

POINTS POLITICAL.

Chairman Jones was right, Mr. Bryan will not pack the U. S. Supreme Court; he will not be given the opportunity.

Mr. Bryan's chance to console himself for his defeat for the Presidency with a seat in the Senate grows less every day.

Are democratic voters for sale? Mr. Bryan and others among their leaders say they are, when they say that the election is to be bought.

Mr. Wooley, the prohibition candidate for President, is doing his best to help the democrats, but, fortunately, his best isn't much.

The defence of the cotton baling trust by Senator Jones, of Ark., one of its owners, shows how much there is in the Bryanite yowling about trusts.

President McKinley is back at Canton, where he will remain until he votes the straight republican ticket. He knows already that he will be reelected.

Mr. Bryan's failure to make connection with the train to which his private car was attached was merely a forerunner of his failure to connect with the Presidency.

It is evident from the experience of a New Hampshire patent medicine man who spent \$50,000 trying to get a Congressional nomination, and failed, that money doesn't buy nominations in that State.

Adlai is modest; he only claims 189 electoral votes as sure for Bryan. He puts 120 in the doubtful column, and gives McKinley 138, Bryan will fall far short of 189 when the votes are counted.

Boss Croker emphasized his opposition to imperialism by giving Mr. Bryan a Louis XIV banquet that cost thousands of dollars-dollars wrung from the tax-payers of New York City by the Tammany boss.

South Dakota is going to give its electoral votes to McKinley and Roosevelt, and to repudiate Senator Pettigrew, whose traitorous utterances on the floor of the Senate brought blushes to the face of so many of its citizens. Rah, for South Dakota!

A big insurance company has completed a poll of the country, through its local agents, which gives McKinley and Roosevelt 270 electoral votes, Bryan and Stevenson 160 and puts 17 in the doubtful column. Senator Scott, of W. Va., who is helping to manage republican headquarters in New York, now claims 284 electoral votes.

According to Mr. Bryan, the man who votes money out of his own pocket and himself out of a good job, is a wise man. In other words, the party that gives the country soup houses, to feed the unemployed, is the party that ought to rule. How does that square with common sense, not to mention patriotism?

Senator Hanna says he has no desire to change his denunciation of Mr. Bryan, unless some one can suggest stronger words, than he used; than he spoke at Lincoln because it was Mr. Bryan's home, and that his words were intended as a reply to Mr. Bryan's five years continuous abuse of him.

The Anglo-German agreement as to China follows so closely the policy announced by this government last July no dismemberment, no land-grabbing, and open trade to all the world on the same footing—that it is evident Secretary Hay's note was used for a model. This must be highly gratifying to President McKinley, as it insures our peaceable retention of all our trade rights in China.

An independent and impartial estimate of the Congressional election gives the republican gain as 11 members and the democratic gain as 13, a net republican loss of two, which would give the republicans control of the next House by a majority only two less than what they have in the present House. Estimates made by the republican committee are for a larger majority.

Virginia democrats are holding up their heads in holy honor because the republicans are taking steps to see that the negro vote is cast and counted in the close Congressional districts. The dark-skinned man in the Philippines is good enough to be encouraged to shoot Americans, but he isn't good enough to vote at home. Hypocrisy and democracy are synonymous.

No stronger argument has been, will be, or can be offered for the reelection of President McKinley than this, opening sentence from an editorial in the independent Washington Post: "The financial situation of this country is superior to that of any other power on earth." This superiority was made by republican legislation, signed by William McKinley.

Just What You Wanted.

Four years ago—

You demanded work for your idle sons.

You got it. You never had so many people employed as now.

You wanted idle capital to be employed.

You got it.

You wanted to see the army of tramps mustered out.

They are gone.

You wanted your soup houses closed.

They are closed.

You wanted to get rid of the receivers of your railways and banks.

They are gone.

You wanted to see the smoke coming from the stacks of your smelters, mills and factories.

It came. Many have since been kicking about the smoke nuisance.

You wanted the savings bank deposits to increase.

Never so large in your history as at present.

You wanted to see interest rates decrease that your people could borrow more cheaply wherewith to develop your resources.

You got it. Interest has never been so low as now.

You demanded more money. The circulation must be increased per capita.

You got it. It has increased with marvelous rapidity for four years.

You demanded that one dollar be just as good as another.

You got it. That is the kind we have now, and you can get all the silver or paper you want at any bank.

You demanded the markets of the world for your surplus products and goods.

You got it. Got it so quick it almost dazzled you.

You wanted us to stop borrowing money in Europe.

We stopped it and Europe is now borrowing money from us.

You wanted the government to collect every dollar of the Pacific railroad debt, instead of a PORTION, as Mr. Cleveland proposed.

Mr. McKinley made them pay every cent, principal and interest.

You wanted Cuba liberated.

It's done.

You wanted the rights of our people maintained at home and abroad.

It has been done.

What you really wanted the worst was what Mr. McKinley promised.

"AN HONEST DOLLAR AND A CHANCE TO EARN IT."

You got both. Not from the Bryanites, but it was none the less acceptable to the man behind the dinner bucket.

If you want more things of this sort you can get them from the same source.

Suppose. Human Educator.

What a marvelous change in the treatment of horses would quickly occur if men were treated exactly like

they treat their horses.

In that case whips would seldom be used.

Jerking the bit would cease also.

Yelling, cursing, pounding and kicking.

Check reins would be very slack.

Blinders would be discarded.

Clipping and docking would go "out of style."

Big loads would rarely be seen.

Axle-grease would have a boom.

Better roads would be loudly demanded.

Wide tires would be universal.

Rack-tracks would be "for sale."

Stables would be light, clean and airy.

Horses would be watered frequently, and regularly, and have a variety and sufficiency of food and a deep, soft bed at night. All of which proves how mean, cruel and foolish some men are.

Poor woman, she broke down completely. It began this way: Her feet seemed heavy, her liver sluggish, her digestion poor, her cheerfulness gone, her brain slow to grasp facts, her eye dim. Then came neglect of household duties through lack of energy, and finally total collapse. She had never heard of "Longavita," a priceless preparation, that brings roses to the cheeks, rounds out hollow faces, makes the step elastic, the disposition cheerful, and renews the vigors of girlhood. Read advertisement another column. "Longavita" is the true fountain of perpetual youth. It is a vegetable medicine that came from the brains of Germany's leading scientific physicians, absolutely harmless, and a benefit to old and young, both men and women.

LONGAVITA THE TABLET OF LIFE (Pilula At Longan Vitam.) The Scientific Discovery of the Age! The Magic Key to the Mystery of Life!

From times immemorial it has been man's predominating ambition to prolong life. But among the many brilliant minds, who have devoted their lives to the fascinating subject, it was left for the immortal Darwin to give to the world, in his great theory of Life, the fundamental principle upon which to build all further research in this direction. Following closely in his footsteps came Prof. Dr. Ludwig Buechner, a German scientist of international renown, with his remarkable work entitled "Das Buch des Langen Lebens" (the book on Longevity.) But alas, like Darwin he too died, ere he could reap the fruit of his wonderful doctrine. Others however, equally great took up the interrupted thread with the result that two famous German scientists, after years of experiments and research, have at last discovered the secret of Longevity in the shape of a remarkable Vegetable Compound, which, if properly used, will positively prolong Life. This new remedy appropriately named "Longavita" (meaning Long Life) has been subjected to the most rigid tests at all the leading clinics and hospitals throughout Europe with marvelous results. Appreciating the importance of this discovery, we have acquired, at enormous cost, the exclusive proprietary right to this truly wonderful preparation, which has proved a blessing to mankind. "Longavita" is the true Tablet of Life, a rejuvenator par excellence, embodying the veritable secret of longevity in a practical, feasible form. It is the fountain of perpetual youth, which it prolongs far beyond its present limits, while retaining health in a perfectly normal state. "Longavita" brightens the eye, stimulates mental activity, gives elasticity to the step, makes the face full, absorbs wrinkles, cleanses the system, purifies the skin, and is the only true Ponce de Leon remedy for old and young of both sexes. Endorsed by Europe's leading physicians.
