Editor of the Blue Ridge Blade: Having promised to write to you, and being desirous all who have contributed to utilize me to assist in alleviating the distress of the suffering inhabitants of the Mississippi Valley should hear from me, I prepare this communication, to be forwarded as soon as it can be done.

Since leaving Morganton, I have been in a continual whirl of excitement. After having procured transportation to Memphis, I received a pressing invitation to Vicksburg, and determined to go to the latter city, but was obliged to travel by way of Memohis, whither I went, and was immediately assigned to duty, but on consultation with the Relief Committee, it was considered best to send me to Vicksburg, to which point I got transportation by rail, but I found it impossible to get there.

When within 15 miles of Grenala, at a place called Garnet, I was detained over night, and locked up in a car. Next morning food was sent to me, and I was on the writers of Scripture, by the sugmile of the depopulated town, where I remained six hours, when I boardel at freight train, with my baggage, the conductor jumping out, and mounting to the top, leaving me in solitary occupation of his sanctum, I was put off again, to unimpressive.
