But one day a harp string snapped in the great orchestra. One day a voice soundel out of tuny. One day a discord, harsh an I terrific, grated upon the glorious antiphony. It was sin that male the dissonance, and that harsh discord has been sounding through the centuries. All the work of Caristians, and philanthropists, and reformers of all ages, is o stop that discord and get all things back into the perfect harmony which was heard at the laving of the corner-stone when the morning stars sang together. Before I get through, if I am divinely helped, I will make it plain that sin is discord and righteousness good mea and women and of all good

That things in general are out of tune is as plain as to a musician's ear is the unhappy clash of clarionet and bassoon in an orches-The world's health out of tune: Weak lung

and the amosphere in collision, disordered eye and noon tay light in quarrel, rheumatic limb and damp weather in sttruggle, neuralgias, and pneumonias, and consumptions, and epilepsies in flocks swoop upon neighborhoods and cities. Where you find one person with sound throat, and keen eyesight, and alert ear, and easy respiration, and regular pulsation, and supple limb, and prime digestion, and steady perves, you find a hundred who have to be very careful because this, or that, or the other physical function is disor-

dered. The human intellet out of time: The judgment wrongly swerved, or the memory leaky, or the will weak, or the temper inflammable, and the well-balanced mind exceptional. Domestic life out of tune: Not only here and there a conjugal outbreak of incompatibility of temper through the divorce courts, or a filial outbreak about a father's will through the Surrogate's Court, or a case

of wife beating or husband poisoning through the criminal courts, but thousan's of families with June outside and January within. Society out of tune: Labor and capital: their hands on each other's throats. Spirit of caste keeping those down in the social scale in a struggle to get up, and putting those who are up in anxiety lest they have to come down. No wonder the old p anoforte of society is all out of tune, when hypocrisy, and lying, and subterfuge, and double de ding, and sycophancy, and charlatanism, and re-venge have for 6,000 years being banging

away at the keys and stamping the pedals. On all sides there is a perpetual shipwreck of harmonies. Nations in discord. - Without realizing it, so wrong is the feeling of nation for nation that the symbols chosen are fierca and destructive. In this country, where our skies are full of robins and doves and moraing larks, we have for our national symbol the fierce and filthy eagle, as immoral a bird as can be found in all the ornithological cata-

In Great Britain, where they have logues. lambs and fallow deer, their symbol is the merciless lion. In Russia, where from be-tween her frozen north and blooming south all kindly beasts dwell, they choose the growling bear; and in the world's heraldry a favorite figure is the drazon, which is a winged serpent, ferocious and dreadful. And so fond is the world of confection that we climb out through the heavens and baptize one of the other planets with the spirit of battle, and call it Mars, after the god of war, and we give to the eighth sign of the zodiac the name of the scorpion, a creature which is chiefly celebrated for its deally sting. But, after all, these symtols are expressive of the way nation feels toward nation. Discord

I suppose you have noticed how warmly in love dry goods stores are with other dry goods stores, and how highly grocerymen think of the sugars of the grocerymen on the same block. And in what a eulogistic way allopathic and homeopathic do tors speak of each other, and how ministers will sometimes put ministers on that beautiful cooking instrument which the English call a spit, an iron roller with spikes on it, and turned by a crank before a hot fire, and then if the minister being roasted cries out against it, the

Satan asks, Discord! Discord! But I have to tell you that the song

that the morning stars sang together at the laying of the world's cornerstone is to be resum d again. Mozart's greatest overture was composed one night when he was several times overpowered with sleep, and artists say they can tell the places in the music where he was falling asleep and the places where he awakened. So the overture of the morning stars spoken of in my text has been asleep, but it will awaken and be more grandly render d by the evening stars of the world's existence than by the morning stars, and the vesp rs will be sweeter than the matins. The work of all

churches and all reform associations is to bring the race back to the original harmony. The rebellious heart to be attuned, : ocial life to be attuned, commercial ethics to be attuned, internationality to be attuned, hemis-

pheres to be attune 1-but by what force and in what way? In olden time the chorist rs hall a tuning fork with two prongs, and they would strike it on the back of pew or music rack and put it to the ear and then start the tune, and all the other voices would join. In modern orchestra the leader has a complete instrument, rightly attuned, and he sounds that, and all the other performers turn the keys of their instruments to make them correspond, and sound the bow over the string, and listen, and sound out over again, until all the keys

are screwed to concert pitch, and the discords melt into one great symphony, and the curtain hoist, and the baton taps, and audiences are raptured with Schumann's "Paradise and the Peri" or Rossini's "Stabat Mater" or Bach's "Magnificat" in D, or Gounod's Redemption.

Now, our world can never be attuned by an imperfect instrument. Even a Cremona would not do. Heaven has ordained the only instrument, and it is made out of the wood of the cross, and the voices that accompany it are imported voices, cantatrices of the first Christmas night, when heaven serenaded the earth with "Glory to God in the highest and on earth peace, good will to men." Lest we start too far off and get lost in generalities, we had better begin with ourselves. get our own hearts and life in harmony with the eternal Christ. Oh, for His almighty spirit to attune us, to chord our will with his will, to modulate our life with his life, and bring us into unison with all that is pure and selfsacrificing and heavenly. The strings of our nature are all broken and twisted, and the bow is so slack it cannot evoke anything melifuous. The instrument made for heaven to play on has been roughly twanged and struck by influences worldly and demoniac, O, master hand of Christ, restore this split and fractured and despoiled and unstrung nature until it shall wail out for this sin, and then thrill with divine nardon.

The whole world must also be attuned by the same power. A few days ago I was in the Fairbanks weighing scale manufactory of Vermont. Six hundred hands, and they have never had a strike. Complete harmony between labor and capital, the operatives of scores of years in their boautiful homes near by the mansions of the manufacturers, whose invention and Christian behavior made the great enterprise. So all the world over labor and capital will be brought into euphony You may have heard what is called the "Anvil Chorus," composed by Verdi, a tune played by hammers, great and small, now with mighty stroke, and now with heavy stroke, beating a great iron anvil. That is what the world has got to come to-anvil chorus, yard stick chorus, shuttle chorus trowel chorus, crowbar chorus, pickax chorus, gold mine chorus, rail track chorus, locomotive chorus. It can be done, and it will be done. So all social life will be attuned by the Gostel harp. There will be as many classes in society as now, but the classes will not be regulated by birth, or wealth, or accident, but by the scale of virtue and benevolence, and people will be assigned to their places as good, or very good, or most excellent. So also, commercial life will be attuned, and there will be twelve in every

lozen and sixteen ounces in every pound.

POSTAL TELEGRAPHY.

Its Increase of Office Holders the Principal Argument against It.

Congressman Herbert of Alabama, speaking of the proposition to establish a Government telegraph sys em said: "I am not in favor of it. In the first place I am opposed to increasing the power of the Government I know that on first thought the people will say 'give us a postal telegraph,' but after the subject has been discussed in Congressand I believe it will come up in the house this winter-and the country is made aware of the immense power it will give the party

in control, I don's believe the people will be in a hurry to adopt the scheme. We had better put up a while longer with the present evil and endeavor to find a remedy than to adopt a measure that may in the end prove a greater monopoly. There would be no competition, Jay Gould could not compete with the Government, and he would be forced o sell out at a reasonable price.

Paul says: "The whole creation groaneth;" and while the nightingale, and the woodlark, and the canary, and the plover, sometimes sing so sweetly that their notes have been written out in musical notation, and it is found that the cuckoo sings in the key of D, and that the cormorant is a basso in the winged choir, yet sportsman's gun and the autum al blast oft n leave them ruffled and

bleeding, or dead in meadow or forest. Paul was right, for the groan in nature drowns out the prima donnas of the sky. Tartini, the great musical composer,
