ENCLOSING HAMDBILLS IN NEW PAPERS.—It is ag dust the Postoffice law to circulate han foills to wspapers. This is generally known, but not & ways regarded. The editor of the Jeffersonian. Being reported to the Postmaster General by the postmaster of that city, Major Darlington, the postmaster a: West Chester was directed to collect \$1 upon each paper-\$40 in all. THE DRUNKARD'S DAUGHTER.

BY G. W. BUNGAY.

Out in the street with naked feet. I saw the drunkar I's lettle danghter; Her tattered shawl was thin and small; She little knew, for no one taught her.

Her skin was fair, her auburn bur. Was blown about her pretty forehead. Her sad, white face were sorrow's trace, And want and woe that were not borrowed.

Heart-broken child, she seldom smiled: Hope promised her no bright to morrow: Or if its light flashed on her night, The 1 up came darker clouds of soriow.

She softly said. "We have no bread, No wood to keep the fire a burning." The child was ill, the wind so chill Her thin, cold blood to ice was turning.

But men well feed and warmly clad. And lad es robed in richest fashion, Passed on the side v h ie no one cried To them for pity or compassion.

Fied that long night, and then the light Of rosy day in beauty shining. Set dome and spire and roof on fire. And shone on one beyond repining.

Asleep-alone-as cold as s'one. Where no dear parent ever sought her; In win ling sheet of snow and sleet,

We found the drunkard's lifeless daughter.

He had hardly go: i il, to await a requisition from Kentucky .-"ruel tel graph." An American breach-loader has been adopted

by Sweden for the use of her armies. It is said that in Austria, France, and several other European countries where the American breachoaders have been rejected, it has been on account f the cost of making them, and the length of time that will be required to adapt machine y for their construction. Their superiority is however, freely acknowledged.
