TO THE PUBLIC.

An anonymous publication has recently made its appearance in this city, purporting to be the Reformed Practice of Medicine, as taught at the "Reformed Medical College in New-York, and Worthington, Ohio," by Professors and members of said Colleges. The object of this communication, is, to inform the public, that the above work was never issued by either the Professors of the New-York & Worthington Colleges as stated, or any of their members; nor have they ever published the practice therein taught. When persons steal the dress, or names of others, to palm their spurious "catch penny" pamphlets upon the credulous, it is hoped that they may be detected in their impo, sitions. We embrace this opportunity to statethat it has been in contemplation for some time by the Reformed Medical Society to publish their system of practice, as early as circumstances will justify it. The contemplated work will be issued, treating upon the various branches of Medicine upon the Reformed system, to which will be prefixed the name of the Physician authorized to publish the same, Any publication emanating from a different source, or of an opposite character, is, and will be, a gross imposition upon the public.
