C. F. M. GARNETT, Esq.

Our old friend, Mr. GARNETT, the successful Enhe has been, for some time, engaged on the Western and Atlantic Rail Road, as Chief Engineer. The Milledgeville papers contain his Annual Report, which, though of much general interest, we have not room for. It appears from his Report, however, that the total cost of the Road, thus fare has

Total receipts for the year, \$51,953 07 Total current expenses, Deduct amount due at the close of last year,

\$45,453 07 Amount paid for use of 6,228 73 Cars, 37,806 93 Profits,

Mr. G. strongly urges upon the attention of the Legislature the completion of the Road to its original terminus, Chattanooga, a distance of only thirtynine miles, "the gradation of which, with the exception of the Tunnel and a few other unimportant places, has been long since completed." He estimates the cost of completion at \$375,000, and adds. "there is not a shadow of doubt entertained that this expenditure will at once add \$125,000 per annum to the nett profits of the Road."

THE N. C. REGIMENT.

We find in the last "Greensboro' Patriot," a Letter from Capt. HENRY, dated at Saltillo, October 10, from which we take the following passage:

"I have visited the Camp of our Regiment daily for a fortnight, on my regular trips to Buena Vista, to attend a General Court Martial now in session there, and of which Col. Paine, Lieut. Col. Fagg, and myself are members. I perceive an almost daily improvement in the discipline, order and police of our Regiment, and I unhesitatingly declare, that, instead of the confusion and disorder so prevalent in other Regiments, I find perfect quietude and contentment now pervading the "Old North State" Regiment. It should be published to the world, that while it is extremely difficult to confine the men of the other Regiments within the chain of sentinels even by day or night, and to restrain some of them from escaping to Saltillo upon bacchanalian adventures, or even from committing depredations upon the enemy, in the meantime not a single Officer. non-commissioned Officer or Private, of our Regiment, has been known to adventure to Saltillo without the proper passport, although within two miles rele instance of the slight. est imposition or depredations upon the Mexicans has been committed by any of them. A new supply of clothing, (which they will receive to day.) a little more attention to cleanliness of dress and of accoutrements, added to the excellent drill and police duties enforced by Col. Paine and the two other excellent Field Officers, will make our Regiment equal to any of the eld regular Regiments of "infantry of the line," and certainly superior to the Volunteer Regiments now here.

But the effect produced by a large and full Regiment under good discipline, will be lost with us, so meagre and so much reduced in rank and file in every Company from death and discharges. The health of the Regiment is better now than it has ever been, the number of sick not being more than sixty-five, and scarcely any of them in hospital. Since I last addressed you, Capt. Pender our Quartermaster has died, and his remains have been sent to Monin regard to his Staff. Our regularly appointed Assistant Commissary, Exum Whitaker, and Assistant Quarter Master, Solomon Pender, have both died; Capt. Buck left him in the midst of his late troubles (not agreeably to his consent,) to become a temporary aid-de-camp to Gen. Cushing-and I am sorry to add that our highly esteemed Assistant Commissary, W. P. Graves, lately appointed, vice Whitaker, deceased, is at this time quite ill at Saltillo, from the

prevailing disease of the country. "Col. Paine has labored under these and many other disadvantages, since he has undertaken the discipline for an Officer of Volunteers, I am sure it was an error of the head, and not of the heart, and l am equally sure that I am right in saying, that both Officers and men will like him, and every other diswill give them. The resignations of Officers of our Regiment has not yet come to an end. Capt. Roberts of the Wayne Company has resigned, and will shortly set out for home; he has had bad health ever since he has been in the country."

The same letter states that "there are several parties in Mexico, composed of the wealthy and influential; -the peace party wishes our protection for some time; the annexation party desire to merge their nationality in that of the United States; and another favors a military occupation of the country until they are prepared to take care of their own incerests."

HONOR TO GEN. SHIELDS.

At a Public Meeting of the citizens of Charleston on the 15th inst., (the Mayor in the Chair,) a Committee was appointed to tender to the gallant Gen. SHIELDS, who is expected soon to pass through that City on his way to Washington, a Public Dinner, in the name of the people, as a slight evidence of their high appreciation of the distinguished bravery and skill of an Officer so immediately connected with the Palmetto Regiment, which constituted a part of his brigade.

The Abolitionists have proved invariably and incontestibly, that their affinities are with the Locofo-Whigs. The latest instance we have, and which might suffice, in the absence of any other proof, to sustain this assertion, is in the recent Congressional Elections in Maine. The Whigs in that State, are opposed to the War, and to the acquisition of "slave erritory" by the War. The Locos of Maine, folowing in the footsteps of the Administration, take the opposite ground. The Whigs of Maine, therefore, to the extent that national measures are concerned, have taken kindred ground with the Abolididates, by which they would (as is shewn by the returns.) have elected three, and probably four of them, they preferred a course (that of running candidates of their own,) which they knew would insure the defeat of the Whigs and the triumph of the Locos. With whom, then, are the sympathies of this mean and despicable party—the scorn and the by-word of both political parties at the South?—

The Captain of their service for the elevation which this discipline of the Steamer, too, had also joined the company, when the Clerk turning round to Robinson, said to him-"Look here, Doctor or Mr. Robinson, or whoever you are, is this your name?" The individual addressed, coolly got up, and stepping to the table to see which name the Clerk meant, said, upon seeing the name on which he held his finger, "Yes, sir, that's my name." "Did you write it?" asked the commander of the vessel. "Yes sir." "Did you write 'M. D.' after it?" asked the commander. I did." "Are you a Doctor of Medicine or a Surgeon?" continued the Captain. "No sir." calmly replied Robinson. "Then why do you attach these initials to your name?" "Because they designate my profession or rank in the army." "Your profession! your rank! Explain yourself. Are you an officer ?" continued the commander. "No surprised that they vociferate war, notwithstanding sir, I never said I was an officer," mildly replied Robinson. OUR ARMY CORRESPONDENCE.

FORT LORETTO, PUEBLA, MEXICO, ? October 23d; 1847.

To the Editor of the Raleigh Register : Siz: A fit of sickness, has prevented me from con-tinuing our correspondence; but as I trust I am now recovering, and as I understand the the mails for the United States will be transmitted more frequently and with greater regularity than they have my previous promises, furnish you from time to time with news from the Army, and such information concerning Mexico and Mexican affairs, as may prove interesting to your subscribers.

You will observe that, with this, I forward you some of the early numbers of a new Paper, printed at this place. I regret that my illness prevented my marching with the column to the City of Mexico. as independent of being deprived the privilege o seeing the City of the Montezumas, I was debarred from sharing in the glory of the severe conflicts and victories which our gallant army achieved.

owing to the excellent arrangements of the Commis-

sary department, there was abundance.

Owing to the smallness of our force, and the harrassing and continuous fire of the enemy, the guard duty was very severe amongst our men, added to the incessant vigilance required, which rendered it necessary for our troops, day and night, to be on the "qui vive." Their hardships and deprivations, our gallant fellows, however, bore with unflinching and praiseworthy constancy, and several marked and extraordinary acts of gallantry were performed by both officers and men. On the 5th October. Santa Anna and 3,000 men, with two pieces of artillery, moved on to Huamantala, a town 35 miles from this place. The object of this movement was to get into Gen. Lane's rear, and cut off the train then coming up. The majority of his army he left at this place, for the purpose of carrying on the siege, which was still prosecuted with anneying perseverance. The details and result of the action at Humnantala, you will find at length in the "Flag." One of its most distressing consequences was the lamented death of the gallant Walker-an irreparable loss to our Army. Straggling bodies of the army discomfited at Huamantala, returned to Puebla on the 10th; and our enraged and mortified enemy made a last and desperate assault on San Jose, and our out-post of the Tivoli Gardens, but without success. They were signally repulsed, and our positions were still triumphantly maintained. ME. CALHOUN AND HIS FRIENDS .- In the Messenger,' published near Mr. Calhoun's residence in Pendleton district, we observe a remark, which, in connection with its locality, may not be without significance. And proceeding to speculate as to the attitude of the Whigs and Locos in regard to the Mexican War at the approaching session, the Messenger adds: A third party will advocate the occupation of a definite line till terms of peace can be agreed upon.' We have no doubt the course of Mr. Calhoun and his friends is foreshadowed by this remark.-Richmond Whig.

> MEXICANS ALREADY VOTING !- If we have annexed no part of Mexico to the United States yet, it seems, by a statement in the Matamoras Flag, that we have annexed some of her citizens. An election took place in Texas a few days since for State Officers; and the Flag tells us that at the precinct opposite Matamoras, G. T. Wood had 139 out of 153 votes for Governor; that Young received the whole number for Lieut. Governor; and that 147 were given to Gen. Lamar as Representative-most of the voters, the Flag says, being Mexicans !- Richmond Whig.

> NORTH CAROLINA REGIMENT .- Our readers are aware that there has been difficulties in this Regiment, from differences between Col. Paine and his officers. The course pursued by Col. Since then we have high authority for saying that the Regiment has improved in discipline, and is in a state of efficiency to do honor to the State and country, should opportunity offer for testing its steadiness and prowess.
