continuance of the success which have  
been so beautifully bestowed in the past.

## THE EDITOR'S DESK.

Hurrah for McKinley and his bill!  
Let everybody hurrah! In 1857, be-  
fore we had protection, February  
only had twenty-eight days, and now  
in 1892, after only eighteen months of  
the practical workings of the Mc-  
Kinley bill February will have 29  
days. Just do see what the Mc-  
Kinley bill does. See!

## THE EDITOR'S DESK.

Many men have accumulated  
wealth by raising truck. In the  
Eastern North Carolina and Vir-  
ginia counties fortunes have been  
made in a few years by close atten-  
tion to the raising of vegetables and  
poultry. When we look at the hun-  
dreds of crates of fine cabbage and  
other vegetable products that are  
annually shipped from Mount Airy  
and vicinity we can but believe that  
many of our farmers who now place  
all their attention to unprofitable  
farming could accumulate much if  
they would turn their attention to  
the raising and shipping of truck.

## THE EDITOR'S DESK.

Westfield Township, Surry Coun-  
ty, is a splendid portion of our pros-  
perous section. Its people are thrif-  
ty, wide-awake and liberal mind-  
ed. We are of the opinion that  
there are few better farming sections  
anywhere and few better farmers  
than our Westfield friends. They  
are mostly republicans, and although  
the News is a democratic paper they  
are not so close-tisted and partisan  
as not to subscribe to it. On the  
other hand they are liberal-minded  
and just enough to accord to our  
opinion and to take the News to  
keep up with their county and aid  
their county paper. We appreciate  
their kindness and their broad and  
liberal spirit.

## THE EDITOR'S DESK.

The man who does not seek of  
fice is the one who deserves it, and  
will honor it. Grover Cleveland is  
soon to move to New Jersey to live.  
His wife and little daughter have  
to spend time subjecting themselves  
to the demands made upon them in  
New York. For his wife's sake he  
will move over to the Jersey shore.  
At this time when everybody is  
looking forward to New York as  
the state that must necessarily pre-  
sent the democratic candidate for  
president in '92, it would be consid-  
ered by politicians a bad step for  
Grover. But the truth is Grover is  
a statesman and not a politician, and  
the people remain for him.

## THE EDITOR'S DESK.

Mr. Julian S. Carr, of Durham,  
beloved by every true veteran of  
the lost cause and every young man  
who dares honor him who honors  
the memory of their fathers, has  
been presented by the State Contem-  
perate Veterans Association with an  
umbrella as a token of love and es-  
teem from the old soldiers. Noble,  
generous, aggressive and patriotic  
Julian Carr, he holds a place to day  
in the hearts of those who love the  
ashes of our brave Southern Caval-  
iers, which nothing can replace.  
The surviving soldiers love him, be-  
cause he has contributed to their  
pleasure. The young men love him  
as an exponent of the new thought  
and new spirit of the new South.

## THE EDITOR'S DESK.

Trinity College holds the foot-  
ball pennant of the South. Her  
team defeated the University of  
Virginia by a score of 20 to 0 on  
last Saturday in Richmond before  
an immense crowd. The News, in  
its enthusiasm, gives vent to the yell  
of its alma mater:

"Rah! Rah! Rah!  
Hip-hoop-pee!  
Fizz! Boom! Tiger!  
Hipera! Hipera!  
Trinity!"

Mount Airy has a town clock over  
the store of R. T. Joyce & Co., and  
was put up by that live firm. Editor  
Pell is happy; but if he stays out  
rather late while calling now he'll  
have to give some other excuse be-  
sides forgetting his watch, for he  
says the clock's striking can be  
heard far and near.—Greensboro

## IT WANTS EVERY MAN IN THIS GREAT AND GROWING SECTION TO READ WHAT THE WORLD IS DOING, WHAT IS TURNING UP AND WHAT IS TOPPLING OVER.

It wants every reader of this pa-  
per to get new subscribers, and in  
order to increase its circulation we  
have decided to offer the handsomest  
premiums that have ever been given  
away to these people. It doesn't

chance at one of these costly pre-  
miums. Any reader of this paper  
can take subscriptions at \$1.50 a  
year, keep 35 cents on every subscri-  
ber and send us the balance.

## WE LOSE MONEY.

It can be seen at a glance that we  
will lose money by these grand  
premium offers, but we expect to be  
the gainers in the long-run. We  
run the risk of the party taking the  
paper another year.

## GO TO WORK.

give one year's tuition in Oak Ridge  
Institute, Guilford county, N. C.,  
an institution second to none in the  
State for its thorough training.  
This is open to ladies and gentle-  
men alike and is worth \$50, but we  
give it free besides your commissions  
on your work. Every worthy young  
lady or gentleman, or the father or  
mother of one, should work for this  
prize as it is the only chance they  
may ever have of obtaining an edu-  
cation. Oak Ridge Institute has a  
great reputation, and this is by far  
the best chance you will ever get of  
entering a first class institution.  
Send for catalogues to J. A. & M.  
H. Holt, Principles, Oak Ridge, N.  
C., and work that you may obtain  
the prize.

## MR. EDISON'S LATEST.

He Intends to Revolutionize  
Travel on Railways.

Mr. Thomas A. Edison, though  
still a young man, has already made  
the world and all coming time his  
debtors by the blessings he has con-  
ferred upon mankind. Should his  
wonderful genius stop its activity  
here and now, his title to be the  
greatest benefactor of his kind  
would be secure.

But the Wizard of Menlo Park is  
apparently just entering upon that  
career of achievement which is to  
dazzle and benefit the world. His  
latest invention bids fair to revolu-  
tionize travel as much as it was  
revolutionized when the locomotive  
superseded the stage coach.

He promises us an electric motor  
which will do away with the noise  
and dirt of the steam engine and  
give us a railway speed of a hundred  
miles an hour—a speed which will  
make the mile-a-minute of to-day  
seem slow and unendurable.

Not only that, but local travel in  
our city is to be equally improved—  
no horse cars, no trolley system, no  
storage battery device, no elevated  
street cars.

Let us hope that Mr. Edison's  
latest invention will prove as suc-  
cessful as he promises.—New York  
Herald.

## THE MOST EXPENSIVE SMOKE ON RECORD.

Baron Bissing, a German noble-  
man, goes into history as the man  
who smoked a cigar that cost him  
10,000,000 marks. The Baron is  
married by the only heir of the late  
Duke of Saxe-Berenguer. The title  
is now extinct because the Baron  
unwittingly lighted a cigar with the  
paper proving his claim against the  
Crown for the Duke's estates, valued  
at 10,000,000 marks—in American  
money about \$2,500,000.—Ex-  
change.

Thousands of lives are saved an-  
nually by the use of Ayer's Cherry  
Pectoral. In the treatment of croup  
and whooping cough, the Pectoral  
has a most marvelous effect. It  
allays inflammation, frees the ob-  
structed air passages, and controls the  
desire to cough.

## A LITTLE GIRL'S EXPERIENCE IN A LIGHTHOUSE.

Mr. and Mrs. Loren Prescott are keepers  
of the Gov. Lighthouse at Sand Beach,  
Mich., and are blessed with a daughter,  
four years old. Last April she was taken  
down with measles, followed with a dread-  
ful cough and turning into a fever. Doc-  
tors at home and at Detroit treated her,  
but in vain, she grew worse rapidly, until she  
was a mere "handful of bones."—Then she  
tried Dr. King's New Discovery and after  
the use of two and a half bottles, was com-  
pletely cured. They say Dr. King's New  
Discovery is worth its weight in gold, yet  
you may get a trial bottle free at Taylor  
and Bannan's Drugstore.

Virginia at World's Fair  
A Statement of How She Will be

The Pulaski News says that the  
meeting of the World's Fair Asso-  
ciation at Norfolk was rich in  
promise for an adequate represen-  
tation of Virginia at the World's  
Columbian Exposition.

The association determined to ask  
the legislature for \$100,000; second  
to urge every board of supervisors  
to vote county subscriptions; third,  
to make each county judge chair-  
man of a County Columbian Fair  
Committee, with the county clerk  
to have charge of county exhibit to  
be gathered under county appropria-  
tion and co-operation and to be de-  
livered to authorized World's Fair  
representatives; fourth, to seek the  
co-operation of all railroad and  
steamboat companies, in the way of  
exhibits and co-operation in the  
transmission of exhibits; fifth, a  
ladies auxiliary of three from each  
congressional district is to be ap-  
pointed by the chairman of the as-  
sociation; Lieut-Governor Tyler, to  
co-operate with the two lady com-  
missioners of Virginia and their  
alternates—thirty-four in all. The  
State is to have a representative in  
each of her seven grand divisions  
to superintend the collection and  
forwarding of exhibits.

Large and enthusiastic meetings  
were held.

## THOSE NOMS DES PLUMES.

The Mount Airy News has a Dobson  
correspondent under the nom de  
plume of "Meddlesome Bill," while  
the Republican has one at East  
Bend whose contributions over the  
signature of "Meddlesome Mattie"  
have gained some degree of popu-  
larity where this paper circulates.  
The idea that came to us upon see-  
ing the former was that Meddle-  
some Bill had captured the first por-  
tion of our correspondent's signa-  
ture, which if true, is far better,  
however, than capturing the posses-  
sion thereof, for then, in all probab-  
ility, both the News and The Repub-  
lican might have lost their con-  
tributors—the papers lose—the in-  
dividuals gain.—Winston Repub-  
lican.

## A GREENSBORO SENSATION.

George Wyde Arrested Charged  
With Bigamy.

Greensboro is stirred up over the  
arrest of a young man who seemed  
to be a leader in the church, on a  
charge of bigamy.

His name is Geo. A. Wyde, and  
he has been in the employment of  
Mr. Thos. Woodruffe, a contractor  
and builder. Before Mr. Wood-  
ruffe moved to Greensboro Wyde  
worked for him in Albemarle coun-  
ty, Va., but left him and went to  
England where he was married and  
lived several years. While away in  
England his wife became the moth-  
er of six children.

He left them there and came back  
to America to work for Mr. Wood-  
ruffe. In Greensboro he was con-  
sidered a high-toned Christian young  
man and often led in prayer services  
at the churches and Y. M. C. A.

Not long since he married a  
Miss Monroe, daughter of Mr. W.  
M. Monroe, of Greensboro. They  
had gone on a visit to Kinston when  
Mr. Monroe learned that his daugh-  
ter's husband had a wife and six  
children in England. He at once  
had Wyde arrested in Kinston and  
put on the train for Greensboro. At  
Hillsboro Wyde got out of the train  
window and skipped with his hand-  
cuffs on. However he went to a  
house in the country and asked for  
a hammer with which to liberate  
himself from the shackles, but the  
sharp farmer made him come in and  
sit down to breakfast. The farmer  
sent for an officer and had him ar-  
rested. Wyde was carried on to  
Greensboro and at a preliminary  
hearing was bound over to the next  
term of Court.

## FOREIGNERS MASSACRED.

PARIS, Dec. 2. A dispatch has  
been received here from Peking  
which confirms the statement that  
well armed bands have devastated a  
whole district in the northern part  
of China, and that they have pil-  
laged and burned the Belgian mis-  
sion station. In addition to the  
destruction of the mission stations  
at Tayou and Sanchi, where over a  
hundred converted natives were  
massacred by the bloodthirsty bands,  
the station at Gehol was sacked and  
burned.

The priest in charge of the mis-  
sion, a Belgian by birth, was killed  
by the mob and several other Chris-  
tians were also massacred.

The natives had heretofore been  
quiet, and there was no sign in the  
district that a revolt was meditated.  
The local authorities therefore had  
taken no steps to suppress any out-  
break, and when the natives rose  
they met with no material opposi-  
tion, for the officials were practi-  
cally helpless. It may here be  
stated that the local Governor in  
his report of the occurrence to the  
Peking government does not place  
the blame upon the natives of the  
province, but attaches the responsi-  
bility for the crimes to bands of  
Mongolian robbers, who, he says,  
made a raid through the district.

Whatever the truth may be the  
general government has taken steps  
to prevent any further outrage on  
foreigners or native Christians, and  
the troops available were, immedi-  
ately upon the receipt of informa-  
tion regarding the trouble, despatched  
to the scene of the disturbance.

## ADVANTAGES OF GOOD ROADS.

Land speculators, realizing the  
importance of good road facilities,  
seldom place a tract upon the mar-  
ket until they have improved the  
approaches and driveways. This is  
one of the reasons why the boom in  
California was so successful. Espe-  
cial attention was paid to the  
streets in all towns laid out. They  
were made attractive, and in nearly  
every instance sidewalks of cement  
were put in place before the first  
purchaser was invited to inspect the  
premises.

There is another reason, however,  
why the roads should be improved.  
Mr. Isaac B. Potter, in an article to  
an engineering magazine, holds  
that one-half the 16,000,000 horses  
and mules on the farms of the United  
States could do the hauling of the  
farm produce if even the pres-  
ent country roads were placed in  
good repair. With a reduction of  
only an eighth of the number of  
draught animals, the saving each  
day would amount to about 14,000  
tons of hay and 75,000 bushels of  
grain, which, regarded as to money  
value, would amount to \$300,000 a  
day, or \$114,000,000 a year. If the  
value of the savings in animals is  
added, a total of \$254,000,000 re-  
sults.

Considered from this standpoint,  
it may readily be shown that in the  
course of a few years the roads can  
be paid for in the saving they would  
make. In localities where roads  
have been macadamized the value  
of property has increased about 100  
per cent. Add this increase to the  
saving effected and there results a  
handsome net profit. How localities  
can continue to exist with few  
and badly kept roads, when the  
advantages of the reverse are so  
plainly evident, is more than can be  
intelligently answered.—Exchange.

the present year, nearly all to Liver-  
pool, England. W. W. Brauer &  
Co., of Richmond, bought nearly  
all these cattle, and exported them  
at a price averaging over \$70 per  
head. At least one thousand other  
smaller cattle have been shipped to  
eastern and northern markets this  
year, at good prices, which of course,  
depended on quality. Several more  
thousands have also been sold as  
stockers, etc. Pulaski, Wytie,  
Smyth, Washington, Russell and  
Tazewell are, without doubt, the  
finest grazing counties in Virginia,  
Pulaski taking the lead, a fact of  
which its residents are very proud.  
Butchers say that Pulaski cattle  
handle as well, if not better, than any  
cattle they have ever sold. Pulaski  
county has a reputation in all the  
eastern and northern markets, and  
one butcher at Norfolk keeps a  
standing advertisement, we are in-  
formed, of "Pulaski beef for sale."
