

THE WILMINGTON POST.

WILMINGTON, N. C.,
FRIDAY MORNING, OCT. 12, 1906.

Horse and Mule Thief.
Sheriff Taylor, of Brunswick, is on the "war path" after a mule and horse thief, by the name of W. H. Swain. It seems that he stole a valuable horse from Mr. David Flowers, of Bladen county, on the night of the 2nd of October, and a few days since the sheriff received papers for Swain's arrest from a neighboring county in North Carolina. The thief got wind of the effort being made to capture him and finally succeeded in eluding the vigilance of both his pursuers from Bladen and the sheriff's posse in Brunswick. At last accounts he was making in the direction of Wilmington, and it is believed he either passed through here or subsequently changed his course for Fayetteville or South Carolina. Swain was tried in Brunswick in 1875 for the murder of a negro man named Cobb, near Phoenix P. O., on the C. C. road, but was acquitted, and was afterwards sent to the penitentiary from New Hanover for larceny.

TELEGRAPH BREVITIES.

Chief Justice Coleridge is visiting Baltimore.
The United States Supreme Court convened on Monday.
Physicians of Pensacola deny the existence of yellow fever in that city.
A \$300,000 fire occurred in New Orleans Monday morning. Insurance \$22,000.
The visiting journalists from this state received quite an ovation at Boston.

Thirty visiting military companies are expected to attend the State fair at Richmond.
Senator Edmunds will resign as president pro tem. of the senate when congress meets.

Greenlaw's Opera House and several business houses in Memphis were destroyed by fire Tuesday night. Loss about \$170,000.

President Arthur spent last Sunday at Raritan, N. J., as the guest of Secretary Franklin Hughes.
The Washington statistical place the number of males in the south who cannot write at 1,154,125.

Mary Daly, aged 65, was killed in a collision with a falling beam at her residence in Brooklyn.

The 53d semi-annual conference of the Murnon Church was held at Lake City on Saturday last.

Malignant yellow fever has developed at Brewton, Ala., on the Gulf coast, and Mobile Railroad.

Simon Macks & Co., clothing manufacturers, New York, have assigned. The preference is for over \$300,000.

A rumor is current that Sir Stafford Northcote had been shot and dangerously wounded in Ireland. The rumor lacks confirmation.

A cotton fire occurred on board of a steamer at Savannah Sunday night. The fire was checked after 100 bales had been destroyed.

The Episcopal General Convention in session at Philadelphia, has reported favorably on the erection of a new diocese in North Carolina.

Cotton returns of the Department of Agriculture show that the condition of the crop on the 1st of October, was worse than in the 1st of September.

The Pennsylvania State Board of Agriculture is notified that pleuro-pneumonia has appeared among the cattle in Lehigh county, and an investigation has been ordered.

The celebration of the bi-centennial of the first German colony in this country, at Philadelphia, took place throughout the United States on Monday. At Pittsburgh the procession was fifteen miles long.

Advice to Mothers.
Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. W. W. WISNOLW'S SWEET SYRUP FOR CHILDREN TEETHING. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. WISNOLW'S SWEET SYRUP FOR CHILDREN TEETHING is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Lawlessness on the South Carolina Border.
We are informed that a committee of affairs exists on the South Carolina line, in the counties of Robeson and Columbus, which calls for the attention of the authorities. It appears that the convenience of escape across the border has induced several whisky blockade runners to intensify the borderland offering for sale whisky on which neither federal nor state tax has been paid. As is usual under such circumstances, whisky is not drunk in moderation, but guzzled in great quantities because of the necessity for "making hay while the sun shines." This state of affairs culminated on the 26th inst. in a melee which resulted in the death of one man and the serious wounding of another.

The only difference between one yard and two is a fence.

A DETECTIVE'S EXPERIENCE.

His Successful Undertaking and Escape from an Impending Fate.

Buffalo, New York News.

One morning several years ago, just at the dull gray light was beginning to show itself in the east, a small band of men might have been seen deployed about a house on Ferry street, in Buffalo. There was nothing special either in the dress or appearance of the men to indicate their intention, but it was plain that they had business of an important nature. Suddenly a man appeared at one of the windows, took the situation at a glance, and, evincing himself outwardly wonderful quickness, scaled to the roof of the house. This man was Tom Ballard, the notorious counterfeiter; and armed to the teeth and fully realizing his situation, he defied an justice and the officials below him. Some of the officers, knowing the desperate character of the man, proposed to shoot him until he was killed, but one of the number promptly protested, and declared that if his brother officers would assist him to ascend he would capture the man alive. Accordingly he began the difficult task, and succeeded in bringing down the prisoner to the ground in safety.

The man who accomplished this task was Mr. Thomas Curtin, the present superintendent of city police of Buffalo, N. Y. Mr. Curtin is a man who is known by every prominent detective and policeman in America, and he stands prominently in the front rank of his profession. Quiet and gentlemanly in appearance and manners, he possesses a courage combined with marked physical powers, that make him the terror of evil doers and the pride of law-abiding citizens. Few people can realize, however, the trials, exposures, and even privations, to which the members of every municipal police and fire department are exposed. Compelled to be on duty at uncertain hours, subject to the most inclement weather, and often necessitated by the nature of their duties to protracted undertakings they endure a nervous and physical strain that is terrible. Such was the experience of Mr. Curtin in former days, and it is not surprising that he found himself suffering from a mysterious physical trouble. In relating his experience to a representative of this paper he said:

"At times when I was on duty I would feel an unaccountable weariness and lack of energy. My appetite was also entirely absent, and my head would feel dull and heavy. I did not fully understand these troubles, but supposed, as most people suppose, that I was suffering from malaria. I tried to throw off the feeling, but it would not go. I thought I might overcome it but found I was mistaken, and I finally became so badly off that it was almost impossible to attend to my duties. I have known a very number of men in the police and fire departments of this country who have been afflicted as I was, and I doubt not there are to day hundreds similarly troubled who, like myself, did not know the cause, or really what ailed them.

"Your present appearance, Mr. Curtin, does not indicate much physical disability, and he remarked, as he looked at the 220 pounds of bone and muscle standing nearly five feet eleven inches in height before him.

"That is just what I want to tell you, for I believe it may be of great service to many others. My profession would possibly hear of it. I began the use of a popular remedy at the earnest solicitation of a number of friends in this city, and found it to my great gratification that I began feeling better. This feeling continued and I gained in strength and vigor until now I am perfectly well—and wholly free from the ailment of which I was suffering. I believe to be the best medicine for policemen, firemen, railroad men, or any other class of people exposed to danger of a change of weather, ever discovered. Since my recovery I have recommended it everywhere, and have never known a case where it failed either to cure or benefit. I would not be without it under any consideration, and I am positive it is a wonderful and valuable and at the same time entirely harmless remedy. Indeed, I see that Dr. Gunn, dean of the United States Medical College of New York, speaks of it in the highest terms."

"You experience little difficulty in the execution of your duties now, Mr. Curtin, do you?"

"None whatever. Our department was never in better condition than at present."

"And do you never have any fear of some of the desperadoes whom you have been the means of bringing to justice?"

"Not in the least. Such men do not try to retaliate, partially because they have met the courage, but often because they respect and officer who does his duty."

"The policemen, firemen, letter carriers and other public employees in this country have a particular trying life. When, therefore, a simple and pure remedy that can restore and sustain the health of all such men is found, it should be cause for great congratulation, especially when recommended by such a man as Superintendent Thomas Curtin of Buffalo."

The two wings of the New York city detectives are unable to agree on principles. Their principles are seven in number, viz: five leaves and two small bushes. Tammany will have the five leaves and the county Democracy refuse to be put off with the two little bushes. The difference is thought to be irreconcilable. This state of affairs has put all the Republicans in high glee.

A Minneapolis paper has evolved an important secret from "authoritative quarters" to the effect that there is a perfect agreement between Elden and Hendricks that the "old ticket" shall be put up in 1888, and that John Sawyer has pledged the "old man" the undivided support of Tammany. The story, if true, is perhaps important, and perhaps not.

Consolidated devotes 30,000 acres to the cultivation of the oyster.

A U. S. Consul Murdered—Chas. Seymour, of Wisconsin, Killed in China—The Work of a Mob.

LONDON, October 7.—The startling intelligence has just been received here from China that Charles Seymour, the United States consul at Canton, has been assassinated.

The news from China is of the gravest character. The population of Canton has been in a furor. The popular turbulence has been directed almost exclusively against foreigners. The immediate cause of the riot is dissatisfaction over the sentence imposed by the British consulate upon Tidewater Logan.

Logan was placed on trial September 25, upon a charge of having been a ringleader in the riots on the quay on September 10, and with having during the fight drowned a Chinaman by throwing him into the river. The trouble began in a dispute between a Portuguese and some Chinamen. The latter attacked the former in such numbers that Logan interfered in his behalf and in the contest threw one of the natives overboard. This act resulted in a riot, and the Chinese, who were greatly inflamed against all foreigners because of the French operations in Tonquin, made a combined attack upon the European warehouses upon the wharf. Among the besieged were Logan and five English merchants, who in the defence they made of their property fired into the mob, killing five Chinamen. The Chinese military finally overcame the mob.

On the 28th of September Logan was convicted of manslaughter in drowning the heathen, and was sentenced to a term of seven years imprisonment at hard labor. The sentence, however, was denounced by the Chinese as being too light. They wanted blood for blood and demanded Logan's life. But no notice of the demand was taken by the British consulate, and the Cantoneses have since been in a state of turmoil, rioting and vengeance against all foreigners. Large bodies of soldiers have been called into requisition to defend the foreigners and their property. The mob daily increased, and the native soldiery learned to sympathize with them. The rioters even made demonstrations against the native officials. Fresh troops aggravated the troubles, and the natives have at last broken over all restraint.

The American consul is not known to have given any offence to the natives, as he took no part in any of the recent demonstrations. But the Cantoneses are up against all resident foreigners, and it is feared that the present riot will culminate in a war of extermination. No foreign nation has a naval representative in Canton adequate to the protection of its interests or people there, most of the foreign men-of-war being at Hong Kong.

The Marquis Tseng said to-night he feared that the news about the assassination of Mr. Seymour was true, and feared that the prolongation of the dispute between France and China was tending to inflame beyond control the war feeling in China, in which case it would be absolutely impossible for the local authorities anywhere within the empire to afford due protection to the lives or property of foreign residents.

Avenger O'Donnell's Counsel.

CHICAGO, October 7.—At a meeting of the Irish Nationalists last night a committee reported that Senator Logan and the Chicago congressmen will, at the request of their constituents, ask the Department of State at Washington to furnish a reputable counsel of this city, or resident in the State of Illinois, with a letter to the American Legation in London. This letter will authorize the latter to ask of the British authorities the courtesy of allowing counsel to appear for O'Donnell and participate in his defense. O'Donnell should procure to be a bona fide American citizen and should set up that claim. The committee were instructed to communicate with Senator S. M. Cullom and the congressmen of Illinois not resident in Chicago, and to ask them to co-operate with Senator Logan, Congressman Dunham, Davis, Adams and Burt. It was ordered that a cablegram be sent to Hon. A. J. Sullivan, O'Donnell's counsel in London, to ascertain if Patrick O'Donnell were an American citizen. The executive committee which had charge of the Ogden Grove picnic of August 5 decided to forward the \$3,240 which was cleared, to be used in the defence of O'Donnell.

Increased Postal Facilities.

WASHINGTON, October 6.—With a view to facilitating and hastening the delivery of mail matter in large cities the postoffice department is gradually extending the system of sorting city mails in postal cars which was tried on a small scale with very satisfactory results some time since. The plan is to classify city mails as far as possible while in transit by distributing the matter in postal cars under the head "for postmasters," "for banks and bankers," and for the several metropolitan postal stations, so that it may be handled with greater quickness and facility when it reaches its destination. The system was recently tried on several trains running into Philadelphia, and the service was so satisfactory that the postmaster of that city asked to have his mails sorted on all trains. It is the intention of the postoffice department to eventually have the mail matter sorted in this way on railway trains for all large cities in the country.

The pottery factory at Chattanooga is certainly to be built; two men having agreed to take \$5,000 of the stock, and the citizens will raise the balance of \$55,000, which is the amount required.

The corn crop of Georgia and Florida is said to be the best ever grown in the two states. The barns are filled with the old crop, which is selling at from twenty to thirty cents a bushel.

WILMINGTON MARKETS.

October 4.
SPRITS TURPENTINE—The market opened quiet at 35 1/2 cents per gallon, with sales reported of 80 casks at 36 cents. Later we hear of small sales at 35 1/2 cents, at which the market closes.
ROBIN—Market dull at \$1 12 1/2 for Strained and \$1 17 1/2 for Good Strained, with no sales to report.
TAR—The market was steady at \$1 80 per bbl of 280 lbs, with sales at quotations.

CRUDE TURPENTINE—The market was steady, with sales reported at \$1 25 for Hard and \$2 00 for Yellow Dip and Virgin.
COTTON—Market dull, with sales reported of 40 bales on a basis of 10-1-16 cents per lb for Middling. The following were the official quotations:
Ordinary, 7 13-16 cts # b
Good Ordinary, 9 1-16 " " # b
Low Middling, 9 11-16 " " # b
Middling, 10 1-16 " " # b
Good Middling, 10 7-16 " " # b

October 5.
SPRITS TURPENTINE—The market opened firm at 35 1/2 cents per gallon, with sales reported of 200 casks at quotations.
ROBIN—Market dull at \$1 12 1/2 for Strained and \$1 17 1/2 for Good Strained, with no sales to report.
TAR—The market was firm at \$1 80 per bbl of 280 lbs, with sales at quotations.

CRUDE TURPENTINE—The market was steady, with sales reported at \$1 25 for Hard and \$2 00 for Yellow Dip and Virgin.
COTTON—Market firm, with sales reported of 200 bales on a basis of 10-1-16 cents for Middling. The following were the official quotations:
Ordinary, 7 13-16 cts # b
Good Ordinary, 9 1-16 " " # b
Low Middling, 9 11-16 " " # b
Middling, 10 1-16 " " # b
Good Middling, 10 7-16 " " # b

October 6.
SPRITS TURPENTINE—The market opened firm at 35 1/2 cents per gallon bid, and later we hear of sales of 150 casks at quotations.
ROBIN—Market dull at \$1 12 1/2 for Strained and \$1 17 1/2 for Good Strained, with no sales to report.
TAR—Market firm at \$1 80 per bbl of 280 lbs, with sales at quotations.

CRUDE TURPENTINE—Market steady, with sales reported at \$1 25 for Hard and \$2 00 for Yellow Dip and Virgin. Later we hear of sales of 145 casks at \$1 00 for Hard and \$1 75 for Yellow Dip and Virgin.
COTTON—Market steady, with sales reported of 800 bales on a basis of 10-1-16 cents per lb for Middling and 152 do on private terms. The following were the official quotations:
Ordinary, 7 15-16 cts # b
Good Ordinary, 9 1-16 " " # b
Low Middling, 9 13-16 " " # b
Middling, 10 1-16 " " # b
Good Middling, 10 7-16 " " # b

October 8.
SPRITS TURPENTINE—The market opened firm at 35 1/2 cents per gallon with sales reported later of 600 casks at 36 cents.
ROBIN—The market was dull at \$1 12 1/2 for Strained and \$1 17 1/2 for Good Strained. Small sales reported at \$1 10 for Strained and \$1 15 for Good Strained.
TAR—The market was firm at \$1 80 per bbl of 280 lbs, with sales at quotations.
CRUDE TURPENTINE—Market steady, with sales reported at \$1 00 for Hard and \$1 75 for Yellow Dip and Virgin, with sales at quotations.
COTTON—Market firm, with sales reported of 300 bales on a basis of 10-3-16 cents for Middling. The following were the official quotations:
Ordinary, 8 cts # b
Good Ordinary, 9 3-16 " " # b
Low Middling, 9 13-16 " " # b
Middling, 10 3-16 " " # b
Good Middling, 10 7-16 " " # b

October 9.
SPRITS TURPENTINE—The market opened strong at 36 1/2 cents per gallon, with sales reported later of 150 casks at quotations.
ROBIN—Market firm at \$1 10 for Strained, and \$1 15 for Good Strained, with sales reported of 1,000 bbls Good Strained at quotations.
TAR—The market was firm at \$1 80 per bbl of 280 lbs, with sales at quotations.
CRUDE TURPENTINE—The market was steady, with sales reported at \$1 00 for Hard and \$1 75 for Yellow Dip and Virgin.

COTTON—Market firm, with sales reported of 250 bales on a basis of 10-1-16 cents per lb for Middling. The following were the official quotations:
Ordinary, 8 1-16 cts # b
Good Ordinary, 9 1-16 " " # b
Low Middling, 9 1-16 " " # b
Middling, 10 1-16 " " # b
Good Middling, 10 1-16 " " # b

October 10.
SPRITS TURPENTINE—The market opened steady at 36 1/2 cents per gallon, with sales reported later of 100 casks at quotations.
ROBIN—The market was firm at \$1 10 for Strained and \$1 15 for Good Strained, with small sales at quotations.
TAR—Market firm at \$1 80 per bbl of 280 lbs, with sales at quotations.
CRUDE TURPENTINE—The market was steady, with sales reported at \$1 00 for Hard and \$1 75 for Yellow Dip and Virgin.

COTTON—Market firm, with sales reported of 375 bales on a basis of 10-1-16 cents for Middling. The following were the official quotations:
Ordinary, 8 1-16 cts # b
Good Ordinary, 9 1-16 " " # b
Low Middling, 9 1-16 " " # b
Middling, 10 1-16 " " # b

SENSIBLE MEN and women know every ailment of the body has a separate cause or origin, and that each needs a special and permanent remedy in order to effect a cure, and a moment's reflection must convince that any of the remedies proposed upon the public claiming to cure all of a number of diametrically different diseases must prove failures, even if we do not call them humbugs.
POOR PEOPLE and people of moderate means are advised to purchase one bottle each of a separate cause or origin, and that each needs a special and permanent remedy in order to effect a cure, and a moment's reflection must convince that any of the remedies proposed upon the public claiming to cure all of a number of diametrically different diseases must prove failures, even if we do not call them humbugs.
