

On the night of that day, about 11 o'clock, the fears of the inhabitants were too fully realized. A small breach was at first made.

Eddyville is now an island. The Rondout, which before ran along the south side of that village, by the new channel has also obtained a passage on the north side.

It is expected that the repairs of the Delaware and Hudson Canal cannot be completed short of three or four months, perhaps longer.

A few minor particulars will not, perhaps, be uninteresting. A Mr. Howland, in attempting to cross to some point, the boat upset and he sank.

The Albany Daily Advertiser address-- We have been informed the New Paltz has also suffered from the late freshet.

We learn that the bridge across the Claverack creek, near the Print Works of the Messrs. Marshalls, was swept away by the freshet on Tuesday.

In addition to the above, we are informed that the bridge across the Kosendale, at Snyder's, has also been carried away.

A SCENE IN THE LAST WAR. The war with France being over, Sir Peter Parker took leave of his wife at Bordeaux, and we, with a large conveyance carrying troops, made sail to the coast of America.

We arrived in the Chesapeake at the time that the detestable war of conflagration was at its height. When we entered the Potomac, a large river which empties itself into the Chesapeake, the fertile shores of this beautiful abode presented the sad effects of the war!

FRUIT TREES.--We are sorry to hear from various quarters in Massachusetts, says the Boston Transcript, that serious apprehensions are entertained that there will be a scarcity of fruit the approaching season.

REMARKABLE PHENOMENON.--If we hold a narrow slip of paper vertically, about a foot from the eye, and fix both eyes upon an object at some distance beyond it, then if we allow the light of the sun or the light of a candle to act strongly upon the right eye without affecting the left, which may be easily protected from its influence, the left hand strip of the paper will be seen of a bright green color, and the right hand of a red color.

It was nine o'clock in the evening; the sun had long set, and the moon threw a clear pale light over the landscape.

that the destroyer was at hand. All was hushed and quiet, with the exception of the chirping cricket, and the rattle of the water as it broke on the Beach.

In ten minutes time I must set fire to this house, therefore use that period in removing your most valuable effects, for at the expiration of those ten minutes I shall give orders to burn the premises.

As an evidence of the success and prosperity of these schools, we would remark, that we have had during this fall three hundred and twenty-five cases of various diseases, and we have lost but three, out of all that number.

The system of practice taught is altogether superior to that taught in other Medical Schools, or pursued by other Physicians, the remedial agents being principally derived from the vegetable kingdom.

Animated by such encouragement, and feeling an ardent desire, still further to promulgate this valuable system, we have concluded in compliance with our original design, with the repeated requests of physicians, and others, to publish a work on the Practice of Physic and Surgery upon the Reformed, or Botanical System.

Patent Medicines have been vended under the pretence that they were the same as those published at our Institutions.

This volume of considerable size, published in this city, has been sold at a great price, in consequence of its having been stated that the author was President of our Society.

Conditions. The Work now in Press, will be issued as soon as possible, in two large octavo volumes, containing about eleven hundred pages, with some plates, for the sum of five dollars per volume.

It is now in Press, will be issued as soon as possible, in two large octavo volumes, containing about eleven hundred pages, with some plates, for the sum of five dollars per volume.

TO THE PUBLIC.

An anonymous publication has recently made its appearance in this city, purporting to be the Reformed Practice of Medicine, as taught at the "Reformed Medical College in New-York, and Worthington, Ohio."

W. BEACH, Prin. of the New-York Reformed Medical College. T. V. MORROW, Prin. of the Worthington (Ohio) Medical College.

PROSPECTUS

Of a New Publication, to be entitled the "System of Medical and Surgical Practice, as pursued at the U. S. Infirmary, and taught at the Reformed Medical Colleges in New York and Worthington, Ohio."

BY W. BEACH, M. D. Founder of the Reformed Medical Colleges, and President of the Reformed Medical Society of the U. S.

From a conviction and knowledge that the present practice of Medicine exerts a baneful and pernicious effect upon the health and lives of mankind, Colleges and Infirmarys have been founded, and are in successful operation, expressly to introduce an improved system, or to accomplish a reformation, in the science of Medicine.

The system of practice taught is altogether superior to that taught in other Medical Schools, or pursued by other Physicians, the remedial agents being principally derived from the vegetable kingdom.

Animated by such encouragement, and feeling an ardent desire, still further to promulgate this valuable system, we have concluded in compliance with our original design, with the repeated requests of physicians, and others, to publish a work on the Practice of Physic and Surgery upon the Reformed, or Botanical System.

Patent Medicines have been vended under the pretence that they were the same as those published at our Institutions.

This volume of considerable size, published in this city, has been sold at a great price, in consequence of its having been stated that the author was President of our Society.

Conditions. The Work now in Press, will be issued as soon as possible, in two large octavo volumes, containing about eleven hundred pages, with some plates, for the sum of five dollars per volume.

It is now in Press, will be issued as soon as possible, in two large octavo volumes, containing about eleven hundred pages, with some plates, for the sum of five dollars per volume.

II. There will be an abridgment issued at the same time, in one volume, at five dollars. Subscribers will please signify which they will take.

III. It will be executed in a superior style, as regards type, paper, binding, &c.

IV. Payment of each volume to be made on delivery, where agents are appointed. The most convenient mode by which persons in the interior can receive the work, is by ascertaining from their local Bookseller the address of the house he deals with in New York, on transmitting which to the author, the books can be deposited with him to be forwarded.

V. Booksellers, Editors, and Postmasters, (except those who sell a spurious work) are hereby appointed agents for the work; and are authorized to receive subscriptions, for which they will be allowed a liberal per cent on all monies remitted; they paying the expense of any further advertisements. Those who procure five subscribers and become responsible for the same shall have the sixth copy gratis.

VI. The work will shortly be issued, or as soon as a small number of subscribers are obtained.

VII. Persons holding subscription papers, will return them, or give information of the number of subscribers, as early as possible, designating how many of each work is wanted. Where orders are sent to New-York, the money must be paid in advance.

VIII. To prevent imposition, besides securing the copy right, the hand writing of the author in manuscript, will be annexed to both works. Should any person attempt to publish, abridge, or palm any part of this work, or any other purporting to be the same, a copy of this work will be given to any person, who will furnish us with the name and address of such person.

IX. Every travelling agent July authorized to receive subscriptions, must have a writing from the author certifying the same.

X. All orders for this work, with directions where they shall be sent, with subscriptions and communications, to be addressed, post paid, to the author, Dr. W. BEACH, No. 95 Eldridge-street, New-York.

New-York Reformed Medical College, December 20, 1831.

DE LA MONE AT'S

COLUMBIAN VEGETABLE SPECIFIC.

For the Cure of Consumptions, Asthma, Spitting of blood, and Pulmonary Affections of every kind. The most valuable remedy ever yet discovered for the cure of Consumptions and all diseases of the breast and lungs leading to consumptions.

DR. THOMAS WHITE'S VEGETABLE TOOTH ACHE DROPS.

THE ONLY SPECIFIC ever offered to the public from which a radical and permanent cure may be obtained of that disagreeable pain, the Tooth ache, with all its attendant evils.

CERTIFICATES. Mr. Thomas White: I have the pleasure to inform you that agreeably to your request, I have been using your Tooth-ache Drops in my practice for some time past.

I. A. BIRKEY, Surgeon Dentist. Sept. 12, 1829. No. 99 S. Fifth st. Philad., Pa.

DR. RUSH'S Anti Dyspeptic, or Sour Stomach PILLS.

Have stood the test of experience, and are found to be an infallible Cure for Indigestion. These pills have been highly approved of by those who have used them for the above disease.

times tasteless but most commonly sour, and contain mercury in any form, nor do they sick- en the stomach as most purgative medicines do, but perform the office of a safe and mild cathartic.

The above Medicines are for sale by WILLIAM SANDERS, Druggist, Newbern, March 28, 1832.

C. S. PLEASANTS, DENTIST.

RESPECTFULLY informs the inhabitants of Newbern and its vicinity, that having arrived he is now ready to perform all operations for the improvement and preservation of the teeth.

As he has engagements in other places, those persons wishing his services, will please give him an early call. He is to be found at the

Washington Hotel. Ladies waited on at their residences, if requested. It is his intention to visit Newbern annually, Newbern, March 29, 1832.

LITERARY NOTICE.

THE Hon. WILLIAM GASTON will deliver the Annual Address before the two Literary Societies at Chapel-Hill, on Wednesday the 20th of June next (the day immediately preceding the Commencement day.)

Published by order of the PHILANTHROPIC SOCIETY, March 17, 1832.
