DR. H. F. PEERY'S
Vermifuge or "Dead Shot,"
FOR WORMS.
A highly valuable preparation, capable, from the promptitude of its action, of clearing the system in a few hours, of every Worm.
THERE is perhaps no disease to which Children are exposed so common and fatal as Worms; they imitate the symptoms of almost every other complaint, and often produce the most alarming effects before they are suspected. The symptoms which are produced by the irritation of worms in the bowels, and which with some degree of certainty indicate their existence, are as follows:—Countenance pale, tongue whitely furred, grinding of the teeth, fetid breath, stomach hard and swollen, wasting of the flesh, sickness and pains in the stomach, bowels either too costive or too loose, great fretfulness, unnatural craving for clay, dirt or chalk, cholics, convulsions, fits, &c. &c.
Numerous certificates of the value and usefulness of this preparation are almost daily received.
The following is from the Rev. W. B. Winton, a distinguished preacher of the Methodist Church.
Abingdon, Va., May 12, 1843.
I do hereby certify, that I have used Dr. Peery's Vermifuge in my family to the great satisfaction of myself and relief of my children. It is prompt in its action, and in one case removed a large number of worms in three or four hours after it was given to the child. I am satisfied that as a Vermifuge it is superior to any that I have ever used.
W. B. WINTON.
Newbern, N. C., May 23d, 1844.
Dear Sir—I have been anxiously looking for another supply of your "Dead Shot Vermifuge," as I have not a single vial left. Please inform me by return mail, how soon you can furnish me with another supply.
Price 25 cents per vial.

Renewal of the Daily Line.
Via the Route, now favorably known, as the James River and Chesapeake Bay Line.
THE Proprietors take pleasure in advising the traveling public of the renewal of their Daily Line. The Steamers, during the past Winter, have undergone a thorough repair, and are now in fine order. The Line, for the present, (until the completion of the repairs on the Curtis Peck,) will consist of the following Steamers:

These Boats are well officered, by men of long experience on the route.
Passengers leaving Weldon or Gaston every night except Saturday, and Peterburg every morning except Sunday, will go direct on without delay—reaching Baltimore next morning in time for the cars to Washington, Philadelphia or Cumberland—at less expense than any other Line, with fewer changes of person and baggage, and no loss of sleep.
Passengers getting through Tickets, are allowed to stop at any point on the route, and resume their travel at pleasure. Should the train from the South be delayed by any accident—thereby losing the connection with the Bay Line—the passenger preferring to try the mail line the next day, the agent of the Petersburg and Roanoke Rail Road Company, at Petersburg, is authorized to refund fare from Weldon or Gaston to Baltimore, \$9 00 Norfolk, 4 00

Great Sale of Public Lands, IN NORTH CAROLINA.
THE President and Directors of the Literary Fund of North Carolina, offer for sale, upwards of **Fifty Thousand Acres** of Swamp Land, situate in Hyde County, in said State, embracing the region lying between Albemarle and Pamlico Sounds.
These Lands have been drained at great expense, under the direction of skillful Engineers, by an Act of the Legislature, and are believed to be now in a condition, to be cleared and cultivated.
This drainage has been effected by two main Canals: viz: Pungo Canal, extending from the Lake to the River, both of that name, 64 miles in length, with an average width at bottom of 22 feet, depth 6 feet, and fall of 12 feet; And, Alligator Canal, from the Lake of that name, to Pungo River, 6 miles long, with an average width at bottom of 30 feet, depth 7, and fall of 10 feet; besides, sundry Tributaries, or lateral Ditches. They are, therefore, navigable for Bateau—and emptying into Pamlico Sound, their mouths are accessible to Sea going Vessels.
A large portion of this Land abounds in Juniper, Cypress, and other valuable Timber, for which the Forest of Eastern North Carolina is distinguished; and other parts consist of Prairie, covered with Cane and Bamboo, and in the estimation of the Engineers who surveyed it, are of great fertility. It is therefore considered to offer peculiar inducements both to Farm and the gettlers of Shingles, Staves, Heading, &c. &c., and, with excellent Juniper water, is thought to be more favorable to health than most parts of the low country.
To immigrants, now arriving in the Ports of the United States in unusual numbers, especially those from Holland and Germany, accustomed to a similar country in many respects, these Lands will afford a soil as fertile as any in the North-western States, with easy access to the Sea, and the great markets of the world, for its productions, and within three days' sail of New York.
A credit of one, two and three years, will be given to Purchasers, on Bonds with approved security, and the title will be warranted; but deeds will be withheld, until the final payment of the purchase money.
The President and Directors of the Literary Fund will attend at the Shanties on Pungo Canal, on the 20th day of May next, and will offer as much as 50,000 Acres of said Land for sale at Public Auction, in Quarter sections of 160 Acres each, on the terms aforesaid, and may, if there be sufficient inducement, continue said sale on the two following days, or until the whole body of 50,000 Acres is disposed of.
On the same day, the Board will also receive Proposals for constructing
A Turnpike Road from Plymouth, in Washington County, to some point on or near Pungo River in Beaufort County, according to the provisions of an Act of the General Assembly, ratified 16th day of January, 1847.
Given under my hand, at the Executive Office, in the City of Raleigh, this 6th of April, 1847.

Great Sale of Public Lands, IN NORTH CAROLINA.
THE President and Directors of the Literary Fund of North Carolina, offer for sale, upwards of **Fifty Thousand Acres** of Swamp Land, situate in Hyde County, in said State, embracing the region lying between Albemarle and Pamlico Sounds.
These Lands have been drained at great expense, under the direction of skillful Engineers, by an Act of the Legislature, and are believed to be now in a condition, to be cleared and cultivated.
This drainage has been effected by two main Canals: viz: Pungo Canal, extending from the Lake to the River, both of that name, 64 miles in length, with an average width at bottom of 22 feet, depth 6 feet, and fall of 12 feet; And, Alligator Canal, from the Lake of that name, to Pungo River, 6 miles long, with an average width at bottom of 30 feet, depth 7, and fall of 10 feet; besides, sundry Tributaries, or lateral Ditches. They are, therefore, navigable for Bateau—and emptying into Pamlico Sound, their mouths are accessible to Sea going Vessels.
A large portion of this Land abounds in Juniper, Cypress, and other valuable Timber, for which the Forest of Eastern North Carolina is distinguished; and other parts consist of Prairie, covered with Cane and Bamboo, and in the estimation of the Engineers who surveyed it, are of great fertility. It is therefore considered to offer peculiar inducements both to Farm and the gettlers of Shingles, Staves, Heading, &c. &c., and, with excellent Juniper water, is thought to be more favorable to health than most parts of the low country.
To immigrants, now arriving in the Ports of the United States in unusual numbers, especially those from Holland and Germany, accustomed to a similar country in many respects, these Lands will afford a soil as fertile as any in the North-western States, with easy access to the Sea, and the great markets of the world, for its productions, and within three days' sail of New York.
A credit of one, two and three years, will be given to Purchasers, on Bonds with approved security, and the title will be warranted; but deeds will be withheld, until the final payment of the purchase money.
The President and Directors of the Literary Fund will attend at the Shanties on Pungo Canal, on the 20th day of May next, and will offer as much as 50,000 Acres of said Land for sale at Public Auction, in Quarter sections of 160 Acres each, on the terms aforesaid, and may, if there be sufficient inducement, continue said sale on the two following days, or until the whole body of 50,000 Acres is disposed of.
On the same day, the Board will also receive Proposals for constructing
A Turnpike Road from Plymouth, in Washington County, to some point on or near Pungo River in Beaufort County, according to the provisions of an Act of the General Assembly, ratified 16th day of January, 1847.
Given under my hand, at the Executive Office, in the City of Raleigh, this 6th of April, 1847.
WILL A. GRAHAM, Gov. N. C.
Aud. ex officio, Pres't of Literary Fund.
