

Disgusting Journalism.

One of the most disgusting displays of trickery occurs in the daily News, of yesterday, that we have ever seen in public print.

It has been known for three or four days that J. O. Wilcox, the regular candidate of the Republican and anti-Convention men of Ashe, had been elected.

The editor of that paper, foaming with rage and petty malice, could not bear to see Republicans rejoicing over their grand victory without throwing a damper on the occasion, even if he had to manufacture a falsehood to do so.

The News makes a great mistake in attributing to the people such ignorance as to be misled by such nonsense.

Does the editor of the News believe that the Republicans and anti-Convention men of Ashe county would have voted and elected a gentleman who was known to be against them?

Don't the editor of the News know the fact that the Convention men of Ashe voted for the Democratic candidate, Q. F. Neal, in opposition to Mr. Wilcox?

Have not the News, the Sentinel and every other Democratic paper of the State kept continually standing at their mastheads during the campaign the name of Q. F. Neal as the Democratic candidate for Ashe county for the Convention?

Let any gentleman who takes either of these papers examine their files and see if this is not so. Is it not remarkable, then, that it was not found out by the Democrats until after the election that their candidate was a Republican and that our candidate was a Democrat?

But such equivocations can only damage the papers or party who put them forth. Every man in North Carolina who reads the News will feel when the truth is known that he has been shamefully imposed upon.

genuine good society as can be boasted of by the author of the foregoing article, or any who endorse him, and nothing is lost on these accounts. So far as we are concerned we can say "we thank thee, Jew, for that word!"

Every one of the foregoing are known to be anti-Convention delegates. This gives us a majority of three with the vacancy from Orange.

The West gate Governor Brogden a handsome reception during his late visit to that section. We copy the following from the Asheville Pioneer:

ARRIVAL OF GOV. BROGDEN.—His Excellency Governor Brogden arrived in our city on Wednesday about 3 o'clock, P. M. Quite a procession of our citizens, headed by the Brass Band, met the Governor five miles from town in charge of Messrs. Moore, Williams and Pearson, who had gone over to the Fort with carriages to receive him.

The triumph of the Republicans in the contest just closed does not give them the State in the next election.—Sentinel.

Well, now, please tell us why not. Has not one of the leading organs of your party told the thousands of Conservative-Democrats who voted the Republican ticket that they should stay in that party?

A Democratic Bid for Negro Votes. The Democrats of Mississippi have started well in the campaign for the redemption of their State, and contributed to the clarifying process now perceptible in our politics by wholly ignoring the color question in their platform, and inviting the co-operation of "all men" in the herculean task before them.

colored people in these States, so would it be in North Carolina, or even in Mississippi, could the Democrats succeed in obtaining control of them.

In 1872 they ignored the color line in their platform adopted at Greensboro. Many colored men accepted their declarations as sincere and voted with them; but no sooner did they find themselves in full possession of power than they drove the negro from them and instituted every means for oppressing him that an inhuman ingenuity could suggest.

What does such language mean? What is to be inferred from it? What provocation has there been for it? Has not the negro submitted the control of the State and every county in the State to white men and contented himself with simply voting for the men of his choice?

On the Right Track. Let me congratulate you, Mr. Editor, upon calling the attention of Republicans to the indiscriminate appointment of Democrats to place in the various institutions under the charge of Republicans, in Wake county.

The Condition of Crops in the South. The returns of the Department of Agriculture for August show an improvement of the cotton crop of 4 per cent. in North Carolina, 1 in Mississippi and 4 in Arkansas.

An Exploded Policy—Pattening Frogs for Snakes. MR. EDITOR:—We mean the policy so long pursued by Republican officials of nursing Democrats in lucrative positions, while honest, competent and hard working Republicans are thrown out to starve.
