Generals Beauregard and Early. A card signed by the above is going the rounds of the press. One statement in it strikes the reader as very peculiar, namely: "that in wanaging a single number drawing, if the Commissioners of such a lottery allows the ticketholder the privilege of calling out the number on his ticket and have the tag or ballot with a corresponding number on it shown him in the presence of the audience and then piaced in the wheel such a lottery company resorting to such a practice proves itself to be a froud." This statement is untrue and unworthy of such gentlemen. Will these Generals please say how single number lottery companies swindle is it not by simply having all tags or ballots with numbers on them corresponding to the numbers of the tickets they have sold, not placed in the wheel at all thus if a man buys a ticket with number 56 on it, the tag or ballot with be on it is kept out of the wheel, so, of course, the ticket 'holder is bound to draw a blank, because his number is not represented in the wheel at all, but suppose the holder of the ticket asks to see the tag with 56 on it placed in the wheel and he sees it done, he knows then his ticket HAS a chance to draw a prize. This certainly is the only fair test of an bonest drawing. Should the ticket bolder not be there in person, he could write to some ope, asking them to call out his number and see it go in the wheel. These Generals were brave soldiers, and no doubt are honest in THEIR lottery work, but they certainly are not posted as what constitutes an honest lottery drawing and their statement shows their ignorance.
