THE JOURNAL OF HEALTH.

Conducted by an Association of Physicians. " Health-- the poor man's riches, the rich man's bliss."

THE primary object with the conductors of I me Journal of Health, is to point out the means of preserving health and preventing disease. To attain this, all classes and both sexes shall be addressed, in a style familiar and friendly, and with an avoidance of such professional terms and Companion, or Family Physician " allusions as would in any way obscure the subject reading, study, and careful observation. shall be are indeed extensive and important Independ dren, are topics of permanent and pervading in ble lives. terest, with the discussion and elucidation of I do not hesitate to say, that this new edition of RECOMMENDATIONS OF THE WORK.

We approve of the plan on which the publication, entitled the "Journal of Health," is conducted, and believe, that it is calculated to be useful by enlightening public opinion on a subject of high importance to the welfare of society. The numbers which have appeared, evince talent, and may be viewed as a pledge of the continued usefulness of the publication, while conducted by its present editors. We therefore, feel no hesitation in recommending it to public patronage.

T. WATSON-

SUBSCRIPTION FOR IMPORTING

GRAPE VINE ROOTS.

From France, at amoderate price, and encouraging the introduction of that culture into the United States

MR. ALPHONSE LOUBAT, having considerably enlarged his Vineyard, on Long Island, where he now has, 'n full cultivation, thirty-five acres of ground, containing 72,000 Grape Roots, of which 22 000 are for his subscribers; having salso the peculiar advantage of

Garonne, in France, (45 N. Lat.) proposes to the numerous friends to the cultivation of the Grape Vine in the United States, a subscription, which was opened on the first of August, 1828 ... Mr. A. L. will engage to furnish subscribers with their Grape Vine Roots, before the First of March next, and forward them free of ex. e se, to the different cities where subscription lists shall have been opened The roots will be three years old, and will produce considerable fruit the second year from the time of their being planted

being enabled to procure the best species of

Roots from his Father's extensive Vineyards and

Nurseries, in the districts of Bordelais. Clerac.

and Buset, departments of Gironde and Lot and

es, with some of the original soil in which they have been raised, which will greatly facilitate the thriving of the roots, when transplanted. Orders will be punctually attended to: the subscribers designating the quantities and species of the Grape Vine Roots they wish to have -They will engage to pay, for 1000 roots, or more. at the rate of 12 1-2 cents for each root; for less than 1000, at the rate of 15 cents; and 25 cents per root for less than 50- Roots only two years old, shall be paid for at the rate of 9 cents each,

They will be carefully classed and packed i box.

1000; and 18 cents for less than 50 roots. Payment to be made on delivery of the roots, Leters not received, unless POST PAID.

each, for 1000 or more; 12 1-2 cents for less than

Vegetuble Catholicon. ONLY TWO DOLLARS P. R BOTTLE. The unparalleled reputation of this medicine is such, and its pre-eminent virtues are so well established, and so fully acknowledged by an intelligent public, that it is scarcely necessary to say

any thing further than that it is A Sovereign Remedy

In Diseases of the Liver : Debility resulting from intemperance and dissipation: Old and inveterate Ulcers : Pains in the Time, which levels all distinctions, even Bones, attended with swellings of the joints : and Tetter in particoular: Mercurial an Scrofulous complaints.

The certificates of wonderful cures performed by the Catholicon, have become so numerous, as to preclude their insertion in any newspaper, and has made it necessary for the proprietor to print them in a pamphlet of about 100 pages. This will be forwarded as soon as possible to the several Agents for gratuitous distribution, and must, on perusal, strengthen the good opinion now enter, tained by the friends of this medicine, and disarm as it is hoped, the prejudices of those who views with distrust any medicine not known in what is called " regular practice." Facts are stubborn

inings, and cannot be gainsaid the earnest solicitation of members of the he astonishing cures effected by the use of the Vegetable Catholicon, and who are anxious that its benefits to mankind may be more widely diffused, the proprietor has consented to reduce the retail price to TWO DOLLARs per bottle ; and this will be done without in any way deteriorating the quality of the medicine, or reducing the size of the bottle, as has been materially done in the

case of Swaim's Panacea. Extracts of letters recently received from physicians, and from agents for the sale of Potter s Catholicon, most of whom are also agents for Swaim s Panacea.

1st. "It is a hold step in Mr. Swaim to attempt to deceive the public by saying hat " the increasing demand for his medicine has enabled him to reduce his price to two dollars per bottle," this being entirely at variance with the established usuages of trade, as it is usual to raise the price of an article when in demand. The true cause is, that the sale of his Panacea has very much diminished, and we sell no more since the reduction in

2d. "If you conclude to lower the price of the Catholicon to two dollars, this will increase its sale very much. I should also advise you to continue the quantity the same as now. Mr. Swaim's bottles appear to be only about two-thirds their former size.' 3d. "The demand for your Catholicon remains

good at three dollars, notwithstanding we have reduced the price of Swaim's Panacea to two doagrs by his order." 4th: I retail more than a dozen bottles of your Catholicon where I sell one bottle of Swaim's Panacea; and I feel great plea-ure in informing

on that in every case in which I have seen the

Catholicon tried, it has produced decided benefit. 5th. "Could you afford to reduce the price of our Catholicon to two dollars, I should more frequently prescribe it to my patients, and this would also be done by a number of other practitioners in this town and vicinity, who have used it with the best effects, after all the other Panaceas, and the Compound Syrup of Sarsaparilla had failed. The use of the Compound Syrup of Sarsaparilla, or what is te med the " wood practice," having been formerly put downly the medical faculty, and recently got up again by some of our brethren in New York and Philadelphia, whose pockets appear to be the seat of their judg. ment-I do not like to say much about it."

6th. An emment physician says, " I have known several cures performed by the use of your Catholicon, which had previously resisted the ordinary prescriptions of the faculty, and I have never known it to produce INJURIOUS EFFECTS." ", *CAUTION. ...

HAT:, BOOTS, SHOES, &c. The proprietor of the Catholicon has recently received letters from abroad, stating, that the old bottles which contained the Catholicon, are, in some instances, filled with spurious mixtures, and sold as genuine.

To secure the public against counterfeits, the Catholicon has a small label covering the cork of each bottle, beautifully executed by the geometric lathe, with the words GENUIEE. W. W. POTTER, engraved thereon; and as the cork cannot be drawn without injuring this label, the medicine will be known to be genuine, when it is not torn, or otherwise defaced.

PURCHASERS MUST BEWARE OF IMPOSITION. Phila ielphia, Nov. 10, 1829.
