by Major Collins.) J. MORDECAL
