The United States Hotel,

BY JAMES H. BIRCH.
Pennsylvania Avenue, Washington, D. C.

THE PROPRIETOR of this elegant and commodious house (of the late firm of Tyler & Birch) takes occasion to re-new to the public his acknowledgments for the liberal encouragement which he has continued to receive. Consulting the comfort of his guests as the principle of action, the proprietor assumed the undivided control of the establishment, determined upon sustaining its high reputation to the extent of his experience and exclusive attention. With this view the house will be found at all times adapted to the requisitions of the seasons. The edifice, constructed upon the modern plan, commands the advantages of light and air in every apartment.
The proprietor would particular invite the attention of gentlemen, parties, and families visiting the metropolis, to the location of the hotel. Situate convenient to the Capitol and other public buildings, within five minutes walk of the Railroad Depot, and upon the promenade side of the main avenue, the advantages of the house in this particular, whether for business or for recreation, are apparent. In addition to this, with a table well supplied with the good things of the season, with a corps of disciplined and obliging servants, and moderate charges, the undersigned is assured of sustaining his house from the eminently flattering and extensive list of its customers.
