Just Received,

A small lot of ROBINSON'S celebrated Ladies Slip-pers.
JAS. LITCHFORD,

PAIN EXTRACTOR.

FROM TWO TO EIGHT TIMES CHEAPER THAN BEFORE, OR NOTHING IF THE USER IS NOT DELIGHTED WITH IT.

AN article which every family must consider indispensable when they know its power and value all classes, has heretofore been sold too high to reach all who have need of it, and in fact every human being may enjoy its comforts; and all who get it shall have the price returned to them if they are not delighted with its use. We assert without the possibility of contradiction, that all Burns and Scalds, every External Sore, old or fresh, and all external pains and aches, no matter where, shall be relieved to comfort by it in five minutes—swelling, limb or scar. No burn can be fatal if this is applied, unless the vitals are destroyed by the accident. It is truly magical to appearance in its effects. Enquire for "Connell's Magical Pain Extractor Salve," at Comstock and Co's, 21 Courtland Street, New York. Price 25 cents or four times as much for 50 cents, and near ten times as much for a Dollar.

Patent Cutter.

THE Subscribers, living at Chapel Hill, North Carolina, have lately purchased of CHARLES S. GATZERT, the right of his Patent Straw, Oat, Shuck and Corn Stock Cutter, in the following States, viz: Virginia, Tennessee, North and South Carolina, Georgia, Alabama, Mississippi, and Arkansas. To this Patent, there are two Machines attached—one called a Sliding Cutter; the blade cuts eight inches on a side, and pierces the volume of Straw in the center; is used and worked by hand, and fed at the same time; will cut one bushel of Oat straw to the minute—the other, is called the Wheel Machine; it has a cast-iron wheel that weighs eighty pounds, and works with more ease than any Machine ever invented. It is worked and fed by the same person with ease, and will cut through a volume of Straw, five and half inches each way, and cuts with speed. Both Machines are of simple construction; the first will cost from ten to twelve dollars; the other, about twenty dollars. We would say to all persons who wish to speculate in County or State Rights, or those wishing a Machine, that they had better take a look at our's before purchasing. We can say that every person who has seen our Machines, and given an opinion, pronounces them to be the best they have ever seen. We shall travel from County to County, throughout each State, to sell, unless we should make sale at home. Early applications are desired. We will meet any person, wishing to purchase County or other Rights, at any time and place. This Machine was patented the 6th November, 1843. BARBEE & RYAN.

THE COLLEGE BUILDING, rivaling in beauty, commodiousness and convenience, any similar structure in our country, has been completed, and offers to the student advantages in the prosecution of his preparatory studies, which hitherto the Faculty would be unable to afford to him. The College Infirmary has been in full operation for the past year, and has furnished more frequent opportunities to witness the lesser and more important surgical operations than any Hospital in the United States. Independent of the surgical cases, the student can consistently find interesting cases illustrating the various diseases of the south, with the treatment which experience has thoroughly tested. The City Alms House is under the charge of one of the faculty, and will be open to the Medical Class for clinical instruction. The facilities for studying practical anatomy and operative surgery are unsurpassed. Physicians in the country and others, who do not reside in the College for the present year, will please send their names and post-office (post paid) to the Dean.
