This I pronounce untrue, and refer been promoted, cannot appear in the case. to his article in the ENQUIRER of the 4th This suit had no connection whatever with of April.

2. H. C. Sharpe speaks of an item of \$50.45 costs paid by County in four cases of larceny &c. Here is a second recorded false statement. There were only three cases in which the county was responsible for costs, as the records will show. And as to whether this is a true item of expense of the Court, I will ask men of truth, if this item of cost was necessitated by the organization of the Court, called upon. or would it not have been against the County without the Court?

3. As to Sharpe's emply assertion that the Inferior cost \$8 per day more than the Superior Court, was unnoticed in my former article, because it was too much like the author-too contemptible. I included the fees of the presiding officers in my account.

4. H. C. Sharpe says, "those who read Silas' 1st and 2nd articles understood him to maintain that the fines, forfeitures &c., went to defray the expenses of the Court &c." And here I call attention to recorded false statement No. 3, and refer to my former articles. I maintained in my former articles and I still maintain that the fines and forfeitures were "a saving to the county. The fines and forfeitures go to the free school fund-a certain amount of school money must come out of the pock-

3. He says that because the Commism.ar10 sioners refused to allow the fees charged by Mr. Smith and myself in the sheriff suit, that I first threater od to sue them, but afterwards had them indicted, hoping to make a political trial of it &c. Here he again shows the traits of a custom house and petty politician.

Our fees in the above case were fixed by Mr. Smith, and I presented the acccu t to the Board, and they refused to allow, but wanted me to take a less sum in full of fees. I refused to receive any less sum in full of our fees. but expressly informed them that I received the amount tendered in part of our claim and reserved the right to she for balance, which right we have no yet waived.
