Patent Cutter.

THE Subscribers, living at Chapel Hill, North Carolina, have lately purchased of CHARLES S. GATTON, the right of his Patent Straw, Oat, Shock and Corn Stock Cutter, in the following States, viz: Virginia, Tennessee, North and South Carolina, Georgia, Alabama, Mississippi, and Arkansas. This Patent, there are two Machines attached—one called a Sliding Cutter; the blade cuts eight inches on a side, and pierces the volume of Straw in the centre; it is used and worked by hand, and fed at the same time; will cut one bushel of Straw to the minute;—the other, is called the Wheel Machine; it has a cast-iron wheel that weighs eight pounds, and works with more ease than any Machine ever invented. It is worked and fed by the same person with ease, and will cut through a volume of Straw five and half inches each way, and cuts with speed. Both Machines are of simple construction; the first will cost from ten to twelve dollars; the other, about Twenty dollars. We would say to all persons who wish to speculate in County or State Rights, or those wishing a Machine, that they had better take a look at our's before purchasing. We can say that every person who has seen our Machines, and given an opinion, pronounces them to be the best they have ever seen. We shall travel from County to County, throughout each State, to sell, unless we should make sale at home. Early applications are desired. A. L. WARNER, M. D., Prof. of Surgery.

R. L. BOHANAN, M. D., Professor of Obstetrics and Diseases of Women and Children.

JEFFRIES WYMAN, M. D., Professor of Anatomy and Physiology.
The COLLEGE BUILDING, rivaling in beauty, commodiousness and convenience, any similar structure in our country, has been completed, and offers to the student advantages in the prosecution of his preparatory studies, which hitherto the Faculty was unable to proffer to him. The College Infirmary has been in full operation for the past year, and has furnished more frequent opportunities to witness the lesser and more important surgical operations than any Hospital in the United States. Independent of the surgical cases, the student can constantly find interesting cases illustrating the various diseases of the south, with the treatment which experience has thoroughly tested. The City Almshouse is under the charge of one of the faculty, and will be open to the Medical Class for clinical instruction. The facilities for studying practical anatomy and operative surgery are unsurpassed. Physicians in the country and others, who do not receive the Catalogue for the present year, which will be issued during this month, (July) will please send their names and post-office (per the charge of the Dean) to
AUG. L. WARNER, M. D.,
Dean of the Faculty.
