MYRIADS OF MOTHS.

The Streets of Easton and Reading, Pa., Covered with Dead But-

terflics.

EASTON, PENN .- Butterflies by the thousand flew around the sixty-four electric. lights in this city, lit on the carbons, and then dropped dead in the globes. When the workmen visited the lights they found on an average two quarts of dead butterflies in each globe, a total of four bushels, besides the lot that had fallen on the ground during the night. One globe was over half full of dead insects, some of them burned black. These butterflies are the kind that lay moth eggs. READING, PENN.-This city had a remark-

able visitation of moths. Myriads of them infested the air, resembling at a distance a snowstorm. They were first noticed about 8 o'clock and gradually increased to such numbers as to obscure the brilliancy of the electric lights. Passers-by were covered Fires wore with insects. lights and heaps of moths were burned. Penn street saloonkeepers were compelled to close their front doors to keep out the pests, which were attracted by the bright lights. The doors and windows of dwelling houses had also to be keps closed to keep the moths out. Local scientists pronounced them cotton moths, and they evidently came from the South.

ment has set a price, lives 'in the woods near the scene of his crime. He goes into town to buy his provisions, and once in a while dines at the hotels. He is well armed and with the population partly afraid of and partly in sympathy with him, the officers of the law are entirely powerless. He has promised to shoot the first man that tries to arrest him, as he says it will not go harder with him for two murders than for one. A couple of days ago Mr. Alexander Ross, one of Her Majesty's justices of the peace, met him while driving in his buggy on the public highway, and at his request drove him to town and dared not take him into custody, At St. Julie De Wolfstoun E.
