> CHARLOTTE AS A COTTON MAR-KET.

The actual statistics show that this city is the leading cotton market in the State of North Carolina, and this prestige is gradually giving us a commercial importance which nothing else could do. With the completion of the Caroline Central railroad it will soon claim to rank with our sea coast cities. During the year ending the 30th September, the City of Charlotte actually bought and sold forty thousand bales of the staple, and judging by the receipts up to this time, we will exceed those figures the present year. The outlook is exceedingly promising just now .-Cnarlotte Observer.
