FROM WASHINGTON.

President smiled and said his skirts were clean. In the second place the selling out plan of the administration worked charmingly. Every Democrat in the state, and throughout the country is perfectly satisfied with it. It worked the other way. There is no longer a Republican party in the state, and in Baltimore the Republicans have decided not to nominate a municipal ticket. In a fair vote and count they could easily carry the city. But the Democrats do the counting. It makes a difference in results, as you very well know from experience in the old North State. Lastly, Democrats have preferred charges against Collector Thomas, of Baltimore. The charges are made by reformers, and are that Mr. Thomas has grossly violated the President's civil service order in participating actively in politics, especially in the late primary election, and that said election was for the Republican party run entirely by him and some fifty employees of the Custom House. When we consider that the Republican party, as that party in Maryland is dead, the thought will arise that perhaps the charges were made in a satirical spirit. But they were not. Not only are they in earnest but the President has referred them to the Treasury Department with instructions to investigate them. It is worm weather, and Webster's dictionary is limited. You must do your own talking when considering administrative successes like those just named.

The Life Saving Service will at once proceed to place the additional stations provided for on the coast of North Carolina. Every effort will be made to improve the service there, which may now be considered a permanent one. As much of this as is possible will be done before the autumn storms set in. An officer of the Revenue Marine has invented an apparatus by which everything used by the crews of the life saving stations in receiving ship-wrecked persons can be quickly carried from the stations to the points where the wrecks occur. It has the general appearance of a hook and ladder truck, and will be drawn by horses. It is stated that it will be practically tried on the North Carolina coast.

There is now a practical coin balance of \$20,000,000 in the Treasury. Long ago, when speaking of the resumption of specie payments, Horace Greeley wrote: "The way to resumption is to resume." Secretary Sherman, with this enormous sum in reserve, is now of the same opinion. He is in New York, where he has recently been joined by Treasurer Gillfillan, and the two are in consultation over the best plan to effect complete and permanent resumption. It is most likely that no formal plan will be announced, but that in connection with some of the leading banks of the country coin payments, and redemption of legal tender notes in coin, will quietly and gradually be introduced. This plan, while it commits no one to any live policy, and leaves the Secretary free to use every means that promises to be of advantage, will also have the additional merit of letting greenbacks, and other enthusiasts make as many fine theories and as much loud talk as they please, while the real work is noiselessly going on in their midst. Indeed with gold at only 1/2 of one per cent premium, and with this great reserve of coin at his command, the Secretary of the Treasury can only fail in effecting specie resumption by committing some great blunder which he is the last man to do.

At the present price of silver the new silver dollar is worth some where near eighty-three cents. Over \$3,000,000 have been coined, and nearly \$7,000,000 are lying idle in the Treasury vaults. The people don't want them. It is estimated that by January 1st, nearly \$20,000,000 in the new coin will be packed away in the treasury vaults of the great cities.

Once the howl was for silver. We have silver, as all can see. Now the howl is for greenbacks. Would it be howl if they had greenbacks?

Col. "Ike" Young, the popular and efficient Collector of Internal Revenue of the Western North Carolina Collection District, has been in town for some days. This time he came, principally, "on business."

The committee appointed to devise a plan for the reorganization of the army will meet at White Sulphur Springs, Va. Congressional Scales can endure fatigue there, and not pine away to any appreciable extent, while the army he is to help reorganize is marching and fighting under the hot sun and desolate mountains and on arid plains in the far west. It is curious how things are sometimes divided in this world. Some folks get the nice fruits and good things while others don't, do they most worthy editors of the Post?

The North says that Stephen A. Douglas, Esq., is very ill at the residence of his brother in Greenboro.

## CAPT. JNO. A. McDONALD.

Of the three candidates for the Senate in the Raleigh senatorial district only one is a Republican, and he is so well known all over North Carolina that if the state at large had to vote he would receive every vote cast by a Union man. Col. McDonald joined the Union Republican party in 1866, and was elected to the constitutional convention in 1868, from Chatham county, and the same year to the Legislature, and from that day to the present time he has been one of the best men in North Carolina who has stood squarely and unflinchingly by the principles of Unionism, and during his whole career as a public man he has done duty honestly and bravely. No one can say against his character as a gentleman. Now, Col. McDonald comes out in the county of Wake for senatorial honors. And every true Union man in that district, and very man who desires honest government, and an honest true man to represent them will cast his vote for honest John A. McDonald, the working man's candidate.

## CITY ITEMS.

Don't fail to register. Register at once. Register as soon as you can. Register or you can't vote. Register or you are disfranchised. Every man should register.

The friends of Dr. Norment, in Robeson county, are sanguine of his election to the legislature.

We call attention to the ad of the Wilmington and Sea Side Railroad Company. They want four young men for conductors.

We understand that Mr. John C. Blocker and Lutterloh, are independent candidates for the legislature in Cumberland county.

We advise all true republicans to vote for the regular nominees of the party. They will be found at the head of the column of our local page.

If you want to destroy the party that gave you your freedom and that has protected you ever since, vote the bolters ticket headed by one John P. Garrell.

Judge Thomas Settle, one of North Carolina's honorable sons, who now resides in Florida, is expected in Goldsboro, N. C., to spend the summer. We wish him a happy and pleasant one.

Mr. John F. Garrell made a running start for the Republican ranks, and before he got to the dividing fence between the Republican and Democratic parties shouted out, "I want to be elected Sheriff for the sacrifice I am going to make in coming to you low down Republicans."

No family can feel that it has a perfect safe guard against the insidious attacks of disease unless it keeps ready for any emergency, a supply of Dr. Harter's Liver Pills.

For sale by all druggists.

Col. Alex. McCabe, of Edgecombe county, denies that there is any bolt in old Edgecombe. We are glad to hear it, for the county, heretofore, has stood firm to the Republican cause and we believe that she will still continue to do it. Bolters should always be put down wherever they are found.

Col. W. A. Smith, Lieutenant Governor of North Carolina, was in Raleigh on the 9th. The Governor is looking well and enjoying life as of old, notwithstanding he was counted out, or defrauded of his election by the democratic bulldozers. Bill Smith is one of the best men in North Carolina.

Bladen county Republican convention was held at Elizabethtown on Friday, the 12th instant, and nominated a ticket, with the exception of sheriff, they very properly endorsed Mr. W. J. Sutton, the independent candidate, who has filled the office of sheriff for the past four years very acceptably to the whole people. He will be elected by a very large majority. For the balance of the ticket see the proceedings published in another column.

A meeting of the Republican Executive Committee of the state was held at Raleigh on Tuesday the 9th instant. Col. Thomas B. Keoh, the Chairman, presiding, and after a consultation of but ten minutes they decided not to run a Republican ticket for the Supreme Court. This action, whether wisely adopted or not, is final, the committee stood five against one for a straight out Republican ticket. So the party is committed to "do no thing policy." We hope the advocates of such a policy are satisfied.

An exchange says: "Over practice on a horizontal bar caused the death of a youth in Palauki, N. Y. It is a notorious fact that over practice at the horizontal bar has caused the death of millions."

## WHISKEY ELECTIONS.

No More Treating for Electors?

It is a well known fact that in the State of New York, the Legislature passed an act to regulate elections, section 46, which was approved on the 21st day of May, 1878.

"If any person shall treat or otherwise induce any elector, to abstain from voting at an election, he shall forfeit and pay two hundred dollars, and the other half of the amount of the fine shall be for the use of the person who shall sue for the same."

"Sec. 47. If any person, elected a member of the General Assembly, shall, by himself or any other person, directly or indirectly give or cause to be given, any money, property, reward or present, whatever, to any elector, or to any person, to induce him to vote for or against any person, at an election, such person shall, by expelling from his seat in the General Assembly."

## CITY BRIEFS.

Wilmington exported to foreign ports for the month of June, 9,823 cases of spirits, turpentine and 18,295 barrels of charcoal, being more than New York, Charleston or Savannah exported. It was terribly hot here last week as well as in the country around. The municipalities of New Hanover county decided that there must be an entirely new registration, and in this article most dignities in the state.

Dr. J. F. King and wife sailed for Glasgow in the steamship Ancheris. An excursion from this city to the mountains which was projected last week, for some reason or other, defaulted.

A bad son, Daniel Higgins, colored, was sent to jail last week for attempting to knock his father down, first with a stool, and then with an axe.

The Passport has been to Snapper, Banks a fishing. A great many people are leaving the city for the mountains or the north, summering.

Berry Gleaves, has charge of the Carolina Yacht Club house and grounds, for 1878. A good many young ladies and some young gentlemen from this city are at the Chapel Hill Normal School, learning to teach.

The case of Foster vs. Heaton was to come up for trial in Pender, last week.

The pile driver is at work on the old Vick & Mebane lot, getting ready for the new cotton compress.

Corn and all the other crops are suffering in all the Cape Fear country from drought.

Wanted. FOUR YOUNG MEN can get employment on the Cape Fear Railway, by applying to W. P. Canaday, the President, or Thomas H. Harris, the Superintendent.

## THINGS IN GENERAL.

The Indians in Oregon and Washington Territory are getting hoisterous, and more than a thousand of them collected, when Gen. Howard attacked and drove them from their position.

Senator Merrimon, arriving at Raleigh after the session, made a talk which contained a great deal of good sense. The observations of the Senator on the occasion are printed and are scattered over the state thick as the leaves of Yallahros.

The Republicans of Alabama have held a state convention and decided that they would put up no state ticket for the reason that they could not have a fair election. They propose to wait until the terrorism and bulldozers of the Alabama Bourbons get ashamed of themselves and sneak out of the way, as they will sooner or later.

Our morning cotemporary having heard that the Democrats of Brunswick and Columbus were joining the new National Greenback party, was seized with a very severe attack of grippe. The manner in which that flickering luminary curved its spine, made grimaces, screamed, and embraced its abdominal with both hands, was astonishing to beholders. As the as the asp suffeth the east wind, so was his nose set towards Brunswick and Columbus.

The European Congress will have probably adjourned before this paper will reach our readers. The result of the consultation is a new political geography for Turkey. Austria takes Bosnia and Herzegovina, Montenegro, Roumania, Servia, &c. are independent, subject to provisions of treaty; and England buys the island of Cyprus, the old domain of Venis, the third in size of the Mediterranean islands, and is the special adviser and protector of Turkey; and Russia gets big slices. Turkey is not obligated from the map of Europe, as it ought to have been, but it is hampered and subordinated to the civilized and Christian powers.

The alchemist of the Chemist or the scientist of the Botanist has made no discovery of greater value to mankind than Dr. Harter's Elixir of Wild Cherry, which removes all irregularities of the bowels, brings back the roses to the cheek of the wasted sufferer, and insures robust health.

Most any young man can afford to wear a cane. It is an economical garment; no buttons flying off, no seams ripping, no rents occurring, no holes wearing through. Long live the inventor of the cane.
