JOHN MERRYMAN & CO.'S

### Amoniated Dissolved Bone

For the first time, this first-class and highly celebrated Fertilizer is offered to the planters of this section, manufactured by the man who has for the past 9 years, furnished David Dickson, the great and successful Georgia Planter with all his Fertilizers, is, it there was no other, a sufficient reason why our people should give it a trial.

We are prepared to fill orders for 1000 Sacks John Merryman & Co.'s Amoniated Dissolved Bone.

### Pearce Cotton.

AWARDED A MEDAL AT THE LAST FAIR OF THE CAPE FEAR AGRICULTURAL SOCIETY.

I introduced the PEARCE COTTON into this State about three years ago. The cost of seed was so great that I obtained but a small quantity and have taken great pains to preserve and improve them. I have planted and made three crops of the cotton and find it to be SUPERIOR to any other I have ever seen. It is very prolific and is of the long staple species resembling, if not equal to, the celebrated Sea Island Cotton.

It is a very early cotton—much earlier than ordinary cotton.

It commands a price nearly double that of common cotton, and is conceded to be more prolific than any other in the United States.

It grows in clusters of from eight to twelve; squares; commences branching very near the ground, and will yield FOUR THOUSAND POUNDS of seed cotton to the acre on improved land.

This cotton is planted and cultivated in the same manner as is other cotton, and in offering the seed for sale I claim:

1st. That it will make 50 per cent more than any other cotton in the State.

2nd. That it will command in the market 8 or 10 cents more per pound than common cotton.

In order to place this superior cotton in the hands of every farmer, the price of the seed is reduced to 85 per peck, or \$10 per bushel.

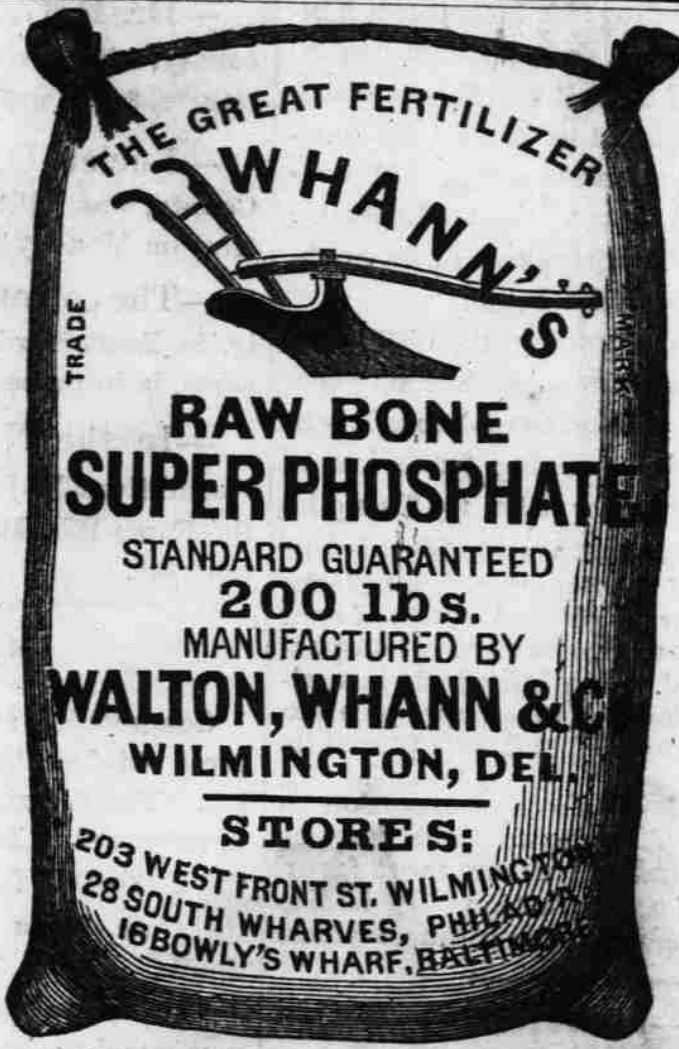

Seed can be sent by Express or Freight and will be securely packed before being shipped. Money can be sent by Registered Letter or Post Office Order on Wilson, N. C.

One bale of this cotton was shipped to Philadelphia last December and sold for 22 cents per pound which was eight cents in excess of good middling cotton at that time.

Circulars containing certificates &c. sent on application. All orders for seed will be promptly attended to by addressing the undersigned at Wilson, N. C.

J. J. PEARCE, or R. M. PEARCE.

Feb 27 1-m

This highly successful manure, which for many years has been used by the best Farmers in all sections of the country, and on every variety of crop, is again offered to the public as a FERTILIZER especially adapted to the wants of those who appreciate the necessity of making their land produce the HIGHEST POSSIBLE YIELD.

## WHANN'S RAW BONE SUPER PHOSPHATE

It is now universally recognized by the public for upwards of 15 years, and is now offered to the public as a RELIABLE CONCENTRATED FERTILIZER IN THE MARKET. It is manufactured from the best and purest raw material, every one of which is subjected to chemical analysis before being used. The purity of the Fertilizer is thus assured. In addition to this, every step of its manufacture is conducted under the strictest chemical supervision, so that Farmers are thus guarded at every point from any danger of using an inferior article.

### ON COTTON, CORN & TOBACCO

WHANN'S PHOSPHATE has produced the most gratifying results, in many instances far exceeding the most sanguine hopes of those who have used it. We offer this renowned Fertilizer for the coming season, assuring our friends that the same high standard which has always characterized it shall be rigidly maintained.

Agents for North Carolina for the sale of

Read the following opinions of some who have used WHANN'S RAW BONE SUPER PHOSPHATE:

OXFORD, N. C., December 15th, 1874.

Messrs. Williamson, Upchurch & Thomas, Raleigh, N. C.:  
DEAR SIRS:—At the Orphan Asylum in Oxford, a very decided success has attended every application of Whann's Raw Bone Super Phosphate. The land was poor and the season dry, but the crops surpassed our expectations. Such a fertilizer will work its own way, because those who have used it once will want it again.  
J. H. MILLS, Superintendent.

NORFOLK, VA., January 6th, 1875.

Messrs. WALTON, WHANN & Co., Wilmington, Delaware:  
DEAR SIRS:—In response to your inquiry as to the action and worth of Whann's Raw Bone Super Phosphate we beg to say that we have sold it to the best Planters of North Carolina for eight consecutive years. Many of the parties who bought of us eight years ago are still using it. It has always ranked as among the very best Commercial Fertilizers, and has been very popular wherever used.  
Yours truly,  
HYMANS & DANCY.

LOUISBURG, N. C., November 10th, 1874.

I have been using Whann's Raw Bone Super Phosphate, and other kinds of manufactured fertilizers for several years, and feel confident in saying that I prefer Whann's to any other. I cheerfully recommend it to be a first-class Fertilizer, and expect to continue its use as long as its present standard is kept up.  
SEBASTIAN MACON.

GREEN LEVEL, WAKE Co., N. C., November 25, 1874.

Messrs. Williamson, Upchurch & Thomas, Raleigh, N. C.:  
GENTLEMEN:—The ton of Whann's Raw Bone Super Phosphate purchased of you last Spring made the best crop of cotton I ever made, and I consider it decidedly the best fertilizer I ever used. I want it again next season.  
Yours truly,  
S. W. MITCHELL.

LOUISBURG, N. C., November 9, 1874.

Messrs. King, White & Shaw:  
GENTLEMEN:—In reply to your inquiry as to my opinion of Whann's Raw Bone Super Phosphate, I unhesitatingly say that by comparison with other Fertilizers during the last three years, I am satisfied that Whann's has turned out better crop for me than any other, and I expect to continue to use it.  
Yours truly,  
JOHN E. THOMAS.

## PANTASCOPIC.

ANOTHER STEP FORWARD

OPTICAL SCIENCE.

READ THE FOLLOWING TESTIMONIALS:

THOMASVILLE FEMALE COLLEGE, February 20th, 1875.

They magnify sufficiently to make the finest type easy reading by lamp-light, and the tint gives such softness to the light that I am tempted to use them more than probably is best for me. I shall certainly recommend them.  
H. W. REINHART.

RALEIGH, N. C., Jan. 6th, 1875.

Mr. Edw. Fasnach, I have given the Pantasopic Spectacles a faithful trial, and am much pleased with them. They do not fatigue my eyes, and with No. 16 glasses I can read the smallest type.

It gives me pleasure to state that I have used for a short time, the new Pantasopic Star Spectacles, sold by Mr. Edward Fasnach, of Raleigh. The tint of the glass is exceedingly grateful to weak eyes, and when known, I am persuaded, this glass will become a general favorite.  
Dec. 22d, 1874.  
T. H. PRITCHARD.

Ed. Fasnach, Esq.—Dear Sir:  
DEAR SIR:—The Pantasopic Spectacles purchased from you I find to be more beneficial to my eyes than any I have heretofore used, the light from them being clear, and without any strain or pain to the eye. I cheerfully recommend them to any being compelled to use spectacles.  
Very respectfully,  
S. L. RIDDLE, Clerk Reg. Deeds.

RALEIGH, Jan. 7, 1875.

HOUZE OF REPRESENTATIVES, Raleigh, Dec. 9th, 1874.  
E. Fasnach, Esq.—Dear Sir:  
I am using the Pantasopic Star Spectacle. The improvement is marked and beautiful. I am delighted with the clearness and softness of the light reflected from the lenses of this new and use of invention.  
Very truly yours,  
JAS. H. FOGTE

The PANTASCOPIC Star Spectacles are made of white, and blue, and purple-tinted lenses.  
Persons ordering from a distance can be supplied with the proper glasses by giving age and occupation.  
Address,  
EDWARD FASNACH, Jeweller, Raleigh, N. C.  
Sole Agent for the Pantasopic Star Spectacles

## NOTICE TO PLANTERS

A Fertilizer is now being offered to the Planters under the name of "Cat Island Guano," the sole recommendation of which is, that it is represented to be the same article as offered by the GUANAHANI GUANO COMPANY, of Petersburg.

In justice to ourselves and all concerned, we now give notice that the GUANAHANI GUANO COMPANY utterly repudiate the assumption of the parties offering the article called "Cat Island Guano," and we stand prepared to prove that this article has been procured from deposits which have been rejected or refused by the GUANAHANI GUANO COMPANY in consequence of being inferior to our standard. Planters will please note this fact.

All our importations are analyzed before being put on the market, and are guaranteed to come up to the standard. We will not permit an inferior article to be offered for sale under our "brand."
