**NOTICE.**

**WANTED for the United States Army,** a few able-bodied citizens, between the ages of 18 and 35 years, being above 5 feet 6 inches high, of good character, and of respectable standing among their fellow-citizens. None need apply to enter the service, but those who are determined to serve the period of their enlistment, which is only three years—honestly and faithfully.

Pay of Dragoons when mounted.	Three years.	Two years.	One year.
Pay per annum.	192	180	144
Pay per month.	16	15	12
Pay of Artillery and Cavalry when serving on foot.	Three years.	Two years.	One year.
Pay per annum.	120	108	80
Pay per month.	10	9	6 2/3

This Table shows the amount of pay to be received by soldiers, according to their respective grades, and entitled to receive for their services.

Besides the monthly pay, as above stated, one ration per day is allowed every soldier, which is amply sufficient for his subsistence—also, a large supply of comfortable and genteel clothing. Good quarters and fuel are at all times furnished; and every attention will be paid to making those men who may enlist, and are determined to serve their country in good faith, comfortable and contented with their situation. The best medical attendance is always provided for the sick soldier; and no deduction of pay is made during the period he is unable to perform his duty.

By the above it is seen that the pay and allowances are respectable, and that, with prudence and economy, the monthly pay of the soldier may be laid up—as every thing requisite for his comfort and convenience, is furnished by the Government, including his sugar and coffee. The prudent soldier, therefore, may readily save from \$300 to \$500 during his short enlistment of three years; and at the expiration of the term he can, if he chooses, purchase a small farm in any of the western States, and there settle himself comfortably, on his own land, for the rest of his life.

## DYSPEPSIA AND LIVER COMPLAINTS.

THE PATENT MEDICINE TOMACHEICA, ET HEPATICA formed by chymical analysis and synthesis of several proximate vegetable principles, are universally acknowledged to have totally eclipsed the pretensions of every other remedy, and superceded the necessity of every other mode of treatment, wherever the above diseases are found to exist, as well as in enlargement of the Spleen and in Jaundice.

Among the symptoms of Dyspepsia and Liver Complaints, are flatulency, sourness or burning in the stomach, melancholy, irritability, disagreeable taste in the mouth; great irregularity of appetite, which is sometimes voracious, and at other times greatly deficient; thirst, fetid breath, nausea, weakness of the stomach, acid eructations, palpitation, drowsiness, irregularity of the bowels, pressure on the stomach after meals, pain in the head, dizziness, vertigo; confusion of mind, attended with loss of memory, a yawning in the stomach when empty, chilliness, affection of sight and hearing, pain and weakness in the back, languor, disturbed sleep, cold feet and hands, tremor, uneasiness in the throat, cough, pain in the side or breast, &c.

These Medicines have been found so effectual in removing the Complaints for which they are recommended, that Physicians frequently have recourse to them, after having exhausted all their skill to little or no purpose.

## DR. PETERS' Vegetable Anti-Bilious Pills

Are the cheapest and most approved FAMILY MEDICINE ever offered to the Public. They are extremely mild in their operation, neither causing sickness of the stomach, nor any unpleasant sensation in the system, as is so frequently the result from medicine given to act upon the bowels. They act specifically upon the Liver when in a torpid condition, carrying off a large quantity of bile through the influence of the excremental function, which, if suffered to remain in the system, would produce either Jaundice, Liver complaint, Bilious Fever, Fever and Ague, or some other grievous bodily affliction. In all cases of torpor of the bowels, they act like a charm. In recent cases of Dyspepsia, they are a certain cure. Many persons who were subject to violent attacks of sick head ache, have been much benefited, and several perfectly cured in a few weeks by their use. They are highly recommended as a preventive and cure of Bilious complaints. Persons who are subject to that distressing complaint, sea-sickness, by taking a portion or two of them a few days previous to embarking on board the vessel, will be almost certain to escape it. Females can use them at all periods, without incurring any risk. Persons going to sea, or to a southern climate, should by all means take some of these Pills with them.—Their virtues will remain unimpaired for years in any climate. No family should be without these Pills; a portion of them, taken occasionally, would be the means of preventing much suffering from sickness. It is from neglect of keeping up a regular peristaltic action of the stomach and bowels, thus suffering to be absorbed and mingled with the blood, unassimilated fluids, that most diseases are produced. Dr. P. feels confident that no person who gives these Pills a fair trial, will ever after feel willing to be without them. The testimony of thousands speaking in the highest terms of their efficacy, might be added, but the very high reputation Dr. P. has acquired as the inventor of the "Patent Vegetable Medicine Stomachica et Hepatica," for the cure of Dyspepsia and Liver complaints, is thought a sufficient guarantee to those wishing to make a trial of their virtues. They contain not a particle of Mercury, or any ingredient that does not act in harmony with health and oppose disease.

Dr. P. wishes it distinctly understood, that these Pills possess beneficial qualities independent of their purgative effects; they are both tonic and deobstruent, acting upon the secreting and exhalant functions; thus strengthening the patient, while they remove obstructions.—Medicines which possess no other, excepting cathartic qualities, debilitate the patient, and their repeated use lays the foundation of a long catalogue of Chronic diseases.

Dr. P. having been educated under the most eminent American and European Medical professors, and practiced his profession many years in the South, where diseases of the most obstinate character prevail, considers himself well qualified to judge of the nature of diseases incident to warm climates. Prepared by **JOSEPH PRIESTLEY PETERS, M.D.** P. B. C. P. M., at his institution for the cure of obstinate Diseases, by means of vegetable remedies, No. 129 Liberty street New York, inventor and sole proprietor. Each box contains forty Pills. Price 50 Cents.
