Death of General Mina.

If any doubt has heretofore existed respecting the fate of the Patriot General MINA, the question is now put at rest by the subjoined documents, translated from our late Spanish papers. The blood-thirsty myrmidons of Ferdinand have at length succeeded in destroying one of the bravest and most enterprising assertors of Independence; and that their "adored master" may be well assured of the fact, his excellency the Viceroy has caused to be published, minute certificates of all the Butchers engaged in the laudable work of murdering a great man—a hero—at whose name they have often trembled.

Translated for the City Gazette, from the Havana Commercial Daily Advertiser, of the 24th of January, 1818.

MEXICO, Dec. 15.

Punishment of the Traitor XAVIER MINA.

OFFICIAL REPORT, by DON PASCUAL DE LINAN, Field Marshal.

Most Excellent Sir.—I have the honor to forward to your Excellency, the Documents proving the execution, and the inquest held by a person of the Faculty, on the body of the traitor XAVIER MINA, which took place on the 11th inst. pursuant to the order issued by your Excellency, on the 3d, after having performed your instructions therein received, relative to drawing from him, answers to all the questions put by your Excellency, and after he received the Christian assistance.

In conjunction with all the Officers under my command, I tender you our sincere acknowledgements, for the thanks that your Excellency has been pleased to give us, in the name of the King our Lord, for the capture of the Rebel.

May God preserve your Excellency many years.

General Quarters, on the Hill of Bellaco, 17th of Nov. 1817.

Pascual Delinan.

To the Most Excellent Viceroy.

Don JOHN RUIZ DE APODACA.

We, Don Francis Romero, Lieut. Colonel, commanding the regiment of the line infantry of New Spain; Don Joseph Martin commanding the 1st American Battalion; Don Joseph Polledo Lorenzana, of the same rank and corps; as also, Don Joaquin Sanchez Badajoz, Don Joseph Maria Quintero, Commanding the 1st Battalion of Zaragoza; & Don Joseph Fernandez Cobos, and Don Joaquin Gata, both Breven Captains, belonging to the line infantry regiment of Ferdinand VII:—Do certify, that on the 11th November inst. at 4 o'clock, P. M. the traitor Xavier Mina, was shot on the top of the Hill Bellaco, where the General Quarters of the Division under the command of Don Pascual De Linan, Field Marshal, are actually stationed, in obedience to the superior order of the 3d inst. issued by His Excellency Don John Ruiz De Apodaca Viceroy; and having been directed by said order, to witness the performance,

we did so; and in order that it may so appear, we hereunto set our signatures, at the same spot of Bellaco, on the 14th November, 1817.

Francis Romero. Joseph Martin. Joseph Maria Quintero Castro Joaquin Sanchez Badajoz. Joseph Polledo Lorenzana. Joseph Fernandez Cobos. Joaquin Gata.

L. DON MANUEL FALCON, Surgeon of the 1st American Battalion, do certify, that at 6 o'clock, P. M. of this day, I was called upon to inspect the corpse of the traitor Xavier Mina, which had been shot two hours before; wherein I found a wound sufficiently large in the head, at the occipital bone, which was entirely fractured, as the balls which made said breach, went out through the mouth, destroying both jaws; also, another wound in the shoulder, inflicted by the same weapons whereby the breast was perforated which wounds are reciprocally mortal, as the corpse exhibited.

I declare this to be the truth; certifying it at the top of Bellaco, this 11th Nov. 1817.

Manuel Falcon.

I, DON JOSEPH ANTHONY BENAVIDES, Adj. Major of the 1st American Infantry Regiment, actually charged with the duties thereof, it being accidentally under the command of Don John Deols, Sergeant Major; Do certify, that the signature which appears in the preceding certificate, is that which Don Manuel Falcon, Associate Surgeon to the Regiment, did always, and does actually write. And in order that it may so appear whenever required, I sign these presents, with the approbation of my commander, on the top of Bellaco, November 17, 1817.

Joseph A. Benavides.

Very Late from England.

BY the ship *Sally*, Capt. Watson, arrived here yesterday in the short passage of 38 days from Liverpool, we have received London Papers to the 27th, and Liverpool Papers to the 29th January, both inclusive—nearly a month later than before received. Some extracts from them will be found in this morning's *Courier*; the most material of which relate to the state of the markets; there being nothing politically important.

The London Papers contain the Speech of the President of the United States at the opening of Congress with some flattering remarks upon its amicable temper, and the flourishing state of this country.

There is much speculation in the English prints, as to the views of the United States in taking possession of Amelia-Island.

Charleston Courier.

Extracts from Commercial Letters.

"LIVERPOOL, Jan. 24.

"The demand for Cotton has been limited this week—and, with the exception of Sea-Islands, prices of all sorts have declined 1 2d. The sales amount to 4000 bags, of which 360 are Sea-Islands, at 2s 5d a 2s 11d; 150 Orleans, at 21 a 2s 1-2d; and 1430 Boweds at 18 1-4 a 21 1-2d. To day new Boweds offer freely at 21d without meeting purchasers. 800 bags of good quality were sold yesterday in one hand at 20 3-4d. Tobacco has been in good demand and prices of middling and fine leaf are higher. 230 casks new Carolina Rice has been sold by auction at 37 a 38s per cwt.

"In the week ending 17th Jan.

11,000 bags of Cotton had been sold in Liverpool, among which a small lot of Sea Islands brought 3s 3d."

LIVERPOOL, Jan. 27.

"The demand for Cotton continues very moderate, and even Uplands are heavy at 21d; a parcel of 300 has been sold at 20 3-4d and 20 1-2d was offered and refused, for an entire cargo of nearly 1000 bales. Very fine Sea-Islands are scarce, and for very choice marks 2d a 3d advance has been given; say 3s 3d a 3s 6d—Rice is lower; about 350 casks have been sold at 37s a 38s per cwt."

London, Jan. 8

President's Message.—We received this morning a copy of the Message of the President of the United States upon opening the Congress. It is, of course, a most important, and we are happy to add, a most satisfactory document confirming, in every respect, the statement we have more than once published of the amicable disposition of the American Government. An American Paper says, and we coincide entirely with it, that "it is the ablest and most satisfactory Speech we have read for many year."

JANUARY 15.

The *Gazette of the two Sicilies* contains the Royal Decree, bestowing upon the Prince de Talleyrand the dignity of a Neapolitan Duke, by the title of Duke de Dino.—The honor is to have a collateral descendant.

The report of M. Las Cases being confined in a Bohemian fortress is unfounded. It is said he remains at Frankfort, under the surveillance of the Police.

January 19.

The ship *Grace*, DAVIS, (with Officers, passengers, bound to South America) which was seized at Cowes, has been liberated, and arrived at the Motherbank, preparatory to proceeding to St. Thomas, the first fair wind. Major Lockyer, and the other officers who had engaged their passage in the above ship & were subsequently concerned in a duel, at Cowes, with Lieutenant Sutton Cochrane it is ascertained, sailed for South America in a brig, a few days after the fatal event took place.

January 20.

We have received this morning the Paris Papers of Saturday last. The project of the law for recruiting the French army was still under discussion in the Chamber of Deputies. There was not much novelty of argument displayed on either side. Those who objected to the law, urged the same grounds of objection as preceding speakers, that it nearly resembled the old system of conscription; while they who supported it, maintained, that as compulsory service was only to be enforced where voluntary enrolment proved insufficient, the spirit of the Charter was not violated.—If, indeed, the principle be admitted that France requires an army, to place her upon a proper footing of equality with the other Continental States, it seems unreasonable to condemn the only means by which that principle can be practically adopted. Voluntary service must always be precarious and limited. Men who have any regular occupation, are not likely to abandon it, for a military life,—especially in time of peace. That martial ardor, which, during war may stimulate individuals, can form no excitement when war is at an end.

We should not be sorry however if the amendment, for taking an annual vote upon the army should be adopted. Such a check
