**DR. H. F. PEERY'S**  
**Vermifuge or "Dead Shot,"**  
FOR WORMS.  
A highly valuable preparation, capable, from the promptitude of its action, of clearing the system in a few hours, of every Worm.  
THERE is perhaps no disease to which Children are so exposed as common and fatal as Worms; they imitate the symptoms of almost every other complaint, and often produce the most alarming effects before they are suspected. The symptoms which are produced by the irritation of worms in the bowels, and which with some degree of certainty indicate their existence, are as follows:—Constipation, pale tongue, whitish furrow, grinding of the teeth, flat breath, stomach hard and swelled, wasting of the flesh, sickness and pain in the stomach, bowels either too loose or too tight, great restlessness, unnatural craving for clay, dirt or chalk, cholics, convulsions, fits, &c. &c.  
Numerous certificates of the value and usefulness of this preparation are almost daily received.  
The following is from the Rev. W. B. Winton, a distinguished preacher of the Methodist Church, Abingdon, Va., May 12, 1843.  
I do hereby certify, that I have used Dr. Peery's Vermifuge in my family to the great satisfaction of myself and relief of my children. It is prompt in its action, and in one case removed a large number of worms in three or four hours after it was given to the child. I am satisfied that as a Vermifuge it is superior to any that I have ever used.  
W. B. WINTON.

**To the Afflicted!**  
**DR. BANNING'S BODY BRACE.**  
THIS invaluable instrument of recent discovery, for the relief of Vocal and Pulmonary weakness and Dyspepsia, with Constipation and Piles, Nervous derangements, great sense of weakness or "goneness" at the stomach and sides with bearing at the lower body and indisposition to exercise; also for spinal weakness and Curvature, with enlargement of one shoulder and hip of children and young Ladies common in the South. In many Cases the application of the Brace, properly adjusted, gives immediate evidence of its great Utility.  
Any invention therefore, that contributes to the health and comfort of the human race, as Dr. Banning's Brace, in so many instances has proved, is well worthy of attention, and especially so of the afflicted. The following strong recommendations in favor of the great Utility of the Brace, from several distinguished Professors of the Medical Faculty, and other respectable gentlemen, who have been convinced by actual experiment, will induce the suffering to give it a fair trial.  
From Professor Dickson.  
Gentlemen: At the desire of Dr. Banning, I state with pleasure that after an examination of his Body Brace, I am very favorably impressed with the prospect of its extensive utility. The principle which he has so ingeniously carried out, seems to me widely applicable to a large class of cases of suffering and debility in both sexes.  
SAML. HENRY DICKSON, M. D.  
February 25, 1847.  
I concur fully in the above.  
MARCH 2.  
JAS. P. JERVEY, M. D.  
From Professor Goddard, of Philadelphia.  
I have examined Dr. Banning's instrument for the relief of weakness requiring support, and have made practical experiment of the same, and am astonished at the results. I have also listened to his views of its applicability to an extended class of diseases, and think them to be highly important, and therefore cordially recommend them to the serious consideration of the medical profession.  
VAL. MOTT, M. D.  
Philadelphia, Feb. 28, 1846.  
From Professor Mott, of New York, and others.  
The undersigned has examined Dr. Banning's novel views on the mechanical pathology of many affections of the viscera, and believe them to be highly interesting and worthy the serious attention of the medical profession.

WASHINGTON, Dec. 11, 1846.  
Dear Sir: With great pleasure I bear testimony to the efficacy of your invaluable "Lace." I commenced wearing one in June last, at which time I was in a very feeble health, in consequence of a severe hemorrhage of the lungs, with severe hemorrhoids from the slightest irregularity of the bowels, sometimes continuing for a week, leaving me very feeble. Weakness in the back and a most unpleasant sensation in the stomach, shortness of breath, difficulty of retaining my food after eating. I was obliged to be very cautious and not expose myself to the weather when it was in least unpleasant, the slightest change affecting me very seriously. The very day I first put it on I was greatly relieved from the sinking, unpleasant sensation in the stomach, I could walk or sit without experiencing the slightest pain in the back, and my chest felt as if it was relieved from a heavy weight, I could breathe freely and with perfect ease. In a short time my food ceased to oppress me, the hemorrhoids were relieved, and that which had caused me the greatest solicitude, viz: bleeding at the lungs, entirely ceased. I have not lost one drop of blood from the lungs since I commenced wearing the "Lace."  
I was also afflicted with a severe cough which has wonderfully improved.  
So greatly have I improved that many of my friends who were absent from the city during the past summer, hardly recognized me on my return. I have gained in flesh, have a good appetite, and am able to eat food of any description that a well and hearty man can digest. Indeed I feel almost like one risen from the dead so great has been the change in my health. It was believed by all that my lungs were diseased, and that I must die of consumption, such was the belief of one of my physicians, if not of others. And I most firmly believe that many who die of pulmonary affections, might be restored to comparative health by the use of your "Lace." I now attend regularly to my business, not losing a day, no matter how inclement the weather may be. I owe you a debt of gratitude, that I feel will never be in my power to repay.  
That you may long live to enjoy the blessings of this life, will be the constant prayer of your friend,  
CHAS. F. POPE.  
To Dr. BANNING, of New York city.

aside, having had no recurrence of the symptoms which induced its use since I wore the Brace, and feel warranted in saying not only has my ability to endure fatigue, been greatly renovated, by Dr. Banning's Brace, but that my general health has also improved under its use.  
Wishing you a successful tour, in your pilgrimage for the relief of suffering humanity.  
I am yours, gratefully,  
THOS. APPL. JONES, U. S. Navy.  
Raleigh, 11th May, 1847.

To Dr. E. P. BANNING: My dear Sir—When I called on you while in this City, in January last, I told you that I had been for years much afflicted with Dyspepsia, weakness of the back and breast, a most distressing Cough and difficulty of breathing, together with great debility of the whole system. I could not eat any thing, without creating the most disagreeable sensations; and at times, suffered the deepest depression of spirits, which rendered me unfit for business, or enjoyment of any kind.  
You advised me to try one of your Body Braces, which had been often applied in similar cases, by others, with great success. I did so, and found great relief, even before you left the City, in a few days after; and now, I am happy to inform you, that I can eat whatever I please, without any inconvenience whatever; my cough has nearly left me; my back and breast pains entirely removed, my Dyspepsia cured, and my general health is rapidly improving; and I am perfectly satisfied, that by persevering a little longer in the use of the Brace, I shall soon be restored to as sound health and spirits as I ever enjoyed. I do not think I should be extravagant in saying, from first to last, previously to the application of the Brace, that I had expended, for various remedies to heal my distressing and multiplied maladies, at least one thousand dollars, without deriving any sensible benefit from them whatever. The application of your invaluable Brace, by affording mechanical support, at the proper place, to a long afflicted and debilitated system, has accomplished the object; and if I could not procure another to supply its place, the offer of \$1000 would not induce me to part with it.  
Therefore, as an act of justice to a public benefactor, and for the benefit of the afflicted, I most cheerfully furnish this testimonial in favor of the great utility of the Brace, and especially for all persons who are or may be similarly afflicted, as I have been.  
With great respect, I remain, dear sir, your obedient servant,  
GEORGE FISHER.  
Raleigh, 29th January, 1847.

Dear Sir—It will be gratifying to you to be assured, before you leave Town, that I have derived signal advantage from the use of the Body Brace. I had not worn it many days, when I was enabled to walk six miles in the country, after which I felt less fatigue than I had in walking the distance to the Hotel, when I first called upon you. It is an admirable contrivance, as a Mechanical support, and is exactly suited to my case. The pads on the back and hips, give strength and compactness to those parts, so that I feel more at ease either in motion or at rest; and whether my infirmity be Spinal or Sciatic Rheumatism, from which I have suffered much for several years, I now look forward with confidence, at no distant date, to a complete restoration.  
Wishing you a pleasant journey, and every success in the object you have in view in undertaking it, I remain, very respectfully, yours,  
GEORGE SIMPSON.  
Dr. BANNING, Eagle Hotel.  
A good assortment, embracing every size of the above described invaluable Body Brace, may be obtained of  
B. B. SMITH, Agent.

**DR. BANNING'S BODY BRACE.**  
I have examined Dr. Banning's instrument for the relief of weakness requiring support, and have made practical experiment of the same, and am astonished at the results. I have also listened to his views of its applicability to an extended class of diseases, and think them to be highly important, and therefore cordially recommend them to the serious consideration of the medical profession.
