This Resolution also states, that "the Volunteers had in their own ranks men well qualified to command them," and that, therefore, the Governor ought to have made his selection from the Soldiers of the Regiment. This had been often said before. But who was there in the ranks qualified to command the Regiment? Point out the on Wednesday last. It was during the week of our man. Let "Old Fort" in Burke, as well as our commendatory Resolution, answer.

But this Resolution (7th,) farther condemns the Governor for appointing "men to command the Regiment who had just voted in the Legislature, that the War was unconstitutional, unnecessary and unjust." What Cols. PAINE and FAGG, did vote for in the Legislature, was a Resolution beginning as follows: "Whereas, by the act of the Executive, subsequently sanctioned by Congress, war exists," &c. Is that the same thing as voting that the war was " anconstitutional, unnecessary and unjust?" What right had the Convention, as men, as gentlemeneven as fair partizans, to put this language in the mouths of those whom they so harshly condemn ?-Some in that grave body-solemn John Donkeysmay think that there is no difference, but there were in that Convention men of reading and knowledge, learned Thebans, who have read Lectures at Universities, and who are consequently supposed to know the meaning of the English language at least, (in spite of some of these Resolutions) These learnins ructed the rank and file, who voted so unani-But what mean these gentlemen? that he who may doubt or even deny the propriety of the origin of a War, cannot aid in prosecuting such War? Do they mean, as applied to the present case, that the great Whig party cannot, conscientiously, or will not heartily, unite in supporting the war, because the President, whom they do not respect, has rashly involved the country therein? Do they mean that Whigs can so far forget what is due to their country and themselves, as to allow JAMES K. POLK-aye, or any other man-to drive them into the ranks of the enemy? Or even make their patriotism a matter of doubt? Who is this mighty man-of what conjuration is he possessed, that he can so suddenly convert one half of this great country-by any act of his-into traitors?-No: let that Convention know, that Whigs do not ask who began the War, nor how it began, nor why it begun, before they rush to the standard. That past. And Mr. Polk, with all the Democrats in creation, cannot force them into any other position. They are for their country, whoever risks its destinies, and however rashly he may control them .-Little they know, of the depth of Whig patriotism, who dream that JAMES K POLK could make them forget it. This is not idle talking. Facts bear out the assertion. Who compose your armies? Four fifths of the officers of the Regular Army, before Whigs. Do they mean, that if a Whig should be elected President, and should rashly, and without cause, (as they might deem it,) involve our other foreign nation, that they would be obliged, from principle, to leave the Whigs to fight it out? Is that their patriotism? Thank God! the Whigs know better, and feel better, and act better! They live for their country, and no man, or set of men, can abuse that country, so that they will not stand by her to the last. They know their duty, and will perform it. But let us go on with the Resolutions. The Eighth does not like the Re-districting Bill of last Session. Very likely. Great pity 'tis that any "wanton violation of the rights of the people" ren-

dered it necessary. The Ninth complains that the last Legislature did not tax the people enough to pay the "present and prospective indebtedness" of the State. The Convention did not know, we suppose, that this matter was all talked over between the parties at the last Session, and that the Whigs would have done that thing, if the "Democrats" would agree to join them. Those who complained that they were neglecting to pay the debt, were invited to bring in a Bill for that purpose. They refused to do it; and they refused to do it, for this very purpose. They wanted the Whigs to lay Taxes, because it is always an odious operation. But they themselves refused to aid them, and very gracefully they can now complain! 10. And then referring to the division and contentions which have sprung up since the election last Spring, the "Intelligencer" says:
