NEWBERN: FRIDAY, OCTOBER 11, 1833.

RAILROAD MEETING.

In pursuance of one of the Resolutions of the late Meeting of the Citizens of the County of Craven and Town of Newbern, the undersigned, the Chairman of that Meeting, invites the Citizens to reassemble at the Court House in Newbern on Monday the 13th of October next...

WILL: GASTON.

September 26th, 1833.

The citizens of the County and Town are already aware that our Rail Road meeting will be held on Monday morning next, at the Court House, when a full attendance is confidently expected.

The Steamboat John Stoney has been compelled to leave us for the present, for the purpose of accomplishing some repairs in her machinery.

We have given room in this number, for the explanation found in the Globe, of certain passages in the Proclamation, to which objection has been taken. It is well known that for some time since, the old opponents of the President, have been priding themselves upon the idea that he had assumed some of their favorite doctrines...

We have been informed, on the best authority, that many of the farmers of Greene county, have transported their Cotton to the Virginia Railroad, where it commands sixteen cents! Such facts afford at once a conclusive proof, both of the advantages arising from this species of Internal Improvement...

It will be perceived that the famous or rather infamous Mr. Garrison, of black memory, has arrived in this country, and like a second Alaric, the first intimation of his approach is given by his thundering at our gates.

these disorganizers, who would sacrifice our political safety and national union upon the altar of distempered superstition, and we are extremely gratified to perceive in this instance such a powerful confirmation of our belief.

A Philadelphia paper quotes the language of Brougham in the House of Lords towards the Duke of Cumberland, as an offset to the charges of coarseness of manners brought by English travellers against American Legislators. The editor thinks such conduct unknown in either house of our Congress since the affair of Lyon and Griswold.

DEATH OF THE KING OF SPAIN.

Our advices by the Erie left little reason to doubt the near approach of King Ferdinand's demise. The arrival of the brig Cordelia, at Boston, from Halifax, has furnished intelligence that this anticipated event has occurred, although no other information accompanies it, than that Don Carlos and his followers were said to be on their way from Portugal to Spain.

The following are further extracts from the letter containing the foregoing information.—Com Adv. LISBOA, August 23, 1833.

During the last week, the strong positions around the city have been preparing and fortifying against any attack the Miguelites may attempt. At present little is known of their numbers, or where they are—possibly in a line from Santarem to Leria, Figueira and Coimbra.

The force of Donna Maria here and a few leagues in advance, may be 6 to 8000 regular troops, and 12,000 to 15,000 others, (national, city and volunteer corps,) with about 400 cavalry, and two parks of artillery. We are therefore not in much apprehension of the enemy entering the city.

Mercantile business is nearly at a stand, with any intercourse with the provinces of Spain. We have advices from Oporto of the destruction of some 12,000 pipes of wine by the Miguelite army at Villa Nova, also of the liberal army having attacked the Miguelite lines, forced them, and gained a complete victory, so as to leave the north side open, and report says—the south also, and a free navigation with the Douro.

STEAM PACKET TO LIVERPOOL.—The keel of a splendid steam packet, with four engines, to ply between this port and Liverpool, will be laid this week. She will be of a large size; and as the enterprise is undertaken by gentlemen of capital, no expense will be spared to make the experiment in the best possible manner, so that there can be little doubt of its success.

From the New-York Mercantile Advertiser and Advocate, Thursday Oct. 3.

MEETINGS ON THE SUBJECT OF SLAVE EMANCIPATION.—Great excitement has been created in our city by a notice issued a day or two since, signed by several citizens, the object of which was to convene a meeting last evening at Clinton Hall, of the friends of immediate Emancipation. The hour named in the notice was half past 7 o'clock. About 7 o'clock the people began to assemble in considerable numbers on the stairs and in the passages of Clinton Hall...

PUBLIC MEETING. On Wednesday evening at 7 o'clock, a large concourse of the citizens of New-York, assembled at Clinton Hall, in pursuance of the following notice:—The friends of the immediate abolition of Slavery

in the United States are requested to meet at Clinton Hall on Wednesday evening, 2d October, at 7 o'clock, to form a New York City Anti-Slavery Society.

JOSHUA LEAVITT, WM. GODELL, JOHN GREEN, JR., JOHN RANKIN, LEWIS TAPPAN, Committee.

The assemblage being informed that the Trustees of Clinton Hall had closed their doors against any meeting which might convene under the foregoing notice, those present organized in the passages of the building by calling General Robert Bogardus to the Chair, and appointing M. C. Patterson, Esq. and Mr. P. P. Parcells secretaries. On motion, it was then resolved to adjourn to Tammany Hall.

The large room in that well known establishment was soon filled to overflowing; when the following resolutions were introduced by T. A. Tallmadge, Esq. with a short but appropriate address; and being seconded by John Neal, Esq. of Portland, Maine, who also made some pertinent remarks, which were unanimously and enthusiastically adopted.

Resolved, That our duty to the country, and our Southern brethren in particular, render it improper and inexpedient to agitate a question pregnant with peril and difficulty to the common weal. Resolved, That it is our duty as citizens and Christians to mitigate not to increase the evils of slavery by an unjustifiable interference, in a matter which requires the will and cordial concurrence of all to modify or remove.

Resolved, That we take this opportunity to express to our Southern brethren, our fixed and unalterable determination to resist any attempt that may be made to interfere with the relation in which master and slave now stand, as guaranteed to them by the Constitution of the United States.

Resolved, That the thanks of this meeting be presented to Messrs. Howard and Lovejoy, for the gratuitous use of their room on this occasion. Resolved, That those proceedings be signed by the Chairman and Secretaries, and published in all the daily papers.

ROBERT BOGARDUS, Chairman. M. C. PATTERSON, Secretaries. P. P. PARSELLS, Secretaries.

CHARLESTON, October, 1. Unfortunate Accidents.—We are under the painful necessity of recording two accidents which took place upon the South Carolina Rail Road. The first occurred four or five miles this side of the Inclined Plane on Sunday last, about half past 2 P. M.—The Locomotive Phoenix, was propelling two passenger cars, the first of which contained fourteen passengers, seven of whom were females, when the forward car mounted the rail and fell off the road, which at this place, is raised about six feet from the surface of the earth, drawing the other car after her—both of the cars were shattered to pieces, and six gentlemen, who were in the after part of the car, were more or less injured.

After disengaging the passengers from the wreck, another passenger car was obtained from the Phoenix Locomotive, in which they embarked, with five freight cars attached, loaded with Cotton, on their way down. When the locomotive arrived within about one mile of Summerville yesterday, a smoke was seen issuing from one of the two last freight cars, upon which more steam was put upon the locomotive for the purpose of reaching a pump, about half a mile distant, but the increased speed caused the flames to break forth with more violence, and communicated to another of the cars. The engine was then stopped, and the cars which were in flames, promptly disengaged. The passengers being in the rear of the whole, the smoke was so dense as nearly to suffocate the passengers, several of whom leaped from the car, (although warned not to do so) to the ground below, a distance of fifteen feet, among whom was Mr. Moise, who had been previously injured, and who alighting upon some logs, on his back, was again much hurt, and from what we can learn from the passengers, dangerously so.

The two cars which took fire were entirely consumed, also 36 bales of Cotton, with which they were loaded. The Columbia Mail was destroyed, and the Camden and Augusta Mails considerably injured. Some of the baggage of the Passengers was also destroyed.

The Editor of the Advocate, who is friendly to the United States Bank, has the following candid remarks in his paper of yesterday:—Com. Gaz. "The United States Bank.—The disclosures of the Bank Directors for the Government, relative to an expenditure of \$90,000 among Editors and printers, to sustain the Bank, have struck us with surprise and mortification. If they are correctly stated, we see not how to escape from the conclusion, that however valuable the Bank may be to the country, its chief managers are corrupt, and undeserving public confidence. If the Bank is to be saved to the country, it is apparent now that it can only be done by the stockholders and its friends disclaiming this alarming system of bribery, which its officers have resorted to."

The "Lexington Intelligencer" of yesterday invokes some hand to assassinate the President of the United States! With patriotic indignation it exclaims, is there no Brutus to deliver us?—and all because the President thinks the Public Depositories would be more secure in other Banks, than they are in the vaults of the Bank of the United States. What the quiet people of the country now say of an Institution, in support of which all the catalogue of crimes is openly invoked by its partisans and panders?—Kentucky Gazette.

NEW YORK MARKET, OCT. 3. Western Flour was rather dull yesterday, and in several instances a trifling decline was submitted. Sales at \$5 62 to 5 68 for fancy brands. In Southern nothing doing worthy notice. No sales of Wheat worth recording. Sales of Northern Rye at 80c. for 56 lbs. Barley 70 to 71. Northern yellow and white Corn at 77 to 78c. Southern 67 to 72c. according to quality.

The advices received per Erie did not as was generally expected, produce any effect on the Cotton market; it remains without animation or change in prices: the stock on hand is very small.—Courier.
