DR. H. F. PEERY'S Vermifuge or "Dead Shot." FOR WORMS.

A highly valuable preparation, capable, from th promptitude of its action, of clearing the system in a few hours, of every Worm. HERE is perhaps no disease to which Children

are exposed so common and fatal as Worms; they imitate the symptoms of almost every other complaint, and often produce the most slarming effects before they are suspected. The symptoms which are produced by the irritation of worms in the lowels, and which with some degree of certainty indicate their existence, are as follows :- Countenance pale, tongue whitely furred, grinding of the teeth, fetid breath, stemach hard and swelled, wasting of the flesh, sickness and pains in the stomach, bowels either too costive or too loose, great fretfulness, unnatural craying for clay, dirt or chalk, cholic, convulsions, fits, &c. &c.

Numerous certificates of the value and usefulness of this preparation are almost daity received. The following is from the Rev. W. B. Winton, distinguished preacher of the Methodist Church.

Abingdon, Va., May 12, 1843. I do hereby certify, that I have used Dr. Peery's Vermituge in my family to the great satisfaction of myself and relief of my children. It is prompt in its action, and in one case removed s large number of worms in three or four hours after it was given to the child. I am satisfied that as a Vermifuge it is supetier to any that I have ever used.

W. B. WINTON. Newbern, N. C., May 23d, 1844. Dear Sir-I have been anxiously looking for another supply of your " Dead Shot Vermifuge," as I have not a single vial left. There are constant applications for the medicine, and I should be pleased to supply the demand. It has proved itself, so far as tried in this vicinity, to be a positive specific, and no humbug.
