Our Raleigh Correspondence.

The quiet that reigned so supreme after the adjournment of the recent "hubbub" of the Democracy, miscalled a legislative body, has been broken by the ring of the hammer in opening the spring trade, promising a rich harvest for our enterprising merchants. The favorable seasons have inspired our sons of toil with renewed hopes, and the people of old Wake are, as a general thing, in the enjoyment of peace and contentment.

While the mercantile and other industrial interest are thus girding themselves for renewed energy in the great struggle through life, there is a class of our fellow citizens who are drifting along with the current without rudder or paddle, I mean the masses who compose the heretofore invincible Republican party of Wake and the surrounding counties. It is a fact, Mr. Editor, the Republicans of the centre feel ashamed to admit that we are entirely without a paper either for offensive or defensive warfare, although we are the grand rallying point of most of the patronage of the government. The parsimony of United States officials in this vicinity, so far as aiding either materially or mal School has taken on the public couragiously any scheme for the interest of the Republican party is humiliating in the extreme. For months past, these blood cuckers upon the federal Treasury have been apto pull down than to build up the large experience in their working. party in the south, they hide themselves terrapin like, in their shells and wait for others to sweat for their ease and comfort, once in office, they seem to regard it rather as their right than as their privilege.

It is not to be understood, however, that this state of things is applicable to all officeholders in this section. The county officers of Wake are a glorious exception, (at least a majority of them are). Prominent among those whose whole heart and soul seems interested in the success of Republicanism, is the old war horse, Wm. W. White, Chairon the lookout for any honest turn in favor of our principles, and spares gratitude to those who have elevated the people, and a poor man. He is methods of graded sohools. still a man of the people, and by his liberality he is still a poor man. The Republicans of Wake will continue to honor such a man.

Our party, with only a few insignificant exceptions, are in favor of Dr. Eugene Grissom for Governor in 1880. It is useless for your correspondent to Grissom. Known not only within the and other states. narrow limits of North Carolina, cor only within the boundaries of our common country, his fame as a man of letters and science is not unheard of throughout continental Europe. As a man of executive ability he stands unrivalled in this state. As a Republican, there is none more devoted, and above all, as an honest man, he is the peer of any either in private or public station. The people of the center, with Grissom as tide of modern bourbonism, while they feel the "old Cape Fear" will, under his banner, battle manfully for the right.

CENTRE.

The May number of the North American Review opens with an article by the Hon. George W. McCrary, Secretary of War, on "Election Laws." The writer says that a government based upon popular suffrage can be successful in the best sense only to the extent that the public choice is truly expressed, fairly ascertained, and fully obeyed and that in such a government of the ballot cannot be overestimated. He points out the defects in our present system, and suggests means for securing honest results. The second paper is entitled "Campaign Notes in Turkey," and is by Lieut. F. V. Greene, U.S. A. This officer served with the Russian army as military attache of the United States Government, and the article is official report. It is published by special permission of the War Department, and its interest and value are enhanced by the insertion of notes from Generals Sherman and Skobeleff. a daily har' It closes with a criticism of the abilities of the commanders of the Russian and Turkish forces. ers-University Normal School.

The General Assembly having continued the appropriation to the Normal schools, the State Board of Education have organized the work for 1879. The University Normal School will open Tuesday, June 17th, 1879, and continues six weeks. A full corps of trained eachers have been selected for the school, and the work will be prosecuted with renewed interest. Hon. J. C. Scarborough, the very efficient Superintendent, of Public Instruction has supplied the County School Examiners with circulars and the teachers are requested to call on the same. Go to the University Normal School. Be there at the opening and remain till the close. We publish in full, below, the circular, signed by the Governor and others.

It should be examined with care: The recent action of the General Assembly affords most gratifying evidence of the strong hold the University Normind of the state. The enterprise will accordingly be prosecuted with renewed vigor and enthusiasm.

DR. C. McLANE'S

CELEBRATED LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPERSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

DAIN in the right side, under the I edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. * A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLane's LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated. Every box has a red wax seal on the lid, with the impression Dr. McLane's LIVER PILLS.

The genuine McLane's Liver Pills bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine Dr. C. McLane's Liver Pills, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name McLane, spelled differently but same pronunciation. dec 8-1y.

NEW ADVERTISEMENTS.

THE SUN FOR 1879. The SUN will be printed every day during the year to to come. Its purpose and method will will be the same as in the past: To present all the news in a readable shape, and to tell truth though the heavens fall, The Sun has been, is, and will continue to be independent of everybody and every-thing save the Truth and and its own conweich an honest newspaper need have.

That is the policy which has won for this newspaper the confidence and filendship of a wider constituency than was ever enjoyed by any otuer American Journal.

The Sun is the newspaper for the people. It is not for the rich man against the poor

man, or for the poor man against the rich man, but it seeks to do equal justice to all interests in the community. It is not the organ of any person, class, sect or party. There need be no mystery about its loves and bates. It is for the honest man again the rogues every time. It is for the honest Democrat as against the dishenest Repub. ican, and for the honest Republican as against the dishonest Democrat. It does not take its cue from the utterances of any politician or political organization. It gives ts support unreservedly when men or measures are in agreement with the Constitution and with the principles upon which this Republic was founded for the people. Whenever the Constitution and Constitutional principles are violated—as in the outrageous conspiracy of 1876, by which a man not elected wfis placed in the President's office, where he still remainsit speaks out for the right. That is the Sun's idea of independence. In this respect there will be no change in its programme

The sun has fairly earned the hearty hatred of rascals, frauds, and humbugs of all sorts and sizes. It hopes to deserve that hatred not less in the year 1879, than in 1878. 1877, or any yerr gone by. The SUN will continue to shipe on the wicked with unmitigated brightness.

While the lessons of the past should be constantly kept before the people. The SUN does not propose to make itself in 1879 a magazine of ancient history. It is printed for the men and women of to-day, whose concern is chiefly of to day. It has both the disposition and the ability to afford its

readers the promptest, fullest, and most accurate intelligence of whatever in the wide world is worth attention. To this end the resources belonging to well-established prosperity will be liberally employed. The present disjointed condition of parties in this country, and the uncertainty of the future, lend an extraordinary significance to the events of the coming year. The discussions of the press, the debates and acts of Congress, and the movements of the leaders in every section of the Republic will have a direct bearing on the Presiden tial election of 1880-an event which must be regarded with the most anxious interest by every patriotic American, whatever his political ideas or allegiance. To these e ements of interest may be added the probability that the Democrats will control both Houses of Congress, the increasing feebleness of the fraudulent Administration where of a healthy abhorence of fraud in any form. To present with accuracy and clearness the exact situation in each of its varying phases, and to expound, according to its well-known methods, the principles that should guide us through the labyrinth will be an important part of the SUN'S W rk

for 1879.

We have the means of making the SUN, as a political, a literary and a general newpaper, more entertaining and more useful than ever before; and we mean to apply
