MONEY ORDER OFFICES. - As an evidence of the progress of the re-establishment of the mails i this State, under the supervision of Special Agent. Dr. A. Jobe, we notice that in addition to the large number of Post routes and Post offices reopened, that he has succeeded in establishing nine more money order offices, viz: Chapel Hill.

Charlotte, 1 lizabeth City, Fayetteville, Greensboro, Raleigh, Salem; Salisbury, and Tarboro, together with Newbern and Wilmington, which have been money order offices since the establishment of the system. Our people now have a safe and cheap way of sending money to all parts of the United States safe, bet ise the money does not go through the mails but the Post master receives the money and gives a draft or check, which can be sent to its destination, and there presented to the Post master who immediately cashes it -as is done by any Banking institution-cheap, because f r ten cents twenty dol-

lars or less can be sent to any office in the United States. Larger sums cost in proportion. MEETING OF THE CITY COUNCIL. -After an in-

terregnum of two weeks, the Board of Counc.1 men held a regular meeting at the Mayor's office. Mayor Palmer presided, and councilman Stanly, Hubbs, Foster, Jacobs, Radcliff and Menninger made their appearance and took their seats.

First in order were presented a number of small accounts, which were ordered to be paid. A bill for provender furnished for the horses of

the Steam Fire Engine, was referred to the Committee on the Fire Department. The next business transacted was the decapita\_

tion of Richard Hilton, Eagineer of the Steam cents Fire Engine.

Mr. Jacobs introduced a resolution that from and after October 1st, the compensation of the

Engineer of the Steam Fire Engine, be fixed at | fifty dollars per month, and that he be relieved of all other duties.

Mr. Seymour moved, that the resolution be abled. Chief Engineer Radcliff, Jacobs and Seymour voted in favor of the motion; Messrs. Hubbs, Meninger, Foster and Stanly voted No. The original motion was then called for and carried : Messrs. Hubbs, Menninger, Foster, and Stanly, voting for the reduction of Mr. Hilton. Clerk-carried.

## Mr. Menninger offered the following :

## Progress in Nebraska. Omaha grows, but according to one of the lo

al papers is not a pleasant place. The Gerald leclares that the visitor at one or two o'clock at hight may hear pistol shots in the streets, the creams of the wounded and the yells of the dying. People are stunned by slung shots and stripped of their all. "Stand and deliver," is the word. Nevertheless, the place is prosperous. ing transportation to the far West. The streets are lined by handsome blocks of stores. The whirl of business on Farnham and Douglass streets is tremendons. Four trains and sometimes two or three steamers arrive daily, while from the populous settlements in the interior farmers come in by the score with their farm Sale of Valuable Real Estate in produce, for which they find immediate buyers. There are 2,130 buildings of all sizes, Of these 109 are saloons, 56 hotels and boardinghouses, 8 churches. 3 theatres, 3 printing offices, one capitol and one courthouse with jail attached. One of the theatres, called the "Academy of Music," is an ornament to the city. Elegantly fitted up, affording comfortable seats for 1,000 persons and leased by a good manager, it has always been a favorite resort.

There are four newspapers-two dailies, one weekly and one monthly. At the head of these ands the Republican. It is the oldest and only daily paper devoted to Republican interests in the State. Its daily edition amounts to 1,300,

while its weekly is over 2,000. Manufactures are increasing. There are sevral saw and planing mills, flour mills, sash and 250 acres. blind factory, foundry and machine shops, furniture, saddle and harness, clothing, bags, win- acres. dow shades, tobacco and cigars, book binding, printing, distilieries, breweries, bakeries, boots and shoes, and tin ware, employing nearly two thousand men. The actual population numbers thirteen thousand, and with the floating popula-

tion it exceeds fourteen thousand. At the rate all situate in the city of Newbern. emigration is setting in, by next spring it will be eighteen thousand. Omaha can get its supplies from Chicago at a

very little cost, and yet re its are higher, charges are higher, and board is higher here than in Chicago. A shave costs twenty-five cents, a cigar Neuse river near the mouth of Core Creek, containing twenty-five cents, a glass of wine twenty-five 250 acres.

Houses are springing up in all directions, and the demand for mechanics is unlimited.

Hear what the following reliable gentlemen say: I have seen Mr. J. H. Godwin's Cotton Pre-s work at Mr. P. E. Smith's plantation, and it does all that he says it does in his advertisement and more. I think it superior to any other mode of packing cotten, and saves both time and labor. W. R. SMITH.

I have used the above mentioned Press, and consider it the best I ever saw for packing Cotton. THOS. J. VAUGHAN.

I have packed about 100 bales of Cotton with Mr. J. H. Godwin's Cotton Press, and take pleasure in recommending it to the farmers as a great labor saving machine. It does not cost more than half as much as a Screw, and is worth twice as much.

It is so convenient and takes fewer hands to do as much work as a screw. I would pay the price of a Press, rather than allow a man to put up a screw on my place for D. EDMUNDSON.

I have used the above mentioned Cotton Press, and it ices better than a Screw. Takes less hands, does not vaste Catton, and is much cheaper. J. H. CURBY.

I have packed about 70 bales with Godwin's Cotton ress, and am certain it is the best, chespest, most comact, and durable Press in existence, costing only half at irst, and lasting twice as long as a screw. PETER E. SMITH.

I have personally examined the Cotton Presses of Messrs. Peter E. Smith and D.
