HAYES AND THE NEG We see it stated that Have to dismiss negroes fr at the South, because of nency. This is another empt to II Laves br be the Southern people cull only discard the A groes, as he has proclaimed his in ontion to do, as far as the Carpet-begers are concerned, then many suchern people will be ready to mike the compromise with him, which he so much de-SHUS.

Even if this were to be his policy, and he were to remove the last vestige of negro domination-at once. our greatest curse and deepest humiliation-sull our people remandering the means by which he too reach ed his position, and the meanness of abandoning those who were his chief supporters, as well as those by whose aid, fraud and perjury, he has succoedel, ought to receive this, if it comes, without any demonstration of graticade or the bestowal of any meed of praise.

The man that does it will do anything. He has no principles. He is a hypocrite and demagogue, and to marrow would turn the whole bost of Carpet-haggers and negroes loose on us if it would best advance the interests of the Republican party. Hates' object is to break the Solid Southto destroy the Democratic party. All he does will be to this end. This is the reason the whole pack-Morton, Cambron, and all-have given in their adhesion to Haves; but this purpose will be effected, if possible, without losing the Carpet baggers or neg oes Wm. Pitt Kellogg, D. Monday, or Tuesday, the scene will II. Chamberlain and others of their charge

ilk, will be provided for and ao no breach be made with them, while the South is propitiated with Hampt n and Niebols, and may be the withdrawal of the troops. No doubt J. Madison Wells will be perfectly satis fied. May be his fees for returning Louisiana for Hayes is quite sufficient for him.

Local self-government, another land mark and chief corner stone of the Democratic party, will also prevail. or despatism must succeed. Stand firm to your organization and be as ready to resist the blandislements of the usurper as you have been the threats and forces of his predecessor Principle and principle alone ought to actuate us. Governed by that

rule there need band fears of the resulte. OUR WASHINGTON LETTER.
