ETHELBERT HUBBS, P. M.

We learn a butter plate factory will soon be in operation in our city.

A large quantity of mullets are being caught in Neuse river, below Newbern.

Mosquitoes are beginning to go into winter quarters. Their scarcity was pleasantly noticeable last night.

Friend Tom: Yes I think myself he will eventually talk himself to death, but I can't help it; shall still sell pants at 49¢. Moore.

After the sweltering heat of the past few days and nights, the cool pleasant weather of yesterday afternoon and last night was really a treat to our citizens.

Bath Sponges and Bath Tubs, Ice Cream Freezers, Water Coolers, Fly Traps, Refrigerators and other summer goods for sale for the next thirty days very low at B. L. Churchill's.

The excursion train which passed through our city on Tuesday for Beaufort, will return to Raleigh to-day, leaving Morehead at 8 o'clock and passing through Newbern about 10 o'clock A. M.

The article published in this paper in reference to the fine painting of our gifted townsman E. T. Berry, should have been credited to the Beaufort *Allan*. We, however, endorse all that friend Pool said.

The excursion train which passes through our city this morning will take away several handsome, entertaining ladies, who have been spending a few days very pleasantly in our midst, and who leave with regrets. Newbern is a delightful place, and visitors can carry none but good reports to their homes.

Our young townsman, Prof. Wm. Hanff, is completing a beautiful, fine-toned organ, of his own manufacture. In fact, we have never seen an imported organ gotten up in better style. The young man has displayed great ingenuity as well as a thorough knowledge of music, in the construction of his organ.

Rev. Father White, who for a long time was pastor of St. Paul's Catholic Church, of this city, is raising funds, by subscription, to erect a handsome stone church in Raleigh. The reverend gentleman has visited two or three States and met with encouragement. We wish him success and feel assured that he will eventually gain it. He greatly improved the church edifice in this city while here.

## Our Fleet—Which is the Fastest Craft in it?

England, in this day, stands first among the nations of the world in all that makes a nation great. When Beaconsfield speaks in a Congress of nations he is heard—what makes England thus great? We will tell you, it is her encouragement of every mental and physical effort of her people. The Queen, her ministers of State and thousands and tens of thousands of her subjects, male and female, will turn aside for a day to witness a rowing match of her College boys. Is not this a fact known to us all? That the Greeks and Romans were greatest when their games were most encouraged is an indisputable fact. Sport of some kind all nations have had, and probably will have to the end of time. Therefore, as boat racing is the most innocent amusement we are an advocate for it in the proper bounds. There is scarcely any stretch of water within the borders of our State as we have at Newbern for boat sailing and rowing. The Neuse, a mile and a half at the city, widens to 3 miles forty miles below it, at its mouth, without a shoal to impede or endanger the sailing or rowing of a boat, and notwithstanding this fact, until within a year or two not in the memory of the "oldest inhabitant" were there any boats constructed entirely for pleasure and put upon the Neuse for sailing and rowing, and now we begin to count them by scores. But which is the fastest sailing boat? Undoubtedly a majority would say the Emma Katie. She has shown herself to be the champion for two years in succession, and carries still the victors' flag. Yes, and we add with more than becoming modesty: The fact is Commodore Slover does not throw it from his pretty boat sufficiently often to stimulate her rivals for renewed efforts in future contests. But which is the fastest boat? We deny that the Emma Katie is, and will give our reason for the assertion in our next. D.

## A Virginia Excursion to Our Seashore.

There will be an excursion from Richmond to Beaufort on Monday next, the 12th inst., to go by rail via Weldon and Goldsboro. The train will leave Richmond at 8.40 A. M., and will arrive at Beaufort about 9 P. M.

This is comparatively a new departure in the matter of excursions, at least to the sea side of North Carolina, and we hope it is only the precursor of many such.

Beaufort has had but few visitors from Virginia, or indeed, from any State but our own, and we hope her citizens will make the visit in question so agreeable as to induce the participants not only to repeat it, but to regard Beaufort as the most desirable of the seaside resorts for a summer home. It might not be amiss if citizens of Newbern, Goldsboro and elsewhere, would join in the excursion. They could thus not only contribute to the pleasure of their visitors, but retain in some measure the hospitality now being enjoyed by our fellow-citizens of Western North Carolina in Richmond.—*Raleigh Observer*.

Friend Alex:—In answer, would say, that I shall still sell shirts at 29¢, until stopped by an injunction. Moore.

## The Legislature.

According to the reports received the Legislature stand thus far as follows:

Democrats elected to Senate.....	28
" " " House.....	69
Total.....	97
Republicans elected to Senate.....	13
" " " House.....	27
Total.....	40
Independents elected to Senate.....	5
" " " House.....	8
Total.....	13
Total opposition.....	53

We are glad to be able to state that Mr. Shackelford is elected. He received 506 votes in Jones, and Scott, Rad., 711. The above figuring may be altered in some particulars. The Democrats will have more than 30 majority over all opposition, and have also both Houses.—*Wm. Star*.

## The Grand Lodge.

The two committees appointed by Athens and Metropolitan Lodges to procure homes for delegates to the Grand Lodge, which convenes in this city on Tuesday next, will have a final meeting to-night and reports will be made as to the number of homes that have been procured. Of course the committees will put in their heaviest licks to-day, and as it is necessary and essential to the credit of Newbern that about 75 homes should be procured it is hoped that our citizens will not turn a deaf ear to the earnest entreaties of the hard-working committees. It is true this is not a very favorable time for visitors expecting homes to come here, as the families of citizens are away spending the summer, yet there are a sufficient number here to entertain 75 persons.

## Fine Pears.

A bunch of pound pears, grown by our townsman and excellent farmer, Joe L. Rhem, was laid on our table yesterday. Like every other kind of produce raised under the experienced hand of Mr. Rhem, these pears are exceedingly fine. On two small twigs, four or five inches in length, we counted ten pears.

## This is only for Gentlemen to Read

This city, by weight or in cans, no risk. Sold by all leading Grocers in town. Buy Jones and you will take for Cream Tartar, which are found in other pure ingredients of poisonous substances the United States to be free from any impurities and pronounced by leading chemists in the world to give perfect satisfaction.
