Bold Robbery.

Yesterday morning, at early day-break, Jas. Dudley, a colored man living in the upper part of our city, was aroused by a voice outside requesting permission "to leave his sack there for a short time; that he had carried it some distance and was tired toting it." Dudley recognized the party making the request to be a negro named James Proctor, and suspecting something wrong, told him he could not leave the sack, when Proctor departed. Shortly after, Dudley went out and found a sack of flour under the eaves of his house, and upon further search discovered a sack of coffee and lot of bacon sunk in the shallow water at his landing. He had Proctor arrested and, with the goods, taken to the police station. The goods were identified as Mr. Elijah Ellis', having been stolen from his store just before day by Proctor, who entered by means of a crow-bar through the floor, after which he had unbarred the back door and conveyed the articles to a boat at Mr. Brinson's wharf.

Mayor's Court.

Who stole Solon Shingle's breeches was the question before his Hon. Mayor Campbell, Saturday afternoon. Joseph Shaw and Oliver Murphy, ebony and cream hued youths, testified against each other. Oliver had the first say then Jo had a "put;" Jo said: "I's gwine tu tell de truf, I would'nt tu told on Oliver ef he had'nt stole de breeches's an de pistul, an de pistul did'nt have no tube in one barrel, an Oliver give me dis here lock, an he was gwine tu take a wig ef it had'nt tu bin fur me, den he try tu git me intu de scrape." His Honor being convinced that Oliver, scorning the ways that were low and dark, had crawled through a window of the Theatre building, and had stolen from the "kit" of F. J. Wildman, the above named articles, most of which were found in the possession of the youths, locked them up for a farther hearing. The breeches have been returned to Mr. Wildman, but they had been cut down to fit Oliver, and a large piece is gone out of the back of them.

If Marshal Turner and his police had been in the town where Solon Shingle lost his barrel of apple sass, it would have been found.

Spring and Summer Stock.

I have just received per steamer, a large assortment of

Dry Goods

25 per cent cheaper than heretofore. My ambition is to do a "ROUSING BUSINESS," and I shall take all honorable means towards my customers, and thereby increase my trade. The larger my volume of business, the greater the benefit to my patrons, as it enables me to buy cheaper, to sell cheaper, and still make a reasonable profit. Success in business depends in a great measure in buying, and because of that, I believe I have the "INSIDE TRACK," as my purchases are so large that I get the very greatest DISCOUNTS, and therefore can afford to sell lower than other merchants who buy in a smaller way and have to pay full wholesale prices. With my assortment, quality of goods, and LOW PRICES, I can please you. If you wish to save money, call and see me before purchasing elsewhere; it will be to your advantage to examine my extensive stock.

Be careful to look for name and store.
