JOHN NEWELL,

FROM WASHINGTON,

IRREGULARITIES IN THE GULF STREAM TO BE INVESTIGATED. -- CONFIDENCE CIVIL SERVICE REPORM, -FARCICAL CRARACTER OF THE EXAMINATIONS.

Special Correspondent to the POST |
WASHINGTON, July 18th, 1878,
North Carolina and Virginia get fifteen of the thirty-seven new life aving
stations authorized by Congress.
We have the news that Col. John R.
Winston, heretofore a stanuch [Lamotent, is going to run for Congress on the
authoral ticket in Greensbero district.
There is no law to nevent any man

If any irregularities, are found the Democratic press will charge them to the corruptions of the Republican party. The National Republican Congressional Committee are figuring on a gain of one member of Congress in North Carolina. Their figures are correct, if the Democrats can only be prevented from best.

crats can only be prevented from beating us on the count. One thing is cer-tain, and that is that there will be a Republican canvass in South Carolina, and a successful one, unless the rifle clubs resort to the murderous tactics of

In my last letter, I spoke of the immense number of the new silver dollars new lying idle in the treasury vaults. The Secretary of the Treasury is going to try and shove some of them off his hands. To this end he offers to send them to any national bank, free of carriage charge, to use in the place of one and two dollar notes. That is really the commencement of specie payments. Officially the Secretary announces that under the law he will not pay out gold for greenbacks until January first. No one wants the silver dollars. They are already a nuisance. The Department clerks are groaning over a rumor that they are to be paid off at the end of this month in silver dollars. It is probably only a rumor, but it serves to show the feeling existing regarding the use of the silver dollar among a class who have ap

to this time seen most of them.

The Potter investigation has assumed a new phase. The latest report is 'to the effect that the committee may not report until next March. This means that the Democrats intend to keep up a sceming investigation all summer. No formal report will be made and the Republicans cannot, therefore, refute it. During this time the Democratic press will continue to howl about frauds in Louisiana and Florida. It is a virtual confession of defeat. Meanwhile the committee has been put in care of Gen. B. F. Butler. He will call all of the "visiting statesmen" before the committee, at Atlantic City, near Jersey. This means that the United States will pay the board bills of the members of the committee and such witnesses as are called, for an indefinite time, at a fashionable watering place. There is nothing like Democratic economy, when it once gets loose. All of the representative Democratic "visiting statesmen" will be called. The list will include Representative Morrison, ex-Senotor Trumbull and ex-Governor Palmer, of Illinoi ; ex-Governor Bigter, of Pennsylvana; Senator Lamar, of Mississippi, and others. Gen. Butler has notified the committee that he intends to ask a great many questions of Gen. Garfield, of Ohio. He will be a good subject for Mr. Butler to crossexamine. There will be a livery time and it will not all be on Gen. Butler's Civil Service Reform has been having

a grand I rance in the "Great National German Asylum," formerly known as the Department of the Interior. About 275 candidates were examined. Many of them were ladies. One of them fainted on account of the heat and her great mental anxiety. Some of those who were examined came from as far away as St. Louis; and most of them are now waiting, on expense, to learn the result. It is time the country knew the size and meanness of the farce, a better phrase is-contemptible fraud, of these so called examinations. One recently occurred in the War Department. Over 300 men were examined to fill thirty places. It is openly stated here that a special list was made out before examinations began from which candi-dates were to be selected. It is charged that the two candidates who had the highest percentage did not get places, and men who are notoriously wanting in ability to make good clerks did get places. The same thing occurred in the German Asylum. Politicians, Senators, and others ask the Secretaries for places. "Your friend must go before the board," is the common reply. In the meanwhile a list is made of the Senator from Georgia and the Repre Senator from Georgia and the Representative from Texas, and so on, who is must be provided for. The day finally comes, and the examinations are made. The special list passes. When inquiry is made by some of the friends of the victims, they get a shrug of the shoulders and the reply, "Was he not before the board? We have done all we could. If he did not pass it is not our fault, nor is it yours."
The long list of applicants is cleaned off the slate, ready for another batch, and another repetition of the stupid swindle in the name of civil service reform. Another phase of the same swindle is the discharge of good clerks because of want of appropriations,
The truth is their places are quietly

The truth is their places are quietly filled by new appointments. This is deing done every day in the Great National German Asylum.

One might make the remark, without giving offence to a Washingtonian, that it is hot. The most popular evening costume, just now, is a fan. One need not go to the National Medical Museum to study bones, and things. It can be done in the evening on the side walks door steps, any where in the city. It is not so hot into eight to ten degrees as it was two years ago, and yet there
