The Board of County Commissioners  
propose to hold a meeting this evening.  
The city tax sale will positively take  
place on Wednesday.  
Several notices of new advertisements  
crowded out of this issue, will appear to-  
morrow.  
Important meeting of the Wilmington  
Light Infantry will be held at the armory  
of the company on Second street this and to-  
morrow evenings.  
Coffee should never be roasted darker  
than a rich chestnut brown. When the  
color approaches to black it gives a  
burned, bitter flavor to the infusion.  
The Baptist State Convention assembles  
at Shelby next Wednesday morning. It  
is to be regretted that this Convention and  
our Fair falls due the same week.  
Messrs. B. F. Mitchell & Son advertise  
for sale 5,000 bales choice Eastern hay,  
5,000 bushel oats, 2,000 bushel corn, fresh  
ground pearl and extra hominy and sundry  
other articles.  
Mr. J. W. Woolvin, corner of Princess  
and Second streets, is prepared to execute  
orders for everything in the cabinet making  
or undertaking line. Orders by mail or  
telegram filled by very next train.

The crops throughout the State are  
good and the farmers rejoice in the harvest.  
It has been a year of plenty, and the ap-  
proaching Thanksgiving season will be  
one of heartfelt gratitude to a bountiful  
Providence.  
**The Wilmington.**  
Steamship Wilmington, Capt. Gardner,  
of the Clyde line, arrived here on Sunday  
from New York. It is her second visit to  
these waters but since her first appear-  
ance here she has been lengthened and is  
now eased in iron, making her one of the  
handsomest boats on the coast. She  
brought in and will take out a full cargo.  
**Public Liberty.**  
The Cape Fear and Peoples Steamboat  
Co. have tendered to the Committee of  
Citizens their fine Steamer Governor  
Worth to convey the Survivors of Fort  
Fisher to the Fort and return on Friday  
next.  
The Steamer will arrive here on Thurs-  
day night and leave Friday at 9 o'clock  
A. M. for Fort Fisher.  
The excursion will be private and exclu-  
sive to the survivors and their accom-  
paniers.

# THE EVENING REVIEW.

VOL. 1. WILMINGTON, N. C., MONDAY, NOVEMBER 8, 1875. NO. 28.

**The Wildmans.**  
Whatever you do not forget the per-  
formance of the Wildman Comedy Com-  
pany at the Opera House this evening.  
The box seats are now open at Hubner's,  
and where seats may be secured in ad-  
vance without extra charge. A splendid  
bill is offered for this evening. Doors  
open at 7, performance to commence at 8  
o'clock.

**Fair Prospects.**  
The indications to-day are that the  
Fair of the Cape Fear Agricultural Asso-  
ciation, which opens to-morrow, will  
prove a very successful one. A great  
many articles have already been received  
and entered and others will pour in to-  
day. We hope that the merchants of the  
city will make handsome displays on the  
occasion.

**Give Us a Rest.**  
It is hoped that the merchants general-  
ly will respond to the request of the Board  
of Managers and close their places of busi-  
ness on Thursday so as to allow them-  
selves and their employees an opportuni-  
ty for visiting the Fair Grounds on that  
day, which will be the "big day" of the  
Fair. It is thought that the day will be  
made a Bank holiday and there will proba-  
bly be very little business transacted  
then. If all close nobody will lose any-  
thing.

**Special Premiums.**  
In addition to those already spoken of  
Messrs. Grant & Hinton, Commission Mer-  
chants and Grocers, will give a barrel of  
their "Elm Grove" family flour to any one  
who shall obtain a premium at the Fair  
this week for bread, rolls or biscuit made  
from said flour. Those desiring to com-  
pete can obtain the flour at the store, 9  
South Water street.  
Mr. M. J. Dingelhoeff, watchmaker and  
jeweler, 55 Market street, a piece of silver,  
valued at \$15, for the best home-made  
quilt.

**Your Paper.**  
A newspaper is a window through  
which men look out on all that is going  
on in the world; without a newspaper a  
man is shut in a small room and knows  
little or nothing of what is happening out-  
side of him-self. In our day the newspa-  
pers keep pace with history and records it.  
A newspaper will keep a sensible man in  
sympathy with the world's current history.  
It is an unfolding encyclopedia, an un-  
bound book forever issuing and never  
finished.

**Fort Fisher Reunion.**  
The Norfolk Virginian says: The Nor-  
folk City Guard, at a regular meeting held  
last night, decided unanimously to attend  
the reunion of the survivors of Fort Fisher  
on the 10th inst. Free transportation was  
tendered by President Robinson, of  
Seaboard and Roanoke Railroad, and Presi-  
dent Bridges, of the Wilmington and Wel-  
don Railroad. The Guards and citizens gen-  
erally feel indebted to these gentlemen for  
their kindness in thus assisting us in hav-  
ing our city represented. The Guard ex-  
pect to carry forty men, and will be enter-  
tained during their stay by the citizens of  
Wilmington.

**Opening of The Fair.**  
The Fair of the Cape Fear Agriculture  
Association will open to-morrow. The  
procession will form on Princess street,  
with the right resting on Front, at 10 A.  
M., and take up the line of march down  
Front to Market, up Market to Fourth,  
up Fourth to the Fair Grounds to cele-  
brate the opening exercises, in the follow-  
ing order:

- PROCESSION.**

**Mann's Book Store.**  
The advertisement of Mr. Ed. Mann's  
book store on North Front street makes  
its first appearance to day in the Review.  
Our country friends are notified that they  
will find there a splendid stock of books,  
stationery and fancy articles for the Fair  
week and Christmas trade.

**The Boys and Girls.**  
The special premiums offered by us  
seen to have stirred up the ambition of  
the juveniles. We were besieged by a  
crowd of boys on Saturday for particulars  
relative to the matter, and we judge that  
the contest between them will be a spirited  
one. We are glad to learn, too, that the  
girls will contend for the premiums offered  
to them.

**Big as the Biggest.**  
The large wholesale and retail house of  
M. M. Katz appears in a mammoth ad-  
vertisement in this issue. We have per-  
sonally inspected this stock and it would  
be hard to call for anything in the dry  
goods line or business that could not be  
found there. To wholesale buyers Mr.  
Katz only says, "Come and see me and  
I will do you good." The ad. appears on  
the 4th page.

**In Profusion.**  
It will pay those on a visit to the city  
this week to drop in at Mr. Dingelhoeff's  
jewelry store on Market street and look  
over his stock of watches and clocks,  
jewelry, silver ware, &c. He has one of  
the handsomest and most extensive stocks  
we have ever seen South of Baltimore, and  
purchasers may rely upon it that every  
article will prove just as represented.

**Free Distribution.**  
Our Annual, a handsome four page ad-  
vertising sheet, makes its first appearance  
for the season to-morrow. Besides a fine  
array of advertisements it will contain  
each day the theatrical programme and  
the regular programme of the Fair. It is  
distributed gratuitously. Our Annual  
was printed in the Review Book and  
Job Office and we point to it with pride  
as a specimen of our work.

**New Cotton Press.**  
Dr. J. W. Macumber has now working  
in a vacant lot foot of Mulberry street,  
a new cotton press patented by him. This  
press is calculated for work on the farm  
and it is claimed that it will do with  
two hands the same amount of work done  
by six on other presses. It takes in the cot-  
ton on the first packing and compresses  
the usual 500 pound bale into a space 4  
feet by 2 feet.

**Funeral Ceremonies.**  
The body of Geo. D. Lewis, colored,  
who was drowned in the river about 11  
miles above the city on the 29th ult., a  
full account of which was published in  
the Review, has been found and was on  
yesterday buried by the Rose Bud Band  
and the Patrons of Mercy, Grand Order of  
Brothers Lodge, No. 1. The ceremony  
was performed by Rev. Jas. E. Nichols.  
The Lodge assembled on Fifth street be-  
tween Mulberry and Walnut and marched,  
headed by the Rose Bud Band, to Messrs.  
J. R. Blosson & Evans' distillery where  
the body lay; thence the procession pass-  
ed to Pine Forest Cemetery where the  
burial rites were performed. Notwith-  
standing the rain there were 122 mem-  
bers in line, the Lodge numbering in all,  
160 members.

**Navassa Guano Works.**  
Saturday's Raleigh News contains a cut  
of the Works of the Navassa Guano  
Company, at Meares' Bluff, near Wilmington,  
and as the sketch which accompanies it  
is full and very interesting, we make no  
apology for reproducing it here. The  
News says:  
The Navassa Guano Company pur-  
chased a tract of land on the Northwest  
branch of the Cape Fear river, known as  
Meares' Bluff, about five miles above  
Wilmington by water and about three by  
land, immediately on the river bank, and  
where both the Wilmington, Columbia  
and Augusta, and the Carolina Central  
Railroads cross, thus giving it the advan-  
tages of communication both by water  
and by rail, both being at its very doors.  
And its water at the wharf of the Com-  
pany is sufficient for any vessel that comes  
into the port of Wilmington.  
The Company was organized in 1869,  
with the Hon. R. R. Bridges, President,  
Donald McLaie, Secretary and Treasurer,  
and Col. C. L. Graftin, Superintendent;  
all of which officers still hold their original  
positions.  
The Company commenced building on  
the 16th day of September, 1869, and the  
confidence in the character of the man-  
agers, and their ability to produce a good  
fertilizer were such that their orders the  
very first season were beyond the capacity  
of the Company to fill; and we are happy  
to say that anticipation was so well met  
that this state of things continues to this  
day, the factory working to the full extent

of its great capacity, being always over-  
crowded with orders.

The works at present comprise about  
12 buildings, covering about 38,000 square  
feet.  
**MATERIALS USED IN THE MANUFACTURE.**  
The base used in the manufacture of the  
Navassa guano, is Navassa phosphate,  
brought from the Island of that name in  
the Caribbean Sea, and is among the  
richest of natural phosphates known to  
commerce or to science. It contains 80  
per cent. of bone phosphate. It comes in  
the shape of a hard rock which is broken  
to pieces and ground to impalpable powder,  
previous to its incorporation with other  
ingredients.

Nitrogen, another ingredient of the Na-  
vassa guano, and one of the most impor-  
tant constituents of plants is procured by  
the company in the form of animal mat-  
ter, dried blood, horns and hoofs, sulphate  
of ammonia, nitrate of soda, &c., which  
articles are procured in Chicago, New  
York, Philadelphia, Baltimore, St. Louis  
and elsewhere.

Sulphuric acid, another important in-  
gredient, and upon which the thorough  
reduction and incorporation of all the  
others depend, is made on the spot in the  
large acid room of the company. The  
sulphur used is imported directly from  
Sicily. About fourteen tons of acid are  
daily used.

Potash is procured from the genuine  
Leopoldshall kaimit imported directly from  
the Duval Anhalt mines in Germany.

Nitre is brought from South America  
and the East Indies, and thus it will be  
seen that to manufacture a ton of the  
Navassa Guano nearly the entire globe is  
laid under contribution.  
The Navassa Phosphate, after being  
crushed to uniform size in a powerful  
Blake crusher, is thoroughly dried in an  
Aids' Drier, and then ground to powder  
in burr-stone mills. By these means the  
phosphate is reduced to a condition in  
which it readily yields its phosphoric  
acid, and is enabled to produce an imme-  
diate effect on the growing plant. After  
being ground to the required fineness, the  
Phosphate is next intimately mixed with  
the other ingredients in a machine de-  
signed for the purpose.

Every article as it is used is accurately  
weighed, by which means the strictest  
uniformity is secured. The acid is ap-  
plied at a carefully observed temperature  
and strength, and the whole mixture, by  
continued stirring, becomes one conglom-  
erate mass.

Coming from the mixer, the guano is  
now allowed to remain in heaps for six or  
seven days. During this time, through  
the agency of chemical action, i. e. inter-  
nal heat, it becomes perfectly dry and  
hard. To render it fit for application to  
the soil, it is now passed through one of  
Codd's Disintegrators, whence it emerges  
as finished guano. It is then stored in  
warehouses—each capable of containing  
three thousand (3,000) tons—to await  
shipment.

The shipping season opens about the  
first of January and closes about the mid-  
dle of June. During this time the greatest  
activity prevails. Trains are often loaded  
on three different roads at the same time,  
and sail vessels and steamboats and light-  
ers are taking in or discharging cargoes at  
the wharf. The Company have shipped as  
high as 200 tons per day, and often  
average 100 tons per day through a  
month.

We have thus given as briefly as the  
subject would admit of, a sketch of this  
highly interesting establishment. We  
have visited it. We have inspected every  
part of the works. We have witnessed  
every process of the manufacture, and we  
can bear testimony to the conscientious  
fidelity with which everything is done to  
build up and maintain a high character  
for the products of the works. The high  
character of the gentlemen composing the  
company ought to be guarantee sufficient  
in itself. The testimony of planters is  
perhaps universal as to the merit of the  
Navassa guano, and we may hope that  
the establishment will go on to prosper  
until it is recognized as a necessity by all  
those who use artificial fertilizers.
