A man named Nickel died recently in Nebraska leaving \$105,000 to be divided between five heirs. When a Nickel worth \$105,000 is to be divided between five little nickels it is easy to scent trouble.

The free wool advocate after seeing the effects of their policy will evidently want to begin at the tail if they should have to shear a sheep. They wont feel like looking an honest sheep in the face.

Republicanism fosters truth. I keeps men so busy that they haven't time to study up lies to tell their wives. But they may soon find time to lie to beat the band, with the Democrats at work with their saws and jack-plains reforming the tariff.

The Socialists have recalled Bill Haywood from the executive committee of their party, but most of their papers are both ashamed and afraid to say anything about it. It looks like Secretary of the Navy, Daniels, was going to run against a stiff snag in becoming chief pic dispenser for North Carolina. The chunks of Democratic "harmony" Joe has stirred up are as big as the party itself. A writer in The Daily Socialist says: "We Socialists believe in the scientific solution of all questions." Yes, it's perfectly wonderful to see years under "Protective tariff." The sea island cotton growers in Georgia assert that if they are not and see how it squares up with his given Protection they must go out of business. Well, it seems mighty bad to be run out of business, but then these cotton growers mostly voted for Wilson and free trade and if a man gets what he voted for he should not complain. Wilsonism may bear devilish heavy on the cotton growers but they should console themselves with the fact that it is Democracy.

The New York American says W. J. Bryan is unfitted by nature for any official position which demands judgement. Now if the Yellow Jacket had ever dared to call Mr. Bryan a fool some of these hot-headed red-shirt Democrats would have been in favor of hanging us as "high as Haman," but a big Democratic newspaper can belch 'er right out and nothing is said.

About the sorriest piece of human flesh that ever slimed its carroding carcass across the pathway of human progress is the fellow who possesses no sense of gratitude for the bridge that bore him over— the fellow who has no respect for the country that furnished him a home, or for the party policy which surrounded him with peace and plenty. Such a fellow is a public nusiance. He deserves to be shunned by decent people as we'd shun a skunk or a leper. Yet, we have a number of such jackals run-John Sharpe Williams declares ning loose in this country. The above remarks were inspired by a little squib-written us by a rampant South Carolina Democrat who probably imbibed his spirit of patriotism from Ben Tillman's red-eye Democratic negroes say some forty dispensary and his sense of justice demagogy declares that the Republican party thru Protective tariff has held the country down and kept it robbed and impoverished for the past 50 years except during Cleveland's two terms. These "Cleveland years," this fellow would have the world believe, were the only years during the past fifty when political righteousness prevailed and eternal justice triumphed.

> Now isn't this Palmetto poppinjay double-barreled lulu? To pick out the dark days of the Cleveland administration as the only "bright spot" on the American government in 50 years is enough to make a patriotic Amerilina and pound the eternal liver-mush out of a man who would make such a statement.

Well, we don't believe there is any other section in the inhabited world where such a spineless brainless, gratitudeless biped could be produced. It seems that these S C. fellows never can get over the antitariff belly-ache. In Jackson's time, because of a Protective tariff law, South Carolina riz up on its hind heels and passed an ordinance of nullification looking toward secession. but Old Hickory brought her to her senses.

"Robbery" indeed. We ask this S. C. Democrat to behold the twelve hundred cotton mills that are in operation in the Southern states. What were they all doing in the "Cleveland era"? Behold the vast business that has been going on in the sugar industry, tobacco, citrus fruits, cattle, wooi, lumber, iron, steel etc. what were they all doing in the "Cleveland era?"

The New York World has always been Democratic and is Democratic still. Let this S. C. Democrat read the following editorial from the World warped and ramshackled views:

The Republicans have established the gold standard, carried on the war with Spain, kept faith with Cuba, liberalized the government of the Philippines and Porto Rico, constructed the Panama canal, given us postal savings banks, rural free delivery, the parcel post, new railroad rate laws and enlightened labor laws, extended to some extent the principle of international arbitration, and, during the administration now closing enforced vigorously for the first time the civil and crimnal law against trusts.

How does the above World gospel strike you, Mr. S. C. Democrat?
