

LAKE DISASTERS.

A PROPELLER AND A SCHOONER WRECKED IN LAKE MICHIGAN.

Nearly a Score of Lives Lost in a Heavy Storm.

A Mackinac City (Mich.) dispatch says that the propeller California, commanded by Capt. Trowell, left Chicago on Saturday night, bound for Montreal. She was laden with 20,000 barrels of corn and 700 barrels of pork, and carried a crew of twenty-two persons and three passengers. She encountered a heavy wind early on Monday morning...

The captain ordered the boats lowered, but she was badly listed. It was impossible to lower the boats. The captain went into the cabin to get the passengers out, but when he returned found that the first mate and several men had left with the boat. The second mate began rapidly breaking up, and soon all hands were struggling in the water. The captain and engineer succeeded in getting a boat from the wreck, and picked up the second engineer, the cook, and one lady passenger. Their boat drifted down alongside the propeller, where it was picked up by the schooner St. Helena, and was picked up and brought to Mackinac City.

Another boat success in getting ashore near Point La Poudre. The schooner Factor picked up one man who was drifting down the straits on some wreckage. Captain Trowell was all supplied with life preservers, and it is probable that the boat will be recovered. Seven of the crew reached Point La Poudre in the lifeboat in an almost exhausted condition. The wreck of the propeller and the schooner were seen from the shore and a heavy sea is breaking over it. The survivors were tenderly cared for by farmers. Four of the propeller were unconscious when shore was reached and none could walk.

After all hope had been given up, the passengers were gathered in the cabin and put on life preservers. I was standing aft when an immense sea struck her and threw her over the side. A fireman and a woman were killed. The schooner was seen to strike bottom, and the whole cabin collapsed with a crash. Four men were pulled into the water, and were seen to struggle in the waves. They drifted toward the Straits four hours, the boat being full of water. All hands were rescued, and the crew were being taken to the city, were swept overboard and lost.

A Schooner Wrecked.

The schooner Havana, owned by Captain A. P. Beal, of the Kenosha, was sighted off St. Joseph, Mich., Monday morning, flying signals of distress. The vessel was in a sinking condition, and the captain ordered the crew to leave her. Captain John Decker managed to beach her, if possible, and the crew were seen to climb down the rigging. There were seven men on board, and a sailor named Joseph Clint climbed into the main rigging and the others followed. As the vessel was being hoisted, a heavy sea, the mainmast crashed overboard, carrying the three men into the breakers. They struck at once and were killed. The schooner was hoisted, and the crew were rescued. It took nearly three-quarters of an hour to get the men from their perilous position.

On Saturday, September 24, a nice looking man secured rooms at Hay's boarding house, Phillipsburg, N. J. It is now learned that he is the Moritz Hoffman, of Wilkes-Barre, Pa., whose children have been accused of putting him in the Danville insane asylum. After arriving at this place he wrote to Judge Donohue, at Wilkes-Barre, who committed him to Danville, where he would set matters right, within two days. KENTUCKY'S LATEST FEUD.

Four Lives Already Sacrificed in the Turner-Sowers Quarrel.

Five lives have been sacrificed in the latest Kentucky feud on Yellow Creek, in Bell county.

Leo Turner and General Sowers were brothers-in-law and lived in sight of each other on Yellow Creek. They had some family difficulty and Turner layd and shot Sowers, but not dangerously. They made up and everything went well for while. The quarrel broke out again at a school-house gathering, and Sowers went up to his father's house. Soon after Turner went up, and a lively shooting affair occurred. Turner being killed on the next killing.

A warrant was taken out for Sowers, but he has never caught him. Jim Hains was a great friend of Sowers and brother of Leo's. He was shot by Sowers and shot dead while walking along the road. Harvey Turner, a brother of Leo's was his slayer. The warrant sent out for the arrest of Harvey Turner, brought on the next killing.

The sheriff's posse went up to Yellow Creek to make the arrest, and met Jack Turner, Harvey's uncle, in the road. They were not after him, but some how an altercation came up, though no one seemed to know why. Turner road off and somebody fired at him when he was a hundred yards away. Turner returned the shot, and the posse set on after him. Turner road off and somebody fired at him when he was a hundred yards away. Turner returned the shot, and the posse set on after him. "Nobody thought that Jack Turner was in this last crowd, but he came to Pineville and gave himself up. He was released on \$5,000 bond. Another boat success in getting ashore near Point La Poudre. EVICIONS IN IOWA.

An English Land Company Ousting Settlers from Their Homes in Iowa.

The truth of the reports of forcible evictions of settlers in Iowa, as telegraphed from Washington a few days ago, is confirmed by the statement of a prominent citizen from O'Brien county, who says it happened in Iowa. The reports are true, and there is a good deal more than has been reported. I am personally acquainted with some of the evicted families.

"But it cannot be true that an English land company is turning American citizens out of their homes into the streets," was asked.

"It certainly is true," he answered.

"Who are these Englishmen, and how did they get their title to the lands?"

"They are the old firm of Close Bros., reorganized as the Western Land Company. They bought from the old McGregor Western company, its assignees, the Milwaukee and Sioux City companies, some lands granted to the McGregor Western in 1861 but never cared for. When Teller was Secretary of the Interior he had the Land Commissioner declare the lands unreserved and promised to open them for settlement. On the faith of these declarations some settlers went on the land. In one case a woman was evicted from her home and furniture that she had brought with her. The woman was sick and she was carried out in a hard rain and in the morning compelled to crawl for shelter. As the family could find her. These are only a few of the cases I personally know, but they will do for a sample of about a hundred that have occurred in Iowa.

"It was recommended that suits be brought to recover title, and suit has been brought in the several counties. The suits have not yet been reached, but suit will not do without the test laws, which say the land company's title will not be affected by the sudden appearance of a hot pancake in land which it does not own.

REFUSED A REQUISITION.

What the Governor of Nebraska Said to the Governor of Tennessee.

Gov. Thayer, of Nebraska, has refused to recognize a requisit in from the Governor of Tennessee for a murderer who has fled to that State. The refusal causes great excitement at Memphis, where the man is wanted for participation in the brutal murder of a negro. Four white men employed at a factory of Brunswick arrested a negro named Jim Easter on some slight pretext, and after binding his hands carried him into the canebrake, where they shot him to death. They then tied a sack of lead around his neck and threw his body into the water. He was discovered three days afterwards. W. H. Coffman, one of the men implicated in the murder, was arrested at Brunswick. The other three were taken to Ord, Neb., where he was placed in jail. Two deputy sheriffs, armed with a requisition from the Governor, left Tennessee ten days ago to bring the fugitive back to justice. They returned to Memphis unjustly. Gov. Thayer makes no excuse, simply saying he declined to issue a warrant of extradition.
