### A GLANCE AT THE RESULT.

One thing the election proved if nothing else, that the People's Party advocates in Ohio talked for the People's Party, but when voting time came voted the Republican RUSSELL AND BOIES JOIN THE ticket. This was just as we expected. There are but two parties in this country of any significance, the Democratic and Republican parties. Our Southern Alliancemen should observe this precedent, this trick of the Western Alliancemen. They have attempted to create a breach in the democratic party of the South by advocating a third party, at the same time themselves voting the republican ticket when the test

The Waterloo which has just overtaken the republicans of New York and banished from the political field Boss Platt, the most contemptible ingrate that has infested the people to '92.

The election in Oldo meant that the | duced majorities everywhere else. People's Party was practically of no force, and in New York where heretofore Hill has received only 16,000 majority at his best and where Flower now rolls up 40,000 it was freely spoken that Cleveland's enthusiastic canvass did the work. Then what does the last election indieate? It indicates that the American people are for Cleveland and will stand ready to pass the word down the line in '92. With New York, New England and the West favoring this Champion of the people what need the South to fear!

Democrats should be encouraged and should remind themselves that The Flower That Bloomed in low tariff is the issue and will prevail.

God will be in their midst.

Newton if \$50 per capita was distributed to every person in the country, it would be but a bttle time till existing laws would drain it from the many into the hands of the few, And Capt. Alexander was right.
