

**Seizure of the Buenos Ayrean private armed Schooner Federal.**

The following is the correspondence between Capt. DANIEL TURNER, of the United States Ship ERIE, and the authorities of St. Bartholomew, relating to the Buenos Ayrean private armed Schooner FEDERAL, Capt. WM. TAYLOR, which was subsequently cut out from the port of Gustavia, by the boats of the ERIE, in the night, between the 5th and 6th of December, 1828.

(Copy—No. 1.)

*United States Ship Erie, at anchor off the Town of Gustavia, St. Bartholomew, 4th December, 1828.*

HONORABLE SIRS—In consequence of a communication made to me by Robert Monroe Harrison, Esquire, accredited Agent of the United States to this Government, stating that there now is a Buenos Ayrean private armed vessel, the Federal, Captain TAYLOR, at anchor in this port, which had taken, at sea, from on board the American brig Nymph, of Boston, GLIDDEN, Master, a quantity of dry goods, under the pretext of such goods being the property of the enemies of the Republic of Buenos Ayres,—as my Government does not recognise the principle thus attempted to be established by that of Buenos Ayres, with regard to enemy's property found on board of neutral vessels,—I, in the name of the Government of the United States, and in pursuance of instructions therefrom, request that your Honors will cause the said Vessel, her Captain, Officers, and Crew, together with the goods by her imported, to be delivered to me, for the purpose of being hereafter disposed of as the Government of the United States may direct.

In consideration of the very amicable terms on which our Governments have long continued, I flatter myself that the present request will not meet with any opposition from your Honors.

In the mean time, I pray your Honors to accept the assurance of the distinguished respect and consideration with which I have the honor to be,

Your Honors most obedient and humble Servant,  
(Signed) DAN. TURNER, Commander.

To the Honorable Major HAASUM, and the Honorable Justiciary, &c. &c.

(Copy—No. 2.)

*Government of St. Bartholomew, GUSTAVIA, 4th Dec. 1828.*

To Captain D. TURNER, Commander of the United States Ship Erie, Gustavia Roads.

SIR—We have the honour to acknowledge the receipt of your letter of this afternoon, and shall with as little delay as possible lay the claim you have made for the Buenos Ayrean private armed Schooner FEDERAL, before the Council of Government; after which we shall not fail to give you immediate communication of its decision.

With sentiments of distinguished consideration, We have the honor to be, Sir, Your most obedient & humble Servants,  
(Signed) JAMES H. HAASUM, L. G. MORSING.

(Copy—No. 3.)

*Government of St. Bartholomew, GUSTAVIA, the 5th of Dec. 1828.*

To Captain D. TURNER, Commander of the United States Ship Erie, Gustavia Roads.

SIR—We have, in conformity with our promise of yesterday, laid before the Council of Government, the claim that you have made for the Buenos Ayrean private armed Schooner FEDERAL, her Captain, Officers, and Crew, as also her prize cargo, on the grounds that said cargo had been taken out of an American vessel at sea, as enemies' property, contrary to the principles maintained by the Government of the United States. In reply, we have the honor to acquaint you, that, as the present question regards entirely a contested principle, as it appears between the United States and Buenos Ayres, this Government does not consider it to be within its province to decide thereon, particularly as the Privateer does not appear, by the act in question, to have infringed the Laws of Nations, or the regulations of the Flag under which he holds his Commission; and it will consequently not be in our power, in the present instance, to accede to the demand you have made, although we entertain the sincerest desire to foster on every occasion, the amity and good feeling which so happily exists between our respective Governments.

We avail ourselves of this opportunity to renew to you the assurances of the distinguished consideration with which we have the honor to be,

Sir, your most obedient, humble Servants,  
(Signed) JAMES H. HAASUM, L. G. MORSING.

(Copy—No. 4.)

*United States Ship Erie, at anchor off the Town of Gustavia, Island of St. Bartholomew, Dec. 5th, 1828.*

HONORABLE SIRS—With an equal share of regret and surprise, I have received your communication, announcing the determination of His Swedish Majesty's Council for this Island, not to deliver up to me the piratical vessel called the FEDERAL, Captain TAYLOR, as requested in my official communication of yesterday's date.

From the peculiar circumstances attending this transaction, (the robbery or act of piracy having been committed on the high seas by a vessel whose Commander, I am well assured, was at the time well aware of the conclusion of peace between the Governments of Brazil and Buenos Ayres, and against a vessel of a Power in amity with both of those lately belligerent Powers, one of which, I have every reason to believe, has never been formally recognized by His Swedish Majesty,) I am reluctantly compelled to express my astonishment at a result so unexpected. The very intimate relation that now subsists between our respective Governments, a relation on which the best interests of this Island depend, led me to expect a different decision from its constituted Authorities:—that decision will, of course, be communicated by me to the Government of the United States, and to that of Sweden and Norway, by R. M. Harrison, Esq. through our Charge des Affaires at Stockholm. I would here take leave to add, that the claim made by

me does not rest on a contested principle between the Government of the United States and that of Buenos Ayres, but on the Law of Nations, as acknowledged by every Maritime Power of Europe, one only excepted, and more particularly by the armed neutrality of the Northern Powers of Europe, of which coalition the Kingdom of Sweden formed a conspicuous member. That any protection should be thus afforded to a vessel officially charged with the commission of an act of piracy, on a vessel wearing the Flag of a Nation which reciprocates the most liberal policy with Sweden, cannot, I presume, and have every reason to believe, meet the approbation of either. As my instructions render it incumbent on me to proceed to sea at an early hour tomorrow, in conclusion I have the honor to request, that the property so captured, which I claim in behalf of its American owners, may be delivered into the custody of Robert Monroe Harrison, Esq. to be disposed of as may be directed by the Government of the United States, which will, of course, consider a responsibility to rest somewhere, for amount of property thus piratically taken.

In the mean time, I have the honor to be, Honorable Sirs, Your obed't and most humb. Serv't, &c.  
(Signed) DAN. TURNER, Commander.

To the Hon. Major HAASUM, and the Hon. the Justiciary, &c. &c.

(Copy—No. 5)

*Government of St. Bartholomew, GUSTAVIA, the 5th Dec. 1828.*

To Captain DAN. TURNER, Commander of the United States Ship Erie, Gustavia Roads.

SIR—We have just received your letter of this day, stating your regret and surprise at our determination not to deliver up the Buenos Ayrean armed Schooner FEDERAL, on the grounds mentioned in your claim of yesterday:—Having added, that you consider the vessel, already officially denounced to us as a piratical one, we think necessary to observe, that from the tenor of your claim, as stated in writing, we have not been able to conclude that any such denunciation was made.

Your letter of this day, without containing any new reasons, has brought a new accusation against the FEDERAL, that of "piracy;" and we beg you to be assured, that whenever you support the same by any proof, we will most readily co-operate to bring the offenders to condign punishment.

That a responsibility for the capture must rest somewhere, we cannot doubt; else our resolve would have been materially altered.

Though we think you too sanguine in the anticipation of what will be the opinion of our respective Governments, with regard to our refusal to accede to such a claim as that contained in your letter of yesterday, we feel too much regard for the Government on whose behalf you have addressed us, not to sign ourselves, with distinguished consideration,

Sir, Your most obed't Servants,  
(Signed) JAMES H. HAASUM, L. G. MORSING.

I the undersigned NOTARY ROYAL and PUBLIC for the Island of Saint Bartholomew, do HEREBY CERTIFY, That the foregoing Five Copies, word for word, truly conform to their respective Originals, which have been exhibited to me this day.

In testimony whereof, I have hereunto set my Hand and Seal of Office, at Gustavia, on the Island of St. Bartholomew, this 6th of December, 1828.

GEO. EKHOLTZ, Not. Roy. and Publ.

From the Richmond Enquirer, Dec. 18.

**Horrible Scene.**—Robert Mendum, the subject of the following communication, was convicted at the Superior Court of Chesterfield, for the murder of Ebert Mosby of Powhatan county. It appeared from the evidence, (near ninety witnesses were examined on the trial) that he had previously had an intercourse with Mosby's wife—that to allow his passions fuller scope, he had combined with M.'s slave, to make way with him—had decoyed him to a secret spot—where the slave and himself had fallen upon and murdered Mosby—not without a struggle; for the slave received several wounds in the rencontre.—These wounds excited suspicion, and led to a confession on the part of the slave. The last was sentenced to death in Powhatan—but Mendum appealed to the last General Court for Writ of Error and a new trial. The Court refused the application, and the sentence of death was to be carried into effect on Friday next.—The following gives the catastrophe of Mendum:—

**An Awful and Horrid Affair.**—On Monday, the 15th inst. a most horrid and awful affair happened in the jail of Chesterfield: two prisoners, Joseph Whiteford and Robert Mendum, who were confined in jail under a sentence of death for murder, which sentence was to have been carried into execution on Friday next, determined to put an end to their existence by committing suicide. The jailor, as is the usual custom, gave them in razors to shave, and after shaving themselves, the said Whiteford remarked to the guard and his fellow prisoners, that he never would be carried to the gallows to be made a spectacle of for thousands of people, and then deliberately drew the razor across his throat several times, and gave to himself a severe wound, but of which wound he still survives, and the same is not considered fatal by the physician, who was speedily called to his assistance, and he may yet live to pay the penalty of the violated laws of his country, for which he is sentenced to die.

The case of Mendum was far more unfortunate, or rather fortunate; he accomplished his designs with coolness and firmness—even with that sort of firmness that would in ancient times have done honour to a Roman patriot:—he, with the utmost deliberation, took a knife that had been clandestinely conveyed into the jail to another prisoner, and, placing the handle thereof against the wall, forced himself with violence against the point, and gave to himself a wound in the lower part of the breast, about four inches deep; but believing this not to be sufficient to end his miserable life, he took the razor he had to shave with, and presenting his face to the glass, to see with more certainty where to give the fatal stroke, he drew it deliberately and carefully in the same place several times, and, with the left

hand, drew the flesh down to give greater effect to each stroke, and in a few seconds fell and expired without a groan. All this happened in the space of a few seconds, and before the keys of the inner apartments of the jail could be procured; but in the view of the guard and several other persons, who had collected at the jail; there were two other prisoners in the apartment with Whiteford and Mendum, but neither of them could be prevailed on to prevent them from carrying their designs into execution; one of them, however, at the earnest request of some of the bystanders, at one time advanced towards Mendum for the purpose of getting the razor, before he commenced using it on his throat; but Whiteford, notwithstanding his own situation, (for he had then cut his own throat) took up a small stick and gave him a blow, and told him to stand off and not go near—Mendum also ordered them not to come near him. Mendum has invariably denied being guilty of the murder of which he was convicted, notwithstanding the numerous, clear, and indubitable circumstances given in evidence against him—such circumstances as could not have left a shadow of doubt upon the mind of any one who has heard them: he has confessed though that a pocket-pistol found on the ground where the murder was committed, and a dirk found near the same place were his, but refused to tell how the same went out of his possession. Whiteford still insists that he killed Anderson in self-defence. A Coroner's Inquest has been held over the body of Mendum, at the request of the jailor, and the jury, in their report, say, that the said Mendum voluntarily and feloniously killed and murdered himself.

**MISCELLANEOUS.**

**Boring for Water.**—A correspondent of the Albany Daily Advertiser states that a machine, cheap and simple in its construction, has lately been invented and patented by an ingenious mechanic, Mr. John R. Failing, of Frey's Bush, Montgomery county, by which the operation of boring is performed, with much ease and great expedition. By the help of Mr. Failing's machine a work may be accomplished in a few weeks, which, by any other known method, it would require years to perform. The work of penetrating the hardest rocks is done by one man and a horse only. The expense of obtaining water in this way has hitherto been very great.

A pump has been in operation in this place for two or three weeks, made by Mr. A. D. Brown, which we believe to be an original plan. If it be not entirely new, it is at least so to Mr. Brown, who has never seen any thing on the same principle. The machinery is nearly or quite as simple as the common pump, over which it possesses the great advantage of raising water to any height. The one now in operation is upwards of 30 feet in length, and an experiment has been tried of its power by closing it up, except a small portion of the valve, by which the water was thrown more than twenty feet above the pump, with considerable force, and could be to almost any distance, by the application of increased power to the handle. It may be very useful in deep wells; as it would no doubt, without difficulty, raise water from the bottom of the deepest well in the country.—*Macon Messenger.*

**Irritation.**—Excitability is essential to the continuance of life. The effect of excitation on the nerves, as every where else, is to produce a movement of contraction. If this movement, which in a healthy state is repeated a certain number of times in a certain period, becomes quicker, excitation changes its name, and becomes irritation, and a malady.—Simple irritation differs from inflammation, in that the latter particularly affects the cellular systems and the blood vessels, and leads to a train of disorders which irritation alone never produces.

**Envy.**—In a Polish fable entitled "the Miser and the Envious Man," the latter is represented as obtaining from the gods the favour of being allowed to lose one eye, in order that he may, at the same time, deprive the former of the only eye he had left!

The great "American Dictionary of the English Language," edited by Noah Webster, Esq. has been published by Mr. Converse, of New Haven, in two noble quarto volumes. In mechanical execution, this extensive work is all that could be desired. As we have merely read the Advertisement and Preface, we cannot undertake to give an opinion of its literary merits. Though some features of Mr. Webster's plan be exceptional, and some portion of the contents may be deemed superfluous or unsuitable, yet we cannot doubt that these volumes are exceedingly valuable on the whole. They ought not to be judged without very deliberate and close examination.—*N. Y. Daily Advertiser.*

**Blistered Feet.**—The following mode of cure was communicated to Capt. Cochrane, and which he says he never found to fail:—"It is simply to rub the feet at going to bed, with spirits mixed with tallow dropped from a lighted candle into the palm of the hand. On the following morning no blisters exist; the spirits seem to possess the healing power, the tallow serving only to keep the skin soft and pliant. The soles of the feet, the ancles and insteps, should be rubbed well; and even where no blisters exist, the application may be usefully made as a preventative. Salt and water is a good substitute—and while on this head, I would recommend foot-travellers never to wear right and left shoes: it is bad economy, and indeed serves to cramp the feet; and such I felt to be the case."—*Cochrane's Pedestrian Tour.*

**GARDEN SEED.**  
JUST received, on consignment, from Enfield Connecticut, fifteen boxes GARDEN SEED, warranted fresh and good.  
SAMUEL OLIVER  
December 13, 1828. 19ct
