A CARD.

THE subscriber respectfully informs his friends and customers, that in consequence of his determination to spend a few months in New York and Philadelphia, with the view of acquiring a more perfect knowledge of the Tailoring business, it will not, for some time, be in his power to attend to their orders. He will, however, very shortly locate himself permanently in his native town, and resume his profession, which he will conduct on an extensive scale, and, as he hopes, to the entire satisfaction of all who may favor him with their patronage.

RICHARD B. BERRY.
Newbern, January 24, 1833.

CAUTION.

THE subscriber was lately warranted by John Slye, of Bay River, Craven County, on two accounts presented by said Slye; who, contrary to law and usage, obtained judgments without the knowledge of the subscriber, who had no notice whatever given him to attend trial. As soon, however, as he learned that judgments had been obtained, he applied to the Magistrate who gave them, and requested a new trial, that he might make it appear by testimony, that the claims set forth by Slye were not just, but illegal. A new trial was accordingly granted, and notice given to Slye, and the Constable holding the judgments to attend at the Magistrate's on Saturday last. They did not however attend; and it is doubtless Slye's intention to endeavor to collect the amount of the illegal judgments, or to pass them away. Under these circumstances, the subscriber considers it his duty to caution all persons from trading for said judgments, as he is prepared to contest their recovery in a court of justice.

LIVE OAK TIMBER.

NAVY COMMISSIONERS OFFICE,
15th January, 1833.

PROPOSALS will be received at this office, sealed and endorsed, till the 31st of March next, for the LIVE OAK TIMBER, required to complete the frames of one frigate, and of one sloop of war, to be delivered at Portsmouth, N. H., and for one entire frame for a ship of the line, to be delivered at the Navy Yard, New York; there will be required to complete the two frames to be delivered at Portsmouth about 16,000 cubic feet.

Moulds by which the timber is to be cut, will be furnished to the Contractors; persons wishing to offer, can obtain, by applying to the Commandant of the nearest Navy Yard, a schedule of the pieces which have been furnished.

The offers must state separately the prices per cubic foot for each frame, the whole to be subject to the usual inspection and measurement and to be delivered on or before the 1st day of June, 1835.

Ten per cent. will be reserved from each payment to be made, as collateral security, in addition to the bond which will be required, and will not be paid until the whole quantity is delivered, inspected and approved, unless specially authorized by the Board of Navy Commissioners.

To be published twice a week in the Globe, National Intelligencer, U. S. Telegraph, Eastern Argus, New Hampshire Gazette, Commercial Gazette, Hartford Times, Rhode Island Republican Herald, New York Evening Post, New York Standard, Pennsylvania, Baltimore Republican, Norfolk Beacon, Newbern Sentinel, Charleston Patriot, Savannah Republican, Pensacola Gazette.

HEALTH.

WHILE in the enjoyment of Health, few people think of availing themselves of the opportunity which may offer of fortifying their systems against the attacks of disease, which they might easily do, by a light course of the Hygeian Medicines; which, though efficacious in restoring health when lost, presents an agreeable and pleasant preventive of contagion and epidemical complaints. They operate, in cases of Dyspepsia, with the unerring certainty of that most dangerous of all specifics, prussic acid, in removing those coats of dead phlegmatic humors which cover and render inert the digestive organs of the stomach, in purifying the blood, and restoring the whole body to a healthy and happy tone of feeling, and enabling the stomach to receive and retain whatever kind of food, either animal or vegetable, which usage has sanctioned as fit for nourishing the human frame. In no case have they ever failed in effecting a cure, when properly persevered in, no matter what may have been the nature of the complaint.—Gentlemen of the first respectability of New-York, who have used these Medicines, have authorized references to them for testimony corroborative of these assertions. Besides which, the written and published testimony of hundreds can be added to the same purpose.

The system of physiology upon which the efficacy of these Medicines is established, is extremely simple, and may be easily comprehended; it recognizes in the human frame but one disease which, taken at its origin, is denominated impurity of the blood, connected with a disordered state of the digestive organs, however various may be the appearances and symptoms in which it appears upon the surface of the body. People afflicted with hypochondriac, vertigo, weak eyes, nervous debility, sick head ache, sour stomach, or pimples, find immediate and permanent relief from the use of these Medicines. To ladies in particular, they strongly recommend themselves, and among other things as a cosmetic, as they render the skin clear and smooth, and purge it of all deformities and bad humors.

NEW ATLAS.

PROPOSALS for publishing by Subscription, a New and elegant Universal Atlas, to contain distinct Maps of all the Principal Kingdoms and States in the known World, and separate Maps of each of the United States, by **H. S. TANNER,** Author of a New American Atlas, Map of the United States, &c. &c.

Although numerous collections of Maps have been published in this country, but few have yet been completed on a scale and plan calculated to convey an adequate idea of the whole subject, or to do justice to the improved state of Geographical science in the United States. Most of those heretofore offered for public approbation have been only the first essays of this kind, and principally designed for the use of schools, or to illustrate geographical works, while these published in Europe are extremely defective and incorrect as respects the United States, the geography of which is so rapidly progressive that no European publication can keep pace with its advancement. This part of the work must be brought to maturity in our country, and such is now the respectable state of the Arts here, that we can assert with confidence that we possess the materials and skill sufficient to exhibit a topographical representation of the United States, indefinitely superior, as it regards correctness and detail, and every way equal in style, to any European publication of the kind.

The publisher of the proposed work has been collecting materials, preparatory to the execution of it, for several years, in which he has been assisted by some of the ablest geographers in this country and in Europe. In addition to this, he will avail himself of all the recent and important discoveries in both hemispheres, to enable him to execute the proposed Atlas in a manner every way satisfactory to the public.

The materials for the maps which relate to the eastern continents, will be selected from the latest and best European authorities, and exhibit a complete view of the world in connection with the United States. The State maps will be engraved from drawings compiled, as far as practicable, from original documents, on a scale sufficiently large to admit of an accurate representation of countries, with their subdivisions, the seas, lakes, rivers, and mountains, the counties, cities, towns and villages, and all the principal roads, internal improvements, &c.

The work will be completed as soon as circumstances will permit, consistently with accuracy and elegance of execution; and from the measures that have been adopted to procure the necessary information, no material delay is apprehended.

It was originally intended by the publisher, and proposals issued accordingly, to restrict the size of each map to an imperial quarto. It has since however, been found that the limits of such a sheet were entirely too small to admit the introduction of all the recent information which the author desired to incorporate with the proposed work; he has therefore determined to augment greatly the size of the maps, and to publish this work in monthly numbers.

The maps as now proposed, will be nearly double the size of those contemplated in the original prospectus. Though the maps be increased in size, the cost of the entire work will not much exceed the price of the Atlas as first proposed, as the whole may be comprised in about fourteen numbers.

In the execution of such an extensive plan, very great expense must be incurred, but the utility of a work of this description being evident, the publisher has entered on the task with alacrity, relying with full confidence on the importance and merits of the work to insure the patronage necessary to its completion.

Having thus briefly delineated the plan of the work, the publisher offers it to the public on the following

CONDITIONS:

I. The proposed Atlas shall be constructed from the latest and most authentic documents. It will be engraved in the first style of map engraving, and in every branch of its execution, accuracy of detail shall be aimed at.—Each sheet will be 11 by 14 inches.

II. The maps will be printed on the first quality vellum paper, and colored in an elegant and appropriate manner.

III. The Atlas consists of about fourteen numbers, with an engraved title sheet. It will be delivered to subscribers at \$1 for each number, containing at least four maps, payable on delivery.—To non-subscribers the price will be \$1 50 a number, each of which will be complete in itself.

Newbern, Jan. 23, 1833

700 bushels SALT
100 do. Irish POTATOES,
Just received and for sale by
Dec. 24. **AMOS WADE.**

THE subscribers propose to republish Blackwood's Magazine, The Metropolitan, and The Foreign Quarterly Review, commencing with the January numbers of 1833, as soon as they are received in this country, and continuing them in weekly numbers, (as far as the receipt will admit of regularity,) so as to furnish the entire matter of the three works within the year.

The works proposed to be republished are of established character for the ability and interest with which they are conducted.—BLACKWOOD is well known as the ablest and most interesting of the Foreign Periodicals, its present cost to subscribers in this country is \$11.

THE METROPOLITAN is a new Periodical, edited by Thomas Campbell, (recently editor of the New Monthly,) and Thomas Moore, assisted by Harrison, (author of a Diary of a Physician,) Mrs. Hemans, Mrs. Norton, and other writers of high reputation. The cost of the Metropolitan is \$15.

THE FOREIGN QUARTERLY REVIEW is devoted principally to Continental Literature, and is conducted with great talent. It treats of the literature and institutions of this country with impartiality, and often in terms of high and deserved commendation. It enjoys at present a higher reputation than either of the English or Scottish Reviews. The subscription price is \$9.

The expensiveness of the original publications prevents any extensive circulation of them in this country—the separate cost of the cheapest being 30 per cent. above that of the whole in the proposed republication; and the cost of the three not less than \$35, five times the cost of the re-print.

No intermixture of the works will be permitted to occur, but all the articles of each No. will be printed consecutively as in the original, and in such manner that at the close of the year each work can be separated by the binder, and bound by itself.

The work will be handsomely printed with new type, on fine paper, in Imperial Octavo, (Quarto Form,) in weekly Nos. of 16 pages each. The irregular receipt of the Periodicals may occasion some, but, it is hoped, not any serious irregularity in the publication. Several works being published in weekly numbers, the long intervals in which none are received, followed by an over supply, "all in a heap," will be avoided, and a more reasonable and regular allowance of reading ensured.

Terms—Seven Dollars per annum, payable on delivery of the first No.
