Twenty Dollars Reward.

RANAWAY from the Subscriber, residing at PITTYSVILLE Court House, Virginia, on the night of the 31st day of December, 1845, a likely negro man, slave, by the name of WILEY. The said negro slave was purchased by me, a short time since, from Atlas Rush, of Montgomery County, North Carolina, on his return with the said slave from Pincastle, Virginia, at which place he had been apprehended, on his way to Ohio with free papers.—The said WILEY is black, about five feet 11 inches high, between 24 and 25 years of age, and weighs about 200 pounds; is very likely and well formed. He made his elopement on a large bob tail bay Mare, saddle and bridle, which also took from me, with a large green blanket under the saddle. Had on when he left, a checked roundabout, somewhat greyish pantaloons, yams, and a cap, and carried with him also, a grey homespun coat; is supposed to have passed through Danville, Virginia, and is no doubt making his way through Greensborough, N. C. to the neighborhood of Mr. Rush, where he formerly lived, with the view of procuring another set of free papers, and for the purpose of having an interview with his wife, whom he expressed, a few days before his departure, a great wish to see.
For the apprehension of the said slave, and his securement in Jail, so that I get him again, I will pay the above reward of Twenty Dollars, and a reasonable compensation to any one who will secure, and take care of the mare, bridle and saddle, or either of them, until I can get them.

GREAT BARGAINS!! LARGE STOCK OF DRY GOODS AND GROCERIES.

THE firm of Russell & Cooke having been dissolved, and their remaining stock of Goods having passed into the hands of Mr. Russell, one of the late firm, who is determined to close the business as speedily as practicable, the whole stock, comprising an extensive assortment of

DRY GOODS AND GROCERIES

of excellent quality, is now offered for sale at cost. Goods of almost every description suitable to this market may be had so cheap, that a better opportunity can never occur for all to supply themselves who will call soon.
The public are assured that this offer to sell at cost is made in good faith, and will be strictly adhered to. They will also find the goods of the best quality, fashionable, sound, and substantial, of a kind made for use, not merely to sell.
All may be suited, as there are on hand many articles of the finest quality as well as a large assortment of the coarsest and more substantial kinds.
All are invited to call and examine and judge for themselves; those who have the keenest taste for CHEAPNESS, will doubtless be satisfied.
Those who do not need at present, will

SAVE

by buying now and laying up for the future. Let it be remembered that no one will sell Goods in a regular business without a profit, by which they can live; that no one will sacrifice goods at less than cost without compulsion; and that cost is as about as cheap as most merchants can afford to sell and most people would wish to buy.

SAVE YOUR CORN COBS AND SHUCKS.

TO THE PLANTERS AND MILLERS OF N. CAROLINA. THE undersigned has obtained Letters Patent to enable common Mill Stones (or rocks) now in use, to grind CORN, COB AND SHUCK, into meal, for Horses, Mules, Cattle Hogs, &c. thereby saving more than one third of a crop, which is an important item with planters. The machinery used for the above purpose is simple and durable, and can, with fair means, get out of order. It will last as long as the Stones last, with an expense of 50 cents every five years. To enable the common Mill Stones to grind ear corn into meal, requires no new buildings or extra power. It can also be applied to Horse Mills, Trashing Machines, Gins or any given Power known. The same Mill will grind one-third more of Corn meal by the introduction of this Machinery, and can be changed from grinding Corn and Cob, to grinding Corn Meal in the space of thirty seconds.—Corn alone, when fed to stock, is said to be by the most practical and scientific Planters, contemplating its effects, producing founders, cholera and various other maladies which are incident to stock. Grinding cobs with the Corn, makes a food congenial with their nature, and cannot produce any of the serious results above mentioned. Stock, when fed on Corn exclusively, are deprived of the benefits of distension (so necessary to the proper health of animals,) by their being unable to eat a sufficient bulk to produce distension before the animal becomes gorged. Cobs ground with the corn, produce this necessary distension, without any danger of diseases arising from overeating. Corn and cob meal is improved by scalding, and still more by boiling, and yet more by a partial fermentation. All the preparations facilitate digestion for Hogs. But Horses and Mules will not eat fermented food, consequently they will require it dry or partially wet with cold water. Horses, Mules and Oxen, when fed with unground food, void much in an undigested state, which is of course lost for all beneficial purposes.—Read the subjoined certificate.

The undersigned can be addressed at Raleigh, and all calls will be attended to punctually and with despatch by himself or Agent.

WM. F. COLLINS. 16-1y

Raleigh, Feb. 20, 1845.

CERTIFICATES. Having been solicited by Maj Collins to have my Mill adjusted to grind Corn in the Ear and Shuck, I consented that he should do so as an experiment; and I am able to say that it grinds Corn in the Shuck at the rate of 30 bushels per hour; and the dressing of the stones is so improved, that it grinds shelled Corn more than twice as fast as before, and by my watch, at the rate of 15 bushels per hour, and the meal finer than usual. I deem it a valuable improvement, and shall purchase the right to use it, as it will afford me a speedy way of feeding my horses and cattle, and save much thereby.

MR. GALES: SIR—In order to remove Public prejudice (which appears to prevail in this section of the country against all Patent Rights) so far as my statement will go in giving the advantage which I have derived in having Major COLLINS' Patent Right for grinding Corn, Cob and Shuck, attached or applied to my Grist Mill, I state, that my Mill, since this improvement was attached, grinds not only as good Meal as before, but FIVE TIMES FASTER, and grinds up the Corn, Cob and Shuck, into Meal sufficiently fine to mix with other rough food for Stock. My Mill ground very slow before this improvement was made, but now grinds fine Meal at the rate of six bushels per hour.
I make this statement, as well for the benefit of the Public, as to do justice to KNOWLTON'S Patent (now owned by Major Collins.)
