Post, Wilmington, N. C. HON. JOHN SHERMAN.

We are receiving letters every day from every part of North Carolina indorsing our course in supporting the Hon. John Sherman for the Presidency. He certainly seems to be the most popular man in the country, to day, among the stalwarts as well as the liberal Republicans. The monicd and the substantial men of America are for John Sherman; the laboring men as well as the gentlemen of leisure are for him. He will get many Democratic votes on

therefore he will be elected. L. M. TERRELL;

Is a very extraordinary man for his size, he is Superintendent of the 4th District of the Postoflice Department, running from the Virginia line to Florida. We understand that this Lord of the Postoffice zervice is responsible for many of the Democratic appointments recently made. This very distinguished personage has his brother-in-law in a position at \$1,200 per annum, and the said brother-in-law is a sound Democrat. It seems to have been Lord Terrell's policy to appoint Democrats; and when he could not make a vacancy any other way, he would claim that some red tape order of his had been disobeyed by some route agent, and poor agent has to walk the plank, which makes a place for some one of the said Lord Terrell's Democratic friends.

No Republican has ever been consulted by Lord Terrell, as to who should or should not be appointed. On one occasion, when certain Republicans in this vicinity mustered sufficient backbone to write the said Lord Terrell and made some recommendations, they were sent word that he (Lord Terrell) wanted no suggestions from them; he "knew his bussines and should do as he saw proper," Very near one-half of the route agents of this division are Democrats, and Lord Terrell has had considerable to do with having them appointed.

Suddenly, on Wednesday morning matutinal cotemporary was seized with that mental aberration known as secession. It is discovered that 'our fathers" did not intend to create a "nation," but only a sort of voluntary association of independent and sovereign states, from which any one of them could retire at any time in a perfectly to do in 1832. It is on the whole rather "our fathers" intended to form a govcrement which had a special mode prescribed in it by which it could destroy will find some very serious objections to his doctrines. What a fraud on the name. in disputes between "two or more states, between a state and citizens of another state, or between citizens of the same state." These little things look very much, as if "our fathers" thought they were making a nation.

HURRAH FOR DEEP WATER.

Mr. Bacon, the Engineer in charge of the river and harbor improvements, informs us that there is 12 feet of water and out of the channel on spring tides at high water; and there is 151 feet in the channel on ordinary high tides. This is really very fine news for our merchants and shippers, and we hope

MORE DEMOCRATIC MAIL AGENTS.

We are informed (and we can vouch for the correctness of the information) that three of the four Route Agents on the line between Charlotte, Columbia and Augusta are Democrats. Well, we think that poor, single Republican should be thankful that it is no worse. We hope Mr. Thompson will let the man stay there if for no other reason than for the amount of pluck shown by city prison.

DEMOCRATS IN OFFICE. We want it understood that we do not blame a Democrat for accepting a good paying office, and anything we may say in condemnation of a Republican administration appointing Democrats to office is not meant for the appointee. Though we must confess it to be cheeky for a Democrat to apply to a Republican administration for a position, yet, there is no law to prevent it. We have never known a Democratic administration to appoint a Republican to office! if one was to make application to a Democrat for an office he would be lighted out of his boots in two minutes.

We feel very independent at times: ed Republicans are for him because we feel all the time as though we would prefer being independent. But we never have been so very independent that we did not feel bound to support the Republican nominees for office. Therefore, as an editor, we condemn in the very strongest language known the action of the Post Office Department in appointing Democrats te office,

INDEPENDENCE

or any other department that does it,as long as the Democrats make Demos cracy a qualification for office, when they have control of any city, county or state government. Will Captain Thompson make a note of this?

RECOMMENDING DEMOCRATS FOR OFFICE.

If any of our readers will go to the department at Washington and look over the petitions for office from this state they will find that a majority of the applicants are Democrats, and the majority of the signatures on their papers recommending them are Republicans. Now, this should be stopped! How can Republicans nominees expect the the votes of the party when as soon as the nominee is elected to office he immediately uses his official signature to put men who are opposed to the Resome friends. If a Republican should to this city for interment. go to a Democrat for his signature, to Governor Jarvis for a state appointment, what do our readers suppose for riding over the turnpike without would be the result? We can tell you! paying the fee charged. Ten cases the Republicans would be told "that to the victors belong the spoils." should not blame the Democrat for refusing to recommend a Republican to a Democratic administration (and if we did it would be the same.) Therefore no Democrat should expect Republi-

The Postoffice Department proposes at an early date, to extend fast mail service on south over two routes. One in Bald Head channel at mean low tide, route will be from here to Jacksonville, and ships drawing 17 feet can pass in Fla., by way of Charleston and Savannah, and the other from Washington to New Orleans by way of Richmond, Atlants, Montgomery and Mobile.

CUSTOM HOUSE STATISTICS. - Official figures at the Custom House, show that during the month of June, 1879, the exports and imports of this port were as follows :

There were exported 66,554 barrels of rosin, valued at \$89,489, and 506,500 gallons of spirits turpentine, valued at \$127,731. Total valuation of exports \$226,128.

Import duties collected for the same period amounted to \$1,262 19. Total receipts of customs on foreign exports and imports \$3,845 33.

For the year ending June 30th, 1879, 332 foreign trade vessels and 223 coastwise vessels were entered, making a total of 555 arrivals. Coastwise vessels under 100 tons burthen are not included in the above. Receipts for the year \$48,852 23. Total exports for the year \$4,671,331.

AN OUTRAGE UPON AN ARMY Officer.-We are informed that as the excursion boat in charge of Mr F. G. Robinson, on the 4th of July, was about leaving Smithville to return to this city, Dr. Seming, surgeon at the Post of Fort Johnson, came aboard for the purpose of coming up, when he was informed that his presence was not wanted-inat the boat was chartered for a private party and he could not be permitted to come up on her. But through the intercession of Captain Harper, whose boat (Passport) makes daily use of the government wharf at Smithville, he was finally allowed to

ride up in the pilot house. Dr. Seming is a gentleman of high character and standing in his profession, and in consequence of his losing a leg in the Modoc war has been retired, and on this occasion was leaving Fort Johnson for his home on the Par cific coast. Probably his great sin was in baying upon him the national army

THE BIG RACE. - A large crowd gathered on the beach, at Wrightsville sound, on the Fourth, to witness the big race of the season, by the yachts of the Carolina Yacht Club. Many ladies graced the occasion by their presence, and by their smiles inspired the youthful yachtmen to hope for victory. The following yachts were entered. Bessie Lee, Little Sister, Restless, Rosa, Lizzie and Ripple. A the start the breeze was blowing fresh from the southeast, and the starts made by the yachts was very pretty. Just after rounding the inlet buoy on the first course the Lizzie broke down, and was withdrawn. The Rosa's centre board was broken shortly after passing Mott's channel buoy, and the Ripple was closing up the gap between them, when the rigging of the Rosa gave way and she was withdrawn. No other accidents ical fabric, and a person named George we cannot conceive unless it is from as a cart body, and is said by epecures by the Ripple in one hour and thirtyone minutes. The American a leading Republican paper published by Hon. Eugene B. Drake, at Statesville, N. C., has this to say about Hon. John Sherman.

The resumption of specie payments and equalizing greenback, gold and sil-ver, and restoring the credit of the gov-ernment to a gold standard upon which loans can be effected at 4 per cent. per annum, a rate of interest much less than ever before attained, is chiefly owing to Mr. Sherman's statesmanship and financial skill, and which the people are beginning to appreciate, hence his growing popularity with the masses, mercantile and other interests. The people of the south, are especially interested in the election of Mr. Sherman, for they of all others have suffered most, being agricultural, from a depreciated currency.—Sound money is what they have long wanted, and they now have it, chiefly owing to John Sherman.

Gold Minining in North Carolina-Prospects of the Beaver Dam Company-New Officers Elected.

A meeting of the stoodholders of the Beaver Dam Gold Mining Company was held, at which J. H. Flagg, of Wash. ington; General J. A. Garfield, of Ohio; Benjamin Wilson, M. C., of West Virginia; J. M. Slover, a well known mining expert of New York city, and Judge J. J. Jackson, of West Virginia were elected directors, Mr. Flagg being subsequently chosen President. The officers also chosen were J. A. Smith, Secretary and Treasurer. and J. C. Edgcumbe, of California, superintendent. The company's mine is situated in Montgomery county, N. C., and comprises upward of 200 acres of rich goldbearing gravel, which averages, thus far, full \$1 per cubic yard in "free gold." The mine has been producing for sixty years and \$200,000 is said to have been already extracted therefrom, although the operations hitherto have been conducied in the most primitive and un-

The present organization will employ the more recent improved methods and machinery, and are confident of realiz ing very large returns. Mr. Edgcumbe, the superintendent, comes from Calia fornia expressly to take charge of the development, and he thinks there are few richer mines of this character on the Pacific coast or elsewhere in the country. Other California experts have recently examined the property and express like opinions.
