INSURANCE.

and Inland State Stock Insurance Company, No. 20 Wall street, (capital 500,000 dollars) are now prepared to insure against loss by fire, the damages of the seas and inland navigation, also the loss of human life, upon terms equal if not more favorable than those of any other company of this city. Having their business risks divided upon the four different branches of insurance, they avoid the great error of former companies, by having only one-fourth of their interests affected by any calamity, however great, by fire, sea, or casualty fatal to human life, having at all times three-fourths of their business to sustain the one-fourth which may be affected by those disasters which so often ruin those companies whose whole capital is engaged upon either fire, marine, life or inland insurance. Another source of great security adopted by this company is not to take any risk, upon any consideration, for a greater sum than \$5,000, also no two risks adjoining, thereby avoiding the errors which have proved fatal to other companies .--This company also, to avoid any disarrangement of the affairs of the insured, pay all losses as soon as satisfactorily arranged, dispensing with the useless delay of sixty days, oftentimes of such serious inconvenience to the insured.

The attention of the mercantile, marine and personal interests is respectfully called to the advantages of this company.
